

eCustoms Helpdesk Notification

Number:	Ref: 38/2022
Subject:	New Computerised Transit System Phase 5 (NCTS-P5)
Who should read:	All those involved in submitting Transit Declarations
Related Notification:	N/A
Issued by:	eCustoms
Queries to:	UCCITDev@revenue.ie
Issue Date:	22 September 2022

1. Introduction

As part of the Union Customs Code (UCC) Work Programme, Revenue will be deploying the next phase of our transit system – New Computerised Transit System Phase 5 (NCTS-P5) to replace the current NCTS-P4 system. The go live date for NCTS-P5 is August 2023.

NCTS-P5 trader specifications are now available on our website [NCTS-P5 Trader Specifications](#).

The deployment of NCTS-P5 will impact on all stakeholders in the transit supply chain. This is because NCTS-P5 involves the introduction of a new dataset, will include new electronic messages and allows for the exchange of messages electronically between different declaration systems – NCTS and our export declaration system Automated Export System (AES).

NCTS-P5 will fully align our electronic transit system with the legal requirements legislated for in the Union Customs Code.

Public Interface Testing (PIT) for NCTS-P5 will be open to software developers and businesses by March 2023 and we will notify you of its availability closer to the time. The deployment of NCTS-P5 means that all stakeholders engaged in electronic messaging for transits must have the capacity to interact with Revenue's NCTS-P5 from August 2023. Revenue will close NCTS-P4 for all new transit movements in October 2023.
