Executive Summary

This manual provides information on the registration process for Pillar Two taxes where Part 4A Taxes Consolidation Act 1997 (“TCA 97”) applies.

The legislation in Part 4A TCA 97 provides for three taxes:

- IIR top-up tax
- UTPR top-up tax
- Domestic top-up tax (QDTT)

These taxes are commonly referred to as “GloBE taxes” or “Pillar Two taxes”. These taxes operate on a self-assessment basis.

This manual sets out information in relation to:

1. Relevant terms, definitions and important information – see [Section 1](#).
2. Details on who must register including when and how to register – see [Section 2](#).
3. Details of other obligations once an entity is registered for Pillar Two taxes – see [Section 2.4](#).
4. Managing Pillar Two Tax registrations process – see [Section 3](#).
5. Managing Pillar Two Roles and Groups process – see [Section 4](#).
6. Details on how to contact Revenue using MyEnquiries – see [Section 5](#).
7. Appendices include examples of the registration process in a step-by-step demonstration.

1 Relevant terms, definitions and important information

Relevant definitions applicable for the purposes of Part 4A TCA 97 can be found in section 111A TCA 97 and section 111AAF TCA 97.

Please refer to the following Tax and Duty Manuals (TDM) for terms and definitions applicable to the interpretation and application of Chapter 10, Part 4A, TCA 97:

- [Part 04A-01-01](#) - Guidance on Pillar Two – Administration
- [Part 04A-01-02](#) - Guidance on Pillar Two

1.1 Key terms to be understood for registration purposes

Important terms and definitions for the registration process include:

- Ultimate Parent Entity (UPE)
- Constituent Entity (CE)
- Designated local entity (DLE)
- Designated filing entity (DFE)
- Fiscal year
- GloBE tax
- Top-up tax information return (TIR)
- Notification of filer
- Multi-parented MNE and multi-parented large-scale domestic group

For the purposes of this TDM, the following terms are also relevant:

- A “Standalone Entity” is a single entity as defined in section 111AAB(1)(c) TCA 97 that is not part of a group or joint venture arrangement – see [Section 3.2](#).
- A “nominated UPE” referred to in [Section 1.2](#) and [Section 3.2](#) is applicable for multi-parented groups. For registration purposes, it is important that a single nominated UPE is selected to allow all entities within the group to be correctly linked.
- Where TIN is referenced, it stands for “Taxpayer Identification Number” or tax reference number.

To complete the registration process, a working knowledge of the relevant terms and definitions is required. Please refer to the TDMs referenced above for further assistance.

1.2 Key information to consider before starting the registration process

Revenue anticipates, that prior to initiating the registration process, the multinational enterprise (MNE) group will have clearly established and allocated key filing responsibilities. Entities appointed to key roles, such as designated filing, group filing or group remitter responsibilities, should, insofar as practicable, be those anticipated to remain part of the group and retain their assigned functions over time. The registration process also gives rise to inter-entity links and relationships. It is appropriate that such links are clearly established from the outset and will also, as practically possible, be maintained consistently over time.

To start the registration process, access to the following information will be required:

- Information about the UPE (TIN, name and location)
- Where multi-parented, information for all UPEs and confirm which UPE is the nominated UPE.
- Details of the DLE or the DFE that will file the TIR¹.
- Where electing into a group for domestic top-up tax and/or UTPR top-up tax, details of the relevant group filer².

See [Section 3](#) for more information on the tax registration process.

¹ It is recommended where a DLE is being appointed, that this entity completes its registration(s) for the relevant Pillar Two taxes before other CEs register. This will allow the CEs of the group to be linked to that entity.

² Group election is efficient for reporting and payment purposes where there are a large number of group entities. The TIN and name of filer is required.

2 Pillar Two Tax Registration obligations

2.1 Who must register

Under section 111AAH TCA 97, the following Irish entities are required to register for Pillar Two taxes:

- Relevant Parent Entity: Subject to IIR top-up tax for a fiscal year.
- Relevant UTPR Entity: Subject to UTPR top-up tax for a fiscal year.
- Qualifying Entity: Subject to domestic top-up tax for a fiscal year.

The Top-up tax information return (TIR) is the Pillar Two information reporting return. When registering for IIR top-up tax, UTPR top-up tax and/or domestic top-up tax, entities must also register for TIR regardless of whether they are the TIR filing entity. This is required to facilitate either the filing of the TIR, or the notification of filer where another entity will file the TIR.

All entities in scope of Pillar Two taxes must register using ROS – see [Section 2.3](#).

2.1.1 Inactive or dormant entities

The purpose of this section is to provide that, notwithstanding the requirements of section 111AAH TCA 97, Revenue is prepared to accept, as an administrative practice, that inactive / dormant entities are not required to register for Pillar Two purposes in Ireland, subject to all of the requirements listed below being satisfied.

