I think rct in general is very damaging to the genuine people trying to get their business off the ground. it works ok for anyone with a low cost business but for anyone like myself thats in haulage which has a very low and ever decreasing profit margin its crippling. 3 yrs is way to long to be taxed 20% of each invoice, it doesnt help in any way for a company to grow. 1.5 years is more than enough. ive all taxes and vat paid up and kept on top off and still get deducted each invoice. i was even paying my vat every 2 months and getting deducted 20% at the same time.

My current business generates a turnover of 240 000 plus vat per year at about a 30% profit rate which has a liability of 12.5 corporation tax equaling 9000. last year 2025 Rct deductions came to approx 40000. Thats 31000 missing from company cashflow

- 27. Do you think this new regime, including the PDR will have a positive effect on your end of year Income Tax return filing and preliminary tax payment obligations?**

- 28. The accuracy of PDR is improved by the regular reporting by you to Revenue of your income and business expenses. How likely are you to report your income and expenses to improve the accuracy of your PDR?**

- 29. What changes do you expect to have to implement in your business in order to be ready for the proposed eWHT regime?**
