

1. Who are you:

Individual/Business

2. Are you making a submission in relation to the proposals for a:

Designated Withholder (DW)

3. Please tick the sectors that apply to you:

4. After reading about the proposed new eWHT system, how would you describe your overall reaction?

Very positive - I strongly support the proposed direction

5. What aspects of the proposed model appeal most to you, and why?

Smoother and clearer return

6. What concerns or reservations do you have about the proposed approach?

Will it impact my ability to make my Form 11 return as I do it myself as a sole trader

7. The proposed eWHT model seeks to expand withholding tax to payments to service providers where a suitable withholder exists. How do you feel generally about this type of expansion?

I think it makes it easier for both parties

8. In relation to PSWT specifically, this currently applies to payments made by state and semi-state bodies for certain services. Do you have a view on how it is targeted and if the types of payments it applies to should be reviewed?

No

9. Please indicate if you currently operate:

Professional Services Withholding Tax (PSWT)

10. From the perspective of a DW, how does the current application of PSWT and/or RCT impact on your business operations?

As a sole trader it seems to work well as the tax is taken before I am paid by the Organisation using my services

11. If you are a Platform Operator, does your organisation have any experience of applying taxes to transactions, for services operating on your platform, in other jurisdictions? If yes, please provide information of the jurisdiction and details of the tax.

N/A

12. From the perspective of a DW, what are your views on the application of RCT and/or PSWT, as the case may be?

I think the PSWT helps me see what tax I am due to pay. It would be convenient if the system took the tax rate I usually pay which is high rate as this can be a little confusing

13. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?

Well it does let the contracting organisations/agencies know that I am compliant

14. The proposal aims to embed eWHT processes directly into accounting, payroll, or other business management systems. How beneficial do you think this would be for your business?

For me it probably won't be much different as I make a form 11 return each year and the tax is covered on this anyway.

22. From the perspective of a SP, what are your views on the application of RCT and/or PSWT, as the case may be?

23. What is your understanding of the withholding tax model of tax collection of RCT and PSWT and why it is applied to payments?

Well it does let the contracting organisations/agencies know that I am compliant

24. Where you are an SP operating as a corporate/partnership or other entity, do the current rates that apply to PSWT and RCT reflect your actual liability on the income received?

25. The proposal aims to embed taxation directly into how you get paid by the DW. How beneficial do you think this would be for your business?

26. Where you are an SP operating as an individual worker, the proposal aims to implement personalised deduction rates (PDR), which means you will pay tax on your income as you go, similar to how employees are taxed under PAYE. What impact do you think PDR will have on your cashflow and financial management?

27. Do you think this new regime, including the PDR will have a positive effect on your end of year Income Tax return filing and preliminary tax payment obligations?

28. The accuracy of PDR is improved by the regular reporting by you to Revenue of your income and business expenses. How likely are you to report your income and expenses to improve the accuracy of your PDR?