As inactive or dormant entities are constituent entities for the purposes of Part 4A TCA 97, where this administrative practice does not apply, these entities should register in accordance with section 111AAH TCA 97.

This treatment only applies to entities that fall into the following categories:

- (a) an entity that is incorporated and never traded or held any assets,
- (b) an entity that had income and / or assets in the past and is now inactive but remains within the group.

Where an entity has a registration obligation in another jurisdiction, the entity should consult the legislation or guidance of that other jurisdiction to ensure compliance with any obligations in that jurisdiction. This practice only applies to a registration requirement provided for in section 111AAH TCA 1997.

To avail of this administrative practice, the group must nominate an entity to provide Revenue with the following information on or before the registration deadline that would otherwise apply in the absence of this practice:

1. Details of the inactive or dormant entities in the group, including name, CRO number and TIN if applicable.

2. Confirmation that these entities had no qualifying income for the purposes of Part 4A TCA 97 and held no assets giving rise to qualifying income for the purposes of Part 4A TCA 97 throughout the relevant fiscal year.
3. Confirmation that these entities will not have any liability to IIR top-up tax, UTPR top-up tax or domestic top-up tax in respect of the relevant fiscal year.
4. Confirmation that the details of the entities will be included on the TIR filed on behalf of the group.
5. Confirmation that where circumstances change, the group will notify Revenue within 12 months of the change and arrange registration for the appropriate tax.

The above information must be submitted electronically (via MyEnquiries) selecting the appropriate options from the dropdown menu.

Where the only entity in Ireland is dormant (i.e. no other constituent entities in the group in Ireland) the details listed at point 1 – 5 above should be submitted to Revenue by email at pillartwo@revenue.ie. This email address is to be used for this purpose only.

The creation of either a UTPR group under section 111AAL TCA 97 or a QDTT group under section 111AAO TCA 97 is contingent on all constituent entities electing to form the respective group. As an inactive or dormant entity availing of this administrative practice is not required to complete the registration process, the entity will not be able to elect to form a QDTT group or UTPR group.

In circumstances where there are inactive or dormant entities in an MNE group for a fiscal year, this will not preclude all other Irish constituent entities of an MNE group electing to form a QDTT group or UTPR group.

This administrative practice will be kept under review by Revenue and if necessary, may be updated or changed.

2.1.2 Dissolved entities

A dissolved entity technically cannot complete the registration process on Revenue Online Service (ROS) as required under section 111AAH TCA 97. Notwithstanding this, the entity may have been an in-scope entity prior to the date of dissolution.

The filing entity or the ultimate parent entity of the group should ensure that the details of this dissolved in-scope entity are included in the top-up tax information return filed on behalf of the MNE group or large-scale domestic group.

The creation of either a UTPR group under section 111AAL TCA 97 or a QDTT group under section 111AAO TCA 97 is contingent on all constituent entities electing to form the respective group. A dissolved entity was, prior to the date of dissolution, a constituent entity for the purpose of Part 4A TCA 97. As a dissolved entity cannot

complete the registration process, it will not be able to elect to form a QDTT group or UTPR group.

In circumstances where there is a dissolved entity in an MNE group for a fiscal year this will not preclude all other Irish constituent entities of an MNE group electing to form a QDTT group or UTPR group.

This administrative practice will be kept under review by Revenue and if necessary, may be updated or changed.

2.1.3 Entities with no active tax registration

Where an in-scope entity is required to register for Pillar Two purposes with Revenue, other than an entity referenced at point 2.1.1 and 2.1.2 above, that entity must have access to a ROS Certificate to complete this registration process. At present, Pillar Two taxes cannot be the sole tax head registration – i.e. entities must be registered for at least one other tax-head in the first instance to be able to access the registration portal for Pillar Two.

As most of the in-scope entities are companies, it is suggested that these companies register for Corporation Tax in the first instance which will enable access to the Pillar Two registration portal. Where these companies are not required under Irish legislation to file a return, they can de-register for Corporation Tax once the Pillar Two registration is complete. This process does not create an obligation to file a return under Corporation Tax where one does not exist under legislation.

Where an entity other than a company is required to register for Pillar Two, it is suggested that these entities select Income Tax in the first instance which will enable access to the Pillar Two registration portal. Where these entities are not required under Irish legislation to file a return, they can de-register for Income Tax once the Pillar Two registration is complete. This process does not create an obligation to file a return under Income Tax where one does not exist under legislation.

2.2 When to register

An entity that is required to register must give notice to Revenue no later than 12 months after the last day of the first fiscal year to which Part 4A TCA 97 applies.

