## 1. Introduction

As part of the Union Customs Code (UCC) Programme, Revenue deployed AIS V2 on 15 September 2026 with a three-month migration window up to 15 December 2026.

## 2. Trade migration window update

To facilitate trade in the move from AIS V1 to AIS V2, during the busy trading period, Revenue is extending the migration window up until 27 January 2027. From this date, it will no longer be possible to lodge import declarations in AIS V1. AIS V2 will be mandatory for all new import declarations.

It will be possible to amend/invalidate declarations lodged in AIS V1 beyond 27 January 2027 - date to be confirmed.

## 3. Trader Outreach

Revenue will continue to engage with traders to facilitate and support them and to ensure they will be operational in AIS V2 by the end of the migration window.

As part of this engagement, we will host an information session for software houses on 18 November 2026 *(invite to issue shortly)* and a trader information session in January 2027.
