1 OVERVIEW

Since 23 November 2012, financial statements in iXBRL format have been accepted in ROS. All Income Tax and Corporation Tax payers now have the option of uploading their financial statements.

For Corporation Tax payers, the obligation to file iXBRL financial statements is being conducted in phases and details of who is obliged to file and when can be found in Paragraph 2.1 the [iXBRL Tax and Duty Manual](#).

The purpose of this document is to provide assistance and guidance to Users (Revenue Customers and/or their Agents) and Software Developers in relation to Error Messages generated in the process of uploading financial statements in iXBRL format.

Where possible an Irish error message is returned to Revenue Customers and/or their Agents who opt to conduct business through Irish. However a number of the technical error messages are dynamically generated by a 3rd party product, and it is not possible to intercept and translate the content of these messages.

If you have any queries in relation to this document, please contact us at iXBRL@Revenue.ie.

1.1 What's New?

Correction of text in Rule 14 of [Table 2.5](#) from 'A tolerance of 6 days is permitted after the start date.' to 'A tolerance of 6 days is permitted before the end date.'

2 VALIDATION PROCESSING

2.1 Validation Pipeline

Submitted inline XBRL documents will be subjected to a series of validation phases. Figure 2.1 depicts the validation pipeline which will be applied to incoming iXBRL documents. [Table 2.4](#) and [Table 2.5](#) provide further details for each of the individual phases.

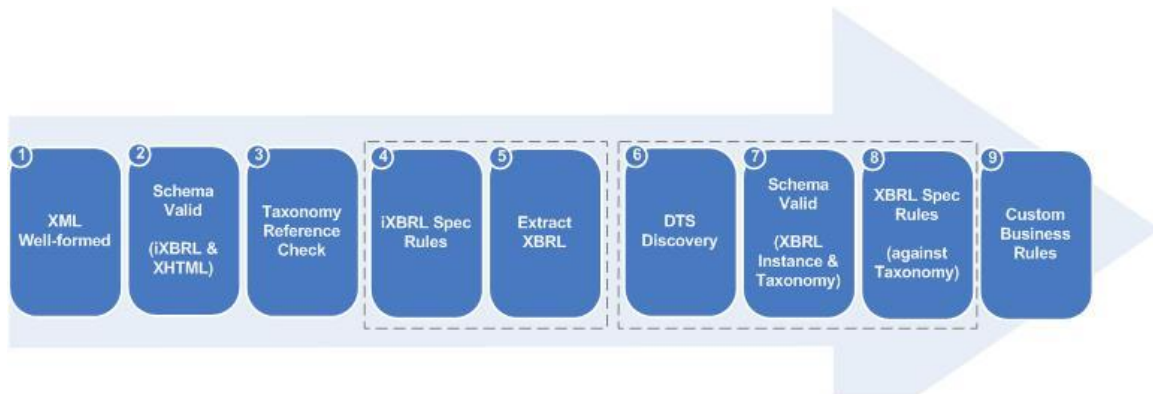

Figure 2.1 – Validation Pipeline

If a document fails validation at any phase in the pipeline, the corresponding errors will be returned. Failure at any of the phases up to and including 'DTS Discovery' will prevent validation from continuing on to the next phase. If the validation fails, the document will not be stored. The error message generated may be reviewed through the iXBRL Error Screen. The validation result will also be available through a new inbox Financial Statements Validation Results Document sent to the Customer's ROS Inbox.

2.2 iXBRL Error Screen

The iXBRL Error Screen will indicate to users any errors encountered while validating their submitted iXBRL document(s) in an error table.

Individual errors will be listed detailing the error type, description and more information. The possible error types are set out in [Table 2.4](#) and [Table 2.5](#) below.

The screenshot shows the Revenue website's iXBRL Error Screen. The header includes the Revenue logo and navigation links. The main content area is titled "Financial Statements Validation Errors" and contains a table of errors. The table has three columns: Type, Description, and More Information. The errors listed include inconsistent duplicate facts, missing mandatory facts for various financial metrics, and an entity identifier mismatch.

