Issue Date:	26 August 2026

1. Introduction

Revenue is moving the Electronic Transport Document (ETD) from our Automated Import System (AIS) to our New Computerised Transit System (NCTS) to maintain full alignment with EU specifications, in line with the Union Customs Code (UCC) Work Programme.

2. What does this mean?

From 15 December 2026 (end date for trader migration window from AIS V1 to AIS V2) it will no longer be possible to submit the ETD in AIS. Instead, the ETD prescribed as the D3 dataset must be submitted by those holding required authorisation to our New Computerised Transit System (NCTS).

The ETD/D3 dataset is available in New Computerised Transit System (NCTS) Public Interface Testing (PIT) Environment.

3. Trader Specifications

Minor adjustments have been made to the business rules. Updated trader specifications have recently been published on the Revenue website at [NCTS-P6 Trader Guides](#) and include the following:

- NCTS-P6 Message Exchange
- NCTS-P6 Message Structure
- NCTS-P6 Code List
- NCTS-P6 Business Rules and Conditions
