G0641	This data element must not be provided where the import formalities are carried out at the point of entry into the customs territory of the Union [DA note 32]	Field is optional per conditions
G0642	IF the data item/data group is used and has the same value(s) for all other goods items THEN the data group/data item on GS level is used, ELSE the data group/data item on SI level is used.	Not required at this level
G0647	For CCI systems that cannot retrieve the Access Code from other guarantee systems, the following applies: IF 'Guarantee Type' = '0', '1', '2', '4' AND Declarant.identificationNumber <> PersonProvidingAGuarantee.identificationNumber THEN 'Access code' = 'R' ELSE 'Access code' = 'O'	Field doesn't match suggested values

Code	Description	Error Message
G0651	The Member State of acceptance of the declaration may waive the obligation to provide this information where it is in the position to assess it correctly and has implemented calculation routines to provide a result compatible with statistical requirements. [DA note 40]	Field is optional per conditions
G0654	This data group/data item is optional and economic operators may decide to supply.	Field is optional
G0656	This data element may be Required only in cases when the rate of exchange is fixed in advance by a contract between the parties concerned. IF <Invoice Currency> is present AND <Exchange rate> is fixed in advance by a contract between the parties concerned THEN <Exchange rate> = "O" ELSE <Exchange rate> = "N"	Field is optional per conditions
G0671	Where the buyer and the importer are identical this information does not need to be provided. Where the buyer is different to the person provided in D.E. 13 04 000 000 Importer, enter the name and address of the buyer of the goods where his EORI number is not available to the declarant. In case the customs value is calculated in accordance with Article 74 of the Code, this information shall be provided, if available.	Field is optional per conditions
G0672	Where the seller and the exporter are identical this information does not need to be provided. Where the seller is different to the person provided in D.E. 13 01 000 000 Exporter, enter the full name and address of the seller of the goods, if his EORI number is not available to the declarant. In case the customs value is calculated in accordance with Article 74 of the Code, this information shall be provided, if available.	Field is optional per conditions
G0673	This data element shall only be used when a document is used for write-off.	Field is suggested per conditions
G0880	If the VAT will be paid in the VAT return, provide the VAT identification number of the person concerned. When procedure code 42 or 63 is used, the information required by Article 143 (2) of Directive 2006/112/EC shall be entered - VAT Identification Number must be provided for the Role code FR2 (Customer), and either FR1 (Importer) or FR3 (Tax Representative).	Field is suggested per conditions
G0881	This data element shall be used when a document is used for write-off. In other cases where applicable.	Field is suggested per conditions
G0901	Where the goods concerned are subject to a TARIC measure in relation with a CUS code, the code CUS shall be provided.	Field is suggested per conditions
G0904	Eastern longitude and Northern latitude will use the optional '+' sign. Western longitude and Southern latitude will use the '-' sign.	Use of '+'/'-' sign is suggested

Code	Description	Error Message
G0905	If different types of goods items of the declaration are packed together in such a way that it is impossible to determine the gross mass for each individual item, then Gross Mass must be provided at GS level; otherwise it must be provided at SI level.	Field is suggested per conditions
G0907	In the cases where Article 166(2) of the Code (simplified declarations based on authorisations) is applicable, Member States may waive the obligation to provide this information where the conditions prescribed in the authorisations associated with the procedures concerned allow them to defer the collection of this data element in the supplementary declaration.	Field is optional per conditions
G0918	For Centralised Clearance at Import where more than one MS is involved, the information relating to the national codes shall be provided for the Authorising and Presentation MS [DA note 58]	Field is suggested per conditions
G0920	This data group is to be provided when an authorisation exists according to the relevant section of the Commission Delegated Regulation (EU) 2015/2446 Annex A Title I Chapter 1. [DA note 60]	Field is suggested per conditions
G0921	CC qualifier is required only for national SCI / PCI codes and can be empty for common European codes. If PCI requires a common European code, this should also use the CC qualifier. SCI shall validate and manage the codes with no CC qualifier and the codes with SCI CC qualifier, while PCI shall validate and manage the codes with PCI CC qualifier.	Field is suggested per conditions
G0922	This information shall relate to the situation at the moment when the declaration is made.	Field is suggested per conditions
G0923	The CC qualifier in this DG shall refer to the Region of destination.	Field is suggested per conditions
G0924	These DE's are only needed if there is more than one previous document to write-off in the same goods item. In case only one previous document has to be written-off, then the same elements already available in the declaration can be used.	Field is suggested per conditions
G0925	Not for use in the case of postal consignments or carriage by fixed transport installations [DA note 34].	Field is optional per conditions
G0929	If neither a commercial transaction (e.g. sale or processing), nor a stoppage unrelated to the transport of goods has taken place in an intermediate country, enter the relevant Union code to indicate the country from which goods were initially dispatched to the Member State in which the goods are located at the time of their release into the customs procedure. If such a stoppage or commercial transaction has taken place, indicate the last intermediate country. For the purpose of this data requirement, a stoppage to enable consolidation of the goods en-route shall be considered as being related to the transport of the goods.	Field is suggested per conditions