Type	Description	More Information
Inconsistent Duplicate Fact(s)	Report contains inconsistent duplicate facts, uk-gaap:IntangibleFixedAssetsCostOrValuation, for context FY2008_Development_costs__patents_and_similar2	
Mandatory Fact(s)	Gross Trade Profit (uk-gaap:GrossProfitLoss or ifrs:GrossProfit) is missing	
Mandatory Fact(s)	Profit Loss Before Tax (uk-gaap:ProfitLossOnOrdinaryActivitiesBeforeTax or ifrs:ProfitLossBeforeTax) is missing	
Mandatory Fact(s)	Balance Sheet Date (uk-bus:BalanceSheetDate) is missing	
Mandatory Fact(s)	Sales/Turnover (uk-gaap:TurnoverGrossOperatingRevenue or ifrs:Revenue) is missing	
Mandatory Fact(s)	Period End Date (ukbus:EndDateForPeriodCoveredByReport) is missing	
Mandatory Fact(s)	Period Start Date (uk-bus:StartDateForPeriodCoveredByReport) is missing	
Mandatory Fact(s)	Company Name (uk-bus:EntityCurrentLegalOrRegisteredName) is missing	
Entity Identifier	Context entity identifier (12345677) is not consistent with Revenue records (0401486P)	

Below the table is a button labeled "Back to Financial Statements".

Figure 2-2 – Screen Layout of iXBRL Error Screen

2.3 iXBRL Financial Statements Validation Results Document

An inbox document will be added to Revenue Record when a validation result has been received for a Financial Statements submission. This document will be sent whether the document passes or fails validation.

This PDF document will include the validation result and any validation errors for the submitted Financial Statements. It will also indicate the customer's name, registration, period, submission date, and notice number.

Individual errors will be listed detailing the error type and description. The possible error codes are set out in [Table 2.4](#) and [Table 2.5](#) below.

Figure 2-3 – Screenshot of the Financial Statements Validation Results Document

The screenshot displays the Revenue logo and name in the top left, and the Registration Notice Number in the top right. A teal header bar contains the text "Financial Statements Submission". Below this, the submission ID "UHBY XQBBI" is shown. A table lists the submission details: Result (Invalid), Date Submitted (17/09/2012), and Period (01/01/2011 - 31/12/2011). Another teal header bar is labeled "Error Details". Below it, a table shows the error information:

Type	Description	More Information
SchemaValidation	The submitted document contains malformed XML	

2.4 Validation Phases -Technical

Table 2.4 Technical Validation Messages

Phase	Phase/Area	Sample Error	Description/Notes
1	XML Well-formed	<p><u>Type:</u> Technical: Invalid File</p> <p><u>Message:</u> The submitted document contains malformed XML.</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Comhad Neamhbhailí</p> <p><u>Message:</u> Tá XML míchumtha sa doiciméad a cuireadh isteach.</p>	<p>The document received by Revenue is checked to ensure that it consists of XML and that it is well-formed.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should initially check that they have selected the appropriate iXBRL-formatted document to upload. If they are satisfied that they have attempted to upload the correct file, they should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>

Phase	Phase/Area	Sample Error	Description/Notes
2	Schema Validation (XBRL & XHTML)	<p><u>Type:</u> Technical: Schema Validation</p> <p><u>Message:</u> cvc-complex-type.2.4.a: Invalid content was found starting with element 'ix:nonNumericx'. One of '{"http://www.xbrl.org/2008/inlineXBRL":footnote, "http://www.xbrl.org/2008/inlineXBRL":fraction, "http://www.xbrl.org/2008/inlineXBRL":nonFraction, "http://www.xbrl.org/2008/inlineXBRL":numerator, "http://www.xbrl.org/2008/inlineXBRL":denominator, "http://www.xbrl.org/2008/inlineXBRL":nonNumeric, "http://www.xbrl.org/2008/inlineXBRL":tuple, "http://www.xbrl.org/2008/inlineXBRL":header, "http://www.xbrl.org/2008/inlineXBRL":exclude}' is expected.</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Bailíochtú Scéimre</p> <p><u>Message:</u> cvc-complex-type.2.4.a: Invalid content was found starting with element 'ix:nonNumericx'. One of '{"http://www.xbrl.org/2008/inlineXBRL":footnote, "http://www.xbrl.org/2008/inlineXBRL":fraction, "http://www.xbrl.org/2008/inlineXBRL":nonFraction, "http://www.xbrl.org/2008/inlineXBRL":numerator, "http://www.xbrl.org/2008/inlineXBRL":denominator, "http://www.xbrl.org/2008/inlineXBRL":nonNumeric, "http://www.xbrl.org/2008/inlineXBRL":tuple, "http://www.xbrl.org/2008/inlineXBRL":header, "http://www.xbrl.org/2008/inlineXBRL":exclude}' is expected.</p>	<p>The document received by Revenue is validated against the iXBRL Schema. The iXBRL Schema also includes XHTML schema validation. Multiple errors may be returned.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should initially check that they have selected the appropriate iXBRL-formatted document to upload. If they are satisfied that they have attempted to upload the correct file, they should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>
Phase	Phase/Area	Sample Error	Description/Notes

