4. After reading about the proposed new eWHT system, how would you describe your overall reaction?

Somewhat positive - I think it's a good idea overall

5. What aspects of the proposed model appeal most to you, and why?

To be quite honest - anything would be an improvement to the current processing arrangement. We are a small business and currently 20% of our fees are with held - it can take up to 4 months to have these amounts offset against our VAT /PAYE Liabilities and they we are penalised with interest demands because our payments are not on time.

6. What concerns or reservations do you have about the proposed approach?

The time it will take to streamline - could cause more problems. Im unclear how the amount withheld is calculated ?

7. The proposed eWHT model seeks to expand withholding tax to payments to service providers where a suitable withholder exists. How do you feel generally about this type of expansion?

What is a suitable with holder?

- 8. In relation to PSWT specifically, this currently applies to payments made by state and semi-state bodies for certain services. Do you have a view on how it is targeted and if the types of payments it applies to should be reviewed?**

I don't understand why it should apply at all if the company has not outstanding tax liability.

- 20. Please indicate if you currently receive payments which are subject to deduction of:**

Professional Services Withholding Tax (PSWT)

- 21. Where you are currently subject to PSWT and/or RCT, how does the current application of withholding taxes impact on your business operations?**

We are a small recruitment company - and it takes so much time to have the pswt offset against tax liabilities that we are late with payments of VAT and PAYE - this results in interest penalty payment demands. Its seems to me to be very unfair - we sometimes wait 2,3,4 months for refunds/offsets .

- 22. From the perspective of a SP, what are your views on the application of RCT and/or PSWT, as the case may be?**

??

- 23. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?**

24. Where you are an SP operating as a corporate/partnership or other entity, do the current rates that apply to PSWT and RCT reflect your actual liability on the income received?

No

25. The proposal aims to embed taxation directly into how you get paid by the DW. How beneficial do you think this would be for your business?

I dont understand the proposal fully.

26. Where you are an SP operating as an individual worker, the proposal aims to implement personalised deduction rates (PDR), which means you will pay tax on your income as you go, similar to how employees are taxed under PAYE. What impact do you think PDR will have on your cashflow and financial management?

Unclear

27. Do you think this new regime, including the PDR will have a positive effect on your end of year Income Tax return filing and preliminary tax payment obligations?