Where a registration notification date arises on or before 31 December 2025, the notification date has been extended to no later than **28 February 2026**.

Thus, where an entity with a fiscal year ending on or before 31 December 2024 becomes liable to IIR top-up tax and domestic top-up tax in 2024, the entity must register for these taxes by 28 February 2026.

Registration is a one-time process and does not need to be repeated annually. Failure to comply with registration requirements may give rise to a penalty of €10,000.

2.3 How to register

The use of electronic channels is the standard way customers interact with Revenue. E-registration and e-filing of returns and payments, using ROS, is mandatory for customers registering for Pillar Two taxes.

The registration process described in this section can be completed once the entity is registered for ROS. Where the customer is not registered for ROS, refer to [Appendix C](#) for details on how to register for ROS.

All facilities and functionality outlined throughout this TDM are available to ROS agents and ROS-registered customers – see [Section 2.5](#) for details on how to log in to ROS.

Where an entity intends on authorising an agent to register for Pillar Two tax(es) and act on its behalf in respect of those taxes, the agent must submit an agent e-link to the entity through ROS (see [Appendix D](#)). The entity must then approve this e-link request in ROS under “Manage Agent Link Requests” (see [Appendix E](#)).

2.4 Obligations to keep registration details up to date

Once registered, entities subject to Pillar Two taxes are subject to further statutory notification requirements.

2.4.1 Obligations to notify changes in registration details

In accordance with section 111AAH(3) TCA 97, an entity is required to notify Revenue of any change to the information provided in the registration process within 12 months of the end of the fiscal year in which the change occurred.

Where an entity fails to notify Revenue of changes in registration details, it may be liable to a penalty of €10,000.

2.4.2 Obligations to cease registration

In accordance with section 111AAH(4) TCA 97, where an entity ceases to be a:

- Relevant parent entity,
- Relevant UTPR entity, or
- Qualifying entity

the entity is required to notify Revenue of the cessation, within 12 months of the end of the first fiscal year in which the entity is not such an entity, immediately following a fiscal year in which the entity was such an entity.

Where an entity fails to notify Revenue of its cessation status, it may be liable to a penalty of €10,000.

Where an entity ceases its registration and subsequently comes within scope of Part 4A TCA 97 at a later date, it must re-register for the appropriate tax.

The notification obligations must be fulfilled through ROS under the “Manage Pillar Two Tax registrations” and “Manage Pillar Two Roles and Group” portal. Further detail on these portals is discussed in [Section 3](#) and [Section 4](#) of this TDM.

2.5 How to login to ROS

Access to ROS is available on www.revenue.ie or follow this link [ROS Login](#). Select the appropriate ROS certificate from the drop-down menu, enter the password and click “Login to ROS”.

Once logged in, access to all services will be available in the “My Services” tab. The “Manage Pillar Two Tax Registrations” option is located in the “Other Services” section.

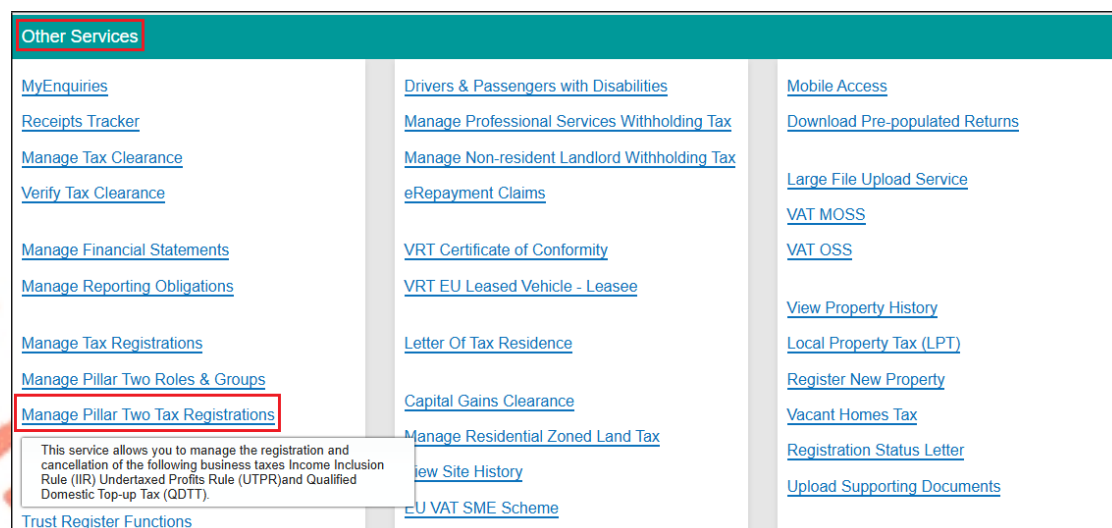

Figure 2 - ROS Home page – Manage Pillar Two Tax Registration screen

2.5.1 ROS Sub-user certificates

If registering an entity using a ROS sub-user certificate, ensure the ROS Administrator has assigned the “Submit Registration” permission to that sub-user.