3	Taxonomy Reference Check	<p><u>Type:</u> Technical: Taxonomy Reference</p> <p><u>Message:</u> The referenced schema does not map to a taxonomy supported by Revenue (schemaRef).</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Tagairt do Thacsanomaíocht</p> <p><u>Message:</u> Ní mhapálann an scéimre dá dtagraítear {0} chuig Tacsanomaíocht lena dtacaíonn na Coimisinéirí Ioncaim.</p> <p><u>Type:</u> Technical: iXBRL Validation</p>	<p>A check is performed to ensure the "schemaRef" element of the document received by Revenue refers to a Taxonomy entry point supported by Revenue. See Section 2.1 of 'Electronic Filing of Financial Statements (iXBRL) - Technical Note'.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>
4	iXBRL Specification Rules	<p><u>Type:</u> Technical: iXBRL Validation</p> <p><u>Message:</u> For each token in {footnote references} there MUST exist an ix:footnote element in the inline XBRL Document Set with a {footnote id} property which has a matching value.</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Bailíochtú iXBRL</p> <p><u>Message:</u> For each token in {footnote references} there MUST exist an ix:footnote element in the inline XBRL Document Set with a {footnote id} property which has a matching value.</p>	<p>The document received by Revenue is validated against inline XBRL specification rules. These take the form of 'Schematron' rules. Multiple errors may be returned.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>

Phase	Phase/Area	Sample Error	Description/Notes
5	Extract XBRL	N/A	The XBRL content is extracted from the inline XBRL document.
6	DTS Discovery	<p><u>Type:</u> Technical: XBRL Validation</p> <p><u>Message:</u> XBRL Load Error: XBRL element http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingPartyx with the reported value (true), context (FY2009) is presumed to be a taxonomy element named http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingPartyx but it was not found in the loaded taxonomies.</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Bailíochtú XBRL</p> <p><u>Message:</u> XBRL Load Error: XBRL element http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingPartyx with the reported value (true), context (FY2009) is presumed to be a taxonomy element named http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingPartyx but it was not found in the loaded taxonomies.</p>	<p>The XBRL engine attempts to load the Discoverable Taxonomy Set for each of the Taxonomies referenced in the instance document. Each concept is checked for existence in the taxonomy.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>

Phase	Phase/Area	Sample Error	Description/Notes
7	Schema Validation (XBRL Instance and Taxonomy Schemas)	<p><u>Type:</u> Technical: XBRL Validation</p> <p><u>Message:</u> Error message: cvc-datatype-valid.1.2.1: 'truex' is not a valid value for 'boolean'.</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Bailíochtú XBRL</p> <p><u>Message:</u> Error message: cvc-datatype-valid.1.2.1: 'truex' is not a valid value for 'boolean'.</p>	<p>The extracted XBRL is checked for conformance against the XBRL Instance Schema.</p> <p>Multiple errors may be returned.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>

