### 1. Introduction

On 1 September 2025 Revenue made internal changes to our NCTS-P5 system to align with NCTS-P6. At that time, trade and software providers were advised that there was no requirement to make changes to their current NCTS-P5 system and that new trader specifications would be published in September. These new specifications were published on 15 September 2025.

From 24 March 2026, as part of the Union Customs Code (UCC) Work Programme, Revenue will upgrade the existing New Computerised Transit System (NCTS) to maintain full alignment with EU NCTS-P6 specifications. Traders will also be required to update their NCTS at this time.

### 2. Key dates for upgrade of NCTS-P6 system are as follows:

- Trader specifications published – 15 September 2025
- Public Interface Testing (PIT) available to software developers – 24 September 2025
