Don't really understand the question

how it is targeted and if the types of payments it applies to should be reviewed?

Don't think this is applicable to us

It is confusing, sometimes is was 0% and sometimes 20% and we never seemed to know why.

As above question's answer.

24. Where you are an SP operating as a corporate/partnership or other entity, do the current rates that apply to PSWT and RCT reflect your actual liability on the income received?

Not applicable

25. The proposal aims to embed taxation directly into how you get paid by the DW. How beneficial do you think this would be for your business?

I think this will make it give more clarity on income and tax owed.

26. Where you are an SP operating as an individual worker, the proposal aims to implement personalised deduction rates (PDR), which means you will pay tax on your income as you go, similar to how employees are taxed under PAYE. I think it will improve it, having it spread out throughout the year is better than one lump sum payment (or receipt)

I hope so

Very likely (once the process and instructions are clear)

Not really applicable, individual SP but will make managing tax side easier I think.