Phase	Phase/Area	Sample Error	Description/Notes
8	XBRL 2.1 Specification including verification against Taxonomy.	<p><u>Type:</u> Technical: XBRL Validation</p> <p><u>Message:</u> Error in "http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingParty (true)." For an item element with periodType="duration", the period MUST contain a "forever" element or a set of "startDate" and "endDate" elements.</p> <p><u>Reference:</u> For more information, please see section 4.7.2 of the XBRL 2.1 recommendation. URI: http://www.xbrl.org/Specification/XBRL-RECOMMENDATION-2003-12-31+Corrected-Errata-2008-07-02.htm#_4.7.2</p> <p>As Gaeilge</p> <p><u>Type:</u> Teicniúil: Bailíochtú XBRL</p> <p><u>Message:</u> Error in "http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingParty (true)." For an item element with periodType="duration", the period MUST contain a "forever" element or a set of "startDate" and "endDate" elements.</p> <p><u>Reference:</u> For more information, please see section 4.7.2 of the XBRL 2.1 recommendation. URI: http://www.xbrl.org/Specification/XBRL-RECOMMENDATION-2003-12-31+Corrected-Errata-2008-07-02.htm#_4.7.2</p>	<p>The extracted XBRL is checked for conformance against rules laid out in the XBRL 2.1 specification, including validation against the referenced taxonomy. This phase also includes dimensional validation. Multiple errors may be returned.</p> <p>For example, any incorrectly specified dimensional combination will pass schema validation but fail XBRL validation. Incorrect contexts - instance instead of duration - should also cause similar behaviour.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.</p>

Phase	Phase/Area	Sample Error	Description/Notes
9	Revenue Custom Business Rules	See Table 2.5	Revenue Business Validation. See Table 2.5.

2.5 Validation Phases - Business

Revenue Business Rules will be applied to documents as part of the validation pipeline. Table 2.5 details the Revenue Business Validation that will be applied. The rules apply to Financial Statements for Corporation Tax (CT) and Income Tax (IT) and will be applied to statements conforming to GAAP and IFRS (see [Electronic Filing of Financial Statements \(iXBRL\) – Technical Note](#) for taxonomies accepted).

Due to licensing restrictions on 3rd party products, the Revenue Business Rules, which are executed using XBRL Formula language, **will not** take place for test documents submitted via Revenue's File Format Test Facility.

Table 2.5 Business Validation Messages

#	Concept(s) Affected	Error Message	Rule/Notes
1	FRS 101/102 & EU IFRS taxonomies - bus: EntityCurrentLegalOrRegisteredName	<p><u>Type:</u> Business: Mandatory Fact(s)</p> <p><u>Message:</u> Company Name (bus: EntityCurrentLegalOrRegisteredName) is missing.</p> <p>As Gaeilge</p> <p><u>Type:</u> Gnó: Fíric(i) Éigeantach(a)</p> <p><u>Message:</u> Tá Ainm na Cuideachta (bus: EntityCurrentLegalOrRegisteredName) ar iarriadh.</p>	<p>Business Rule: Company Name is Mandatory</p> <p>Company name has not been tagged on the iXBRL document submitted to Revenue.</p> <p>If this error is returned in the course of submitting iXBRL documents, filers should either</p> <ul style="list-style-type: none"> (i) Tag the element in question and resubmit the amended iXBRL document <p style="text-align: center;">OR</p> <ul style="list-style-type: none"> (ii) Take note of the error and contact their tagging software provider or tagging service.

3 OTHER TECHNICAL NOTES

Revenue have also published a number of other Technical Notes which may be accessed via [Revenue's iXBRL webpage](#). These include:

[Electronic Filing of Financial Statements \(iXBRL\) – Technical Note](#). This Technical Note, aimed at software developers and those who are using conversion tools to prepare accounts in iXBRL.format, provides general technical information including what taxonomies are acceptable to Revenue, what entity identifier schemes will be accepted by Revenue and what validations rules will apply to financial statements submitted to Revenue in iXBRL format.

[Electronic Filing of Financial Statements \(iXBRL\) – Public Interface Test \(PIT\)](#). The purpose of this document is to outline the Revenue Online Service Public Interface Test (PIT) options available to Software Vendors who provide iXBRL solutions. The document also outlines how this service may be accessed.

[Electronic Filing of Financial Statements \(iXBRL\) - Style Guide](#). The purpose of this document is to outline the rules and provide guidance on the preparation of Inline XBRL documents to software developers and those who are using conversion tools to prepare accounts in iXBRL for subsequent submission to Revenue.
