

1. Who are you:

Individual/Business

2. Are you making a submission in relation to the proposals for a:

Specified Person (SP)

3. Please tick the sectors that apply to you:

Platform economy

4. After reading about the proposed new eWHT system, how would you describe your overall reaction?

Somewhat positive - I think it's a good idea overall

5. What aspects of the proposed model appeal most to you, and why?

Not having to save money each year for an eventual tax burden the next is a clear win. As would possibly not having to fill in arcane and complicated tax forms each year just because I run an AirBnB.

6. What concerns or reservations do you have about the proposed approach?

I am still very much concerned that you have any involvement in taxing my personal property use as an AirBnB at all or at least so expensively. I think Revenue and the government should be lowering taxes on these uses, not increasing them.

7. The proposed eWHT model seeks to expand withholding tax to payments to service providers where a suitable withholder exists. How do you feel generally about this type of expansion?

I'm presuming in my case, this means that AirBnB would be considered a suitable withholder who would withhold tax payments from my incomes to ensure they are paid properly.

- 8. In relation to PSWT specifically, this currently applies to payments made by state and semi-state bodies for certain services. Do you have a view on how it is targeted and if the types of payments it applies to should be reviewed?**
- 9. Please indicate if you currently operate:**
- 10. From the perspective of a DW, how does the current application of PSWT and/or RCT impact on your business operations?**
- 11. If you are a Platform Operator, does your organisation have any experience of applying taxes to transactions, for services operating on your platform, in other jurisdictions? If yes, please provide information of the jurisdiction and details of the tax.**
- 12. From the perspective of a DW, what are your views on the application of RCT and/or PSWT, as the case may be?**
- 13. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?**
- 14. The proposal aims to embed eWHT processes directly into accounting, payroll, or other business management systems. How beneficial do you think this would be for your business?**
- 15. In your view, what opportunities could embedding eWHT within natural business systems create for your business or the wider industry?**
- 16. What challenges do you think your business might face in adopting this embedded within natural systems approach?**

- 17. What is the estimated number of payments that you make to SPs each month?**
- 18. Do you currently use software for processing payments and or managing the finances of your business? If so, what packages do you use?**
- 19. Are you an employer for PAYE? If so, which software package do you use to report payroll taxes to Revenue?**
- 20. Please indicate if you currently receive payments which are subject to deduction of:**
- 21. Where you are currently subject to PSWT and/or RCT, how does the current application of withholding taxes impact on your business operations?**
- 22. From the perspective of a SP, what are your views on the application of RCT and/or PSWT, as the case may be?**
- 23. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?**
- 24. Where you are an SP operating as a corporate/partnership or other entity, do the current rates that apply to PSWT and RCT reflect your actual liability on the income received?**
- 25. The proposal aims to embed taxation directly into how you get paid by the DW. How beneficial do you think this would be for your business?**

It would save a lot of hassle, yes.

- 26. Where you are an SP operating as an individual worker, the proposal aims to implement personalised deduction rates (PDR), which means you will pay tax on your income as you go, similar to how employees are taxed under PAYE. What impact do you think PDR will have on your cashflow and financial management?**

I think that financial management would potentially be easier if you all did this properly. I could avoid Form 11 and just use the standards MyRevenue portal instead of ROS, ideally. I don't know how you'll account for costs I have that aren't captured in the income stream though each year such as (for an AirBnB) costs like guest groceries, repairs, electricity, heating, fuel, etc. that I would normally declare at the end of the year. I suspect I'll lose immediate income and only recoup it at the end of the year.

- 27. Do you think this new regime, including the PDR will have a positive effect on your end of year Income Tax return filing and preliminary tax payment obligations?**

Could go either way honestly.

- 28. The accuracy of PDR is improved by the regular reporting by you to Revenue of your income and business expenses. How likely are you to report your income and expenses to improve the accuracy of your PDR?**

I would likely just suffer the loss of income until the end of the year when I reconciled costs and then assume you'll refund me. I report this anyway so likely wouldn't change.

- 29. What changes do you expect to have to implement in your business in order to be ready for the proposed eWHT regime?**

I'm going out of business as a result of all this complexity. And I'm not turning the property over to rental income. AirBnB isn't the problem.

- 30. What benefits do you expect the new regime to have on your business processes, costs and delivery of your business services?**

I don't see really any?

31. What would you consider a reasonable timeframe for your business to adapt to the proposed new system?

Never? I mean seriously, I rent out a small structure on my own principal resident as an AirBnB about 50% of the year. My gross is 23K but with all costs and your stupid taxes, I clean maybe 6 a year. It's not worth it.

32. How confident are you that your business could adapt to the new system within a reasonable timeframe?

I'm not.

33. In terms of the management of your business, which outcomes from this new regime are the most important for you? (Select a maximum of 3)

Reduced administrative workload

Greater certainty in relation to your tax affairs

34. What supports from Revenue would be of most benefit to you in transitioning to the new regime? (Select a maximum of 3)

Helpdesk or dedicated Revenue contact

35. Is there anything else you'd like to share about how the proposed eWHT system could best meet the needs of your business or sector?
