Very negative - I do not support the proposed direction

5. What aspects of the proposed model appeal most to you, and why?

Non of it really

6. What concerns or reservations do you have about the proposed approach?

Getting stopped more tax. I pay my tax bill every year & it's paid in full.

7. The proposed eWHT model seeks to expand withholding tax to payments to service providers where a suitable withholder exists. How do you feel generally about this type of expansion?

I don't see why it has to change? If I didn't pay my bills I'd understand the changes.

8. In relation to PSWT specifically, this currently applies to payments made by state and semi-state bodies for certain services. Do you have a view on how it is targeted and if the types of payments it applies to should be reviewed?

No view ?

9. Please indicate if you currently operate:

Relevant Contracts Tax (RCT)

10. From the perspective of a DW, how does the current application of PSWT and/or RCT impact on your business operations?

At the minute my RCT is 0% & I'm happy with that it allows me to have funds in my account to balance my year. Good or bad it helps to have it & then just pay my tax bill at the end of the year.

11. If you are a Platform Operator, does your organisation have any experience of applying taxes to transactions, for services operating on your platform, in other jurisdictions? If yes, please provide information of the jurisdiction and details of the tax.

NA

13. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?

I don't think it's a good idea for companies to keep going in business. It's like they are PAYE now what's the point ? They need funds to balance the good & bad months. ?

14. The proposal aims to embed eWHT processes directly into accounting, payroll, or other business management systems. How beneficial do you think this would be for your business?

Not good.

No

19. Are you an employer for PAYE? If so, which software package do you use to report payroll taxes to Revenue?

N/A - I'm a sole trader.

Not Happy

23. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?

I don't think it's a good idea for companies to keep going in business. It's like they are PAYE now what's the point ? They need funds to balance the good & bad months. ?

24. Where you are an SP operating as a corporate/partnership or other entity, do the current rates that apply to PSWT and RCT reflect your actual liability on the income received?

I pay 0% RCT now & im happy with that.

25. The proposal aims to embed taxation directly into how you get paid by the DW. How beneficial do you think this would be for your business?

Not great for any Business.

26. Where you are an SP operating as an individual worker, the proposal aims to implement personalised deduction rates (PDR), which means you will pay tax on your income as you go, similar to how employees are taxed under PAYE. What impact do you think PDR will have on your cashflow and financial management?

It's not good for any sole trader or business.

27. Do you think this new regime, including the PDR will have a positive effect on your end of year Income Tax return filing and preliminary tax payment obligations?

Not really

28. The accuracy of PDR is improved by the regular reporting by you to Revenue of your income and business expenses. How likely are you to report your income and expenses to improve the accuracy of your PDR?

Well I think the whole thing is a waste of anyone's time. If it actual isn't broken why change it.

29. What changes do you expect to have to implement in your business in order to be ready for the proposed eWHT regime?

My time that revenue wont pay me for I guess. My free wasted time.
