## 1. Introduction

Council Regulation (EC) No.1013/2006 (Waste Shipment Regulation) establishes procedures and control regimes for the shipment of waste within, into and out of the EU. The overall objective of the regulation is to implement measures for the supervision and control of shipments of waste in order to ensure that the movement, recovery, or disposal of waste, is managed in an environmentally sound manner for the protection of the environment and human health.

Dublin City Council (DCC) is designated as the competent authority in Ireland for the export and import of waste shipments and transit of hazardous waste shipments within Ireland. Revenue's Customs Service assists in the implementation of these controls by referring consignments of interest to DCC.

## 2. Legislation

[Council Regulation \(EC\) No 1013/2006](#)

[S.I. No. 419/2007](#) – Irish Shipments of Waste Regulations

[S.I. No.113 of 2008](#) – Registration of Brokers and Dealers Regulations

## 3. Prohibition / Restriction

Waste shipments may be subject to prohibitions or restrictions at import / export depending on the origin, destination and route of shipment, type of waste or type of treatment to be applied to the waste at its destination.

## 4. Action Required

The WSR places additional obligations on Customs authorities, waste carriers and competent authorities when waste, subject to the procedure of prior written notification and consent, leaves or enters the EU. The following actions are required for all such shipments, including those to and from the UK, but excluding those to and from Northern Ireland.

### **Import**

For Transfrontier Shipments (TFS) waste imports, the competent authority (DCC) will send a stamped copy of their decision to consent to the relevant customs office of entry.

Prior to the physical entry of the consignment to the EU the waste carrier will email a copy of the movement document to the relevant customs office of entry (see appendix 1.)

As soon as the waste has entered the EU territory, the customs office of entry sends, by email, a copy of the movement document to the competent authority of destination (DCC) along with the following statement:

*With Regard to Waste Shipment Notification XXXXXXXXXX , load number XXX (Imports normally have GB 00X 00X XXXX on the Annex 1B and not IE XXXXXXXX)*

*I can confirm that the waste described in the attachment above entered the EU on \_\_\_\_/\_\_\_\_/\_\_\_\_ from \_\_\_\_\_ Port, Ireland.*

*Regards,*

\_\_\_\_\_  
*Customs Officer  
Customs Division*

### **Export**

For TFS waste exports, the competent authority (DCC) will send a stamped copy of their decision to consent to the customs office of exit.

Prior to the physical exit of the consignment from the EU territory the carrier will email a copy of the movement document to the customs office of exit (See Appendix 1).

As soon as the waste has left the EU territory the customs office of exit sends by email a copy of the movement document to the competent authority of dispatch (DCC) along with the following statement:

*With Regard to Waste Shipment Notification IE XXXXXXXX, load number XXX*

*I can confirm that the waste described in the attachment above left the EU on \_\_\_\_/\_\_\_\_/\_\_\_\_ from \_\_\_\_\_ Port, Ireland.*

*Regards,*

\_\_\_\_\_  
*Customs Officer  
Customs Division*
