About the Roles

We are offering graduates positions across three key fields:

- ICT – Software Development (Dublin, Limerick, and Castlebar)
- ICT – Technical Architecture (Dublin only)
- Data Analytics (Dublin, Limerick, and Cork).

Why Choose ICT with Revenue?

- opportunities to develop your knowledge and skillset
- one of Ireland's top public sector ICT environments
- design, build, and maintain systems
- test and support end-to-end business solutions
- positively impact the day-to-day lives of the public.

Why Revenue?

We offer:

- flexible working arrangements
- a strong focus on wellbeing and work-life balance
- a culture of collaboration and innovation
- support in your learning and training
- ongoing professional development
- a career path.

Who Should Apply?

We're looking for graduates who:

- possess relevant ICT or Data Analytics knowledge
- have a good understanding of the business and economic environment
- are resourceful and creative problem-solvers
- can work independently or collaboratively
- are resilient.

**Take the next step in
your career and make
a difference.**