Code	Description	Error Message
G0930	For CCI declarations, the Authorisation corresponding to the Requested procedure code must be filled-in at Declaration level, with the exception of End Use authorisation. For End Use (Requested procedure 44), if the same Authorisation is covering all items, it must be declared at Declaration level; otherwise, it must be declared at Item level. The Authorisation corresponding to the Previous procedure (if any) must always be filled-in at Item level.	Field is suggested per conditions
G0981	Enter the date when the goods were entered in the declarant's records.	Missing Date of Acceptance Information
G0984	In case of declarations for the introduction of goods in the context of trade with special fiscal territories, this information shall only be required in case of commercial transactions involving at least two Member States. [DA note 24]	This data is not required for this declaration Type
G0985	When the requested procedure is 51 or 53 then the DE is required for completion only where Union legislation so provides. [DA note 16]	Missing Preference Information
G0999	If the 'Requested procedure' = '07', '45', '68', '95', '96' when goods will be placed in a non-customs warehouse, e.g. tax warehouse with "type" "Y" the authorisation number for tax warehouse should be provided under DG Warehouse.	Missing Warehouse Identifier Information
R0007	Each 'Declaration goods item number' is unique throughout the declaration. The items shall be numbered in a sequential fashion, starting from '1' for the first item and incrementing the numbering by '1' for each following item.	Goods item number sequencing error
R0010	IF a specific dataset is declared at D/GS level THEN it must not be duplicated at SI level.	Consignment vs. Consignment Item information mismatch
R0011	For CCI declarations, if "Requested procedure" = '51', the "Previous procedure" must be the same for all Goods Items included in the declaration.	Unique previous procedure constraint violated
R0012	If this DG/DI is declared at SI level (in any Goods Item) then it cannot be declared at GS level ELSE If this DG/DI is declared at GS level then it cannot be declared at SI level.	Consignment vs. Consignment Item information mismatch
R0014	For CCI declarations, the Method of payment provided in the declaration at "SI" level should be one and the same per Tax type for all Goods Items included in the declaration.	Unique Method of Payment constraint violated

