## EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

These Regulations are being made under subsection (4) of section 1006A (inserted by the Finance Act, 2000 and amended by the Finance Act 2001) of the Taxes Consolidation Act, 1997. That section empowers the Revenue to offset repayments due to a person against outstanding liabilities of the person.

The purpose of the Regulations is to set out an order of priority for such offsets.

Liabilities will be divided into 2 priority categories as follows:

- (1) Liabilities other than current estimates and liabilities at enforcement, and
- (2) Liabilities at enforcement.

Within each category, but subject to one special case, a repayment will be set off in the following sequence-

- (a) the taxhead giving rise to the repayment,
- (b) value-added tax,
- (c) employers PAYE,
- (d) relevant contracts tax,
- (e) corporation tax,
- (f) income tax, other than at (c),
- (g) capital gains tax,
- (h) residential property tax,
- (i) inheritance / gift taxes,
- (j) stamp duties,
- (k) vehicle registration tax, and
- (l) excise duties.

The special case is where the repayment arises in the corporation tax, income tax, capital gains tax grouping. In such a case liabilities within that same grouping are dealt with first before reverting to the order referred to above.

The taxpayer will have the option to request the Collector-General, at any time but not later than 30 days after the issue of the notice of offset, to vary the offset as nominated by him/her.

Within a taxhead a claim or overpayment will be offset against older liabilities before younger ones.

For the purpose of offsetting against interest owed by the taxpayer, the “age” of the interest is determined by the “age” of the tax, etc. giving rise to it.
