Computation:	None

4. Quality

Relevance:	Data are used to: • Inform the Tax Strategy Group and the Department of Finance on budgetary decisions • Provide answers to Parliamentary Questions (PQs) and Freedom of Information (FOI) requests. • Inform policymakers and internal stakeholders and • Fulfil requests for data from academics, students, journalists and members of the public.
Accuracy & Reliability:	Data are compared with the previous year's data. Source data are input into Revenue's systems by the Collector General's area and the statistical outputs are assessed and validated are signed off by the Accountant General's area.
Timeliness & Punctuality:	An advance release schedule is provided for all datasets with anticipated publication deadline. Divergence from the notified schedule is publicised in advance, along with a new release date. See the list of Supporting Documentation below for a link to the current Revenue Statistics Publication Calendar.
Coherence and Comparability:	The dataset provides figures for Betting duty receipts in € millions. The data are grouped at the same granularity for all years. Where there is a deviation notes are provided. Provisional data are also identified.
Accessibility and Clarity:	Published electronically on Revenue's Website & Open Data portal This dataset is consistent with the Open Data Technical Framework: • with metadata, methodological and quality information • to Open Data 3-star Format (i.e., machine readable) and • searchable through keywords.