Code	Description	Error Message
R0364	IF <GOODS SHIPMENT-GOODS ITEM-PACKAGING.Number of Packages> is EQUAL to '0' (zero) AND <GOODS SHIPMENT-GOODS ITEM-PACKAGING.Type of Packages> having a value NOT IN SET {CL181, CL182}) THEN at least one other <GOODS SHIPMENT-GOODS ITEM> must exist with (the same <GOODS SHIPMENT-GOODS ITEM-PACKAGING.Shipping marks> AND with <GOODS SHIPMENT-GOODS ITEM-PACKAGING.Number of packages> having a value GREATER than '0' (zero)	Invalid No of Packages
R0432	The LRN, Customs Office of Presentation, Declarant and Representative in the presentation notification (IE432) should be the same as the ones provided in the pre-lodged CCI declaration (IE415 type D or F)	Pre-lodged declaration Information mismatch
R0520	/*/Representative/identificationNumber must NOT BE EQUAL to /*/Declarant/identificationNumber	Representative information mismatch
R0521	Only value '2' is valid for this field	Representative information mismatch
R0596	IF ADDITIONAL DECLARATION TYPE in ['Y', 'U'], the following updates are not allowed with reference to the current (latest) version of the values (following the Amendment (where applicable), if it is the case) of the related Simplified declaration ("ADDITIONAL DECLARATION TYPE "C"): No update allowed for <IMPORTER> No update allowed for <DECLARANT> No update allowed for <PERSON PAYING CUSTOMS DUTY> No update allowed for <CUSTOMS OFFICE OF PRESENTATION> No update allowed for <IMPORT OPERATION.Declaration type> No update allowed for <ADDITIONAL FISCAL REFERENCE> No update allowed for <COMMODITY CODE.Harmonized system subheading code> No update allowed for <PROCEDURE. Requested procedure> No update allowed for <PROCEDURE. Previous procedure>	Invalid update of fields
R0597	IF ADDITIONAL DECLARATION TYPE in ['V', 'Z'], the following updates are not allowed with reference to the values provided in the Presentation Notification in case of EIDR: No update allowed for <DECLARANT> No update allowed for <CUSTOMS OFFICE OF PRESENTATION> No update allowed for <AUTHORISATION. Reference number > No update allowed for <PROCEDURE. Requested procedure> No update allowed for <PROCEDURE. Previous procedure> No update allowed for <LOCATION OF GOODS>.	Supplementary declaration data modification error

Code	Description	Error Message
R0598	This DG shall contain at least one valid /Authorisation/referenceNumber which includes 'CCL' and one valid /Authorisation/referenceNumber which includes 'EIR'.	Missing Authorisation
R0686	IF <Type of location> = 'A' THEN <Qualifier of identification> = 'T', 'U', 'V', 'W', 'Z' ELSE IF <Type of location> = 'B' THEN <Qualifier of identification> = 'T', 'U', 'X', 'Y' ELSE IF <Type of location> = 'C' THEN <Qualifier of identification> = 'T', 'U', 'W', 'X', 'Y', 'Z' ELSE IF <Type of location> = 'D' THEN <Qualifier of identification> = 'T', 'U', 'W', 'Z'	Qualifier of Identification information mismatch
R0764	IF the Additional Declaration Type is U or V THEN the Multiplicity of the Goods Shipment is up to 999x ELSE it is 1x	This Supplementary declaration can refer to only one simplified declaration
R0765	If Additional declaration type is in ['Y', 'U'], one of the MRN declared as Previous Document (IE415.PREVIOUS DOCUMENT.Reference number) at GS level in the Supplementary Declaration must be the MRN of the Simplified Declaration.	Invalid or missing MRN
R0766	If Additional declaration type is in ['V', 'Z'], one of the MRN declared as Previous Document (IE415.PREVIOUS DOCUMENT.Reference number) at GS in the Supplementary Declaration must be the MRN of the Presentation Notification (if any).	Invalid or missing MRN
R0767	Each 'Goods item number' is unique throughout the goods shipment. The items shall be numbered in a sequential fashion, starting from '1' for the first item and increment the numbering by '1' for each following item in the same way as they are declared in the original simplified customs declaration or in the customs declaration made via EIDR.	Invalid Sequence
R0861	Either 'Representative' OR 'Declarant' Data Group must be used.	Missing information
R0868	When the Additional declaration type is Y or U, then one occurrence of the D.E. Type included in this DG at GS level should be nMRN; when the Additional declaration type is Z or V, then one occurrence of the D.E. Type included in this DG either at GS level or at GSI level should be nCLE.	Previous Document Type Mismatch
R0884	This information shall only be provided for entry into the declarants' records and only if the discharge of the goods under temporary storage concerns only parts of the declaration for temporary storage lodged previously in relation with the goods concerned [DA note 25].	Value is Required or Not Allowed

Code	Description	Error Message
R0900	For CCI declarations, the Requested procedure code must be the same for all Goods Items included in the declaration.	Unique requested procedure constraint violated
