

eCustoms Helpdesk Notification

Number:	Ref: 21/2026
Subject:	Implementation of Automatic Number Plate Recognition (ANPR) in Rosslare Europort for RoRo traffic arriving from Great Britain (GB)
Who should read:	All those involved with the movement of RoRo traffic through Rosslare Europort
Related Notification:	None
Issued by:	eCustoms Helpdesk
Queries to:	eCustoms@revenue.ie
Issue Date:	15 October 2026

1. Introduction

From the 29th of October, Revenue will begin the phased implementation of an ANPR system in Rosslare Europort. The system will monitor RoRo traffic disembarking inbound GB Ferries to streamline traffic management for consignments that require customs clearance.

Phase 1 – Accompanied consignments arriving on GB Ferries.

In phase 1, the ANPR system will automatically scan the vehicle registration number, retrieve the associated Pre-Boarding Notification (PBN), and the designated PBN channel. Where the channel is 'Call to Customs' or 'Live Animal BCP' this information together with the vehicle registration number will be displayed on the Ampron screens at the Customs Booths (as shown in the illustration in Appendix 1). The driver should proceed to the appropriate area for control.

If a vehicle fails to comply with a 'Call to Customs' or 'Live Animal BCP' channel the relevant message will appear on the Ampron screen at the Port Exit booths.

Phase 2 – Unaccompanied consignments arriving on GB Ferries

Phase 2 will be implemented in the coming months and will include ANPR for unaccompanied trailers arriving from GB requiring Customs Clearance.

A further eCustoms Notification providing detailed guidance will be issued in advance of Phase 2 going live. In the meantime, traders are advised to continue to check their channel details and ensure full compliance with the customs clearance procedures before removing any trailers from the port that are under customs control.

Confirmation of Channel Information and EXIT PORT channel

To verify your channel information and secure an EXIT PORT confirmation, you should access the [Customs Channel Look-up tool on Revenue's Customs RoRo Service](#). Alternatively, if a mobile phone number was provided, you will receive a text message with your channel information.

Please note: Departing the Customs control area without customs clearance is a serious offence.

2. Further Information