The ROS Administrator can grant this by logging in with the Administrator’s digital certificate, opening the Admin Services tab, selecting the relevant sub-user, clicking Revise, and setting “Submit Registration” to “Yes” under Permissions on Administration Services.

To enable the sub-user to Manage Pillar Two Roles and Groups, the Administrator should also grant the sub-user “View” permissions under Permissions on Tax/Procedures Services.

To note - sub-users cannot update their own permissions.

3 Manage Pillar Two Tax Registrations

The Pillar Two tax registration process is straightforward and flows in stages as follows:

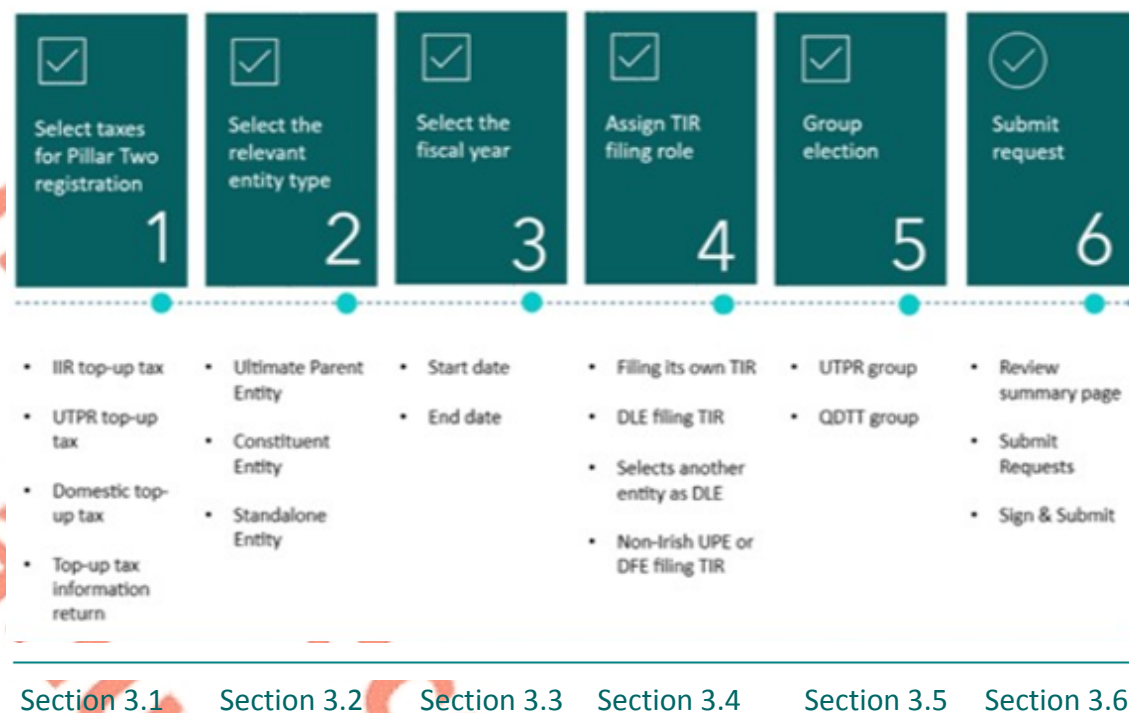

Table 1 - Stages of registration process

This section will go through each of these stages as they appear in the registration process.

To assist users with the registration process, this TDM includes examples of entities registering for Pillar Two taxes, demonstrating each stage step-by-step. See [Appendix A](#) and [Appendix B](#).

Once logged into ROS, select “Manage Pillar Two Tax Registrations” as shown in Figure 2 above.

3.1 Select taxes for Pillar Two registration (Stage 1)

The tax registration options screen on the tax registration application page will appear with the list of “Tax Type” options an entity can register for. Click “Register” for the appropriate tax type.

Select taxes for Pillar Two registration

Select the option(s) below to register for all relevant Pillar Two tax(es)

Important: Top-up Tax Information Return (TIR) Registration
The top-up tax information(TIR), also known by the OECD as the GloBE Information Return(GIR), is the Pillar Two information reporting return.
When you register for IIR top-up tax, UTPR top-up tax, and/or Domestic top-up tax, you are also required to register for TIR.

IIR Top-up Tax
 UTPR Top-Up Tax
 Domestic Top-Up Tax
 Top-up tax Information Return

[Continue](#) [Cancel Request](#)

Figure 4 - Tax registration application – tax selection screen

Important note - selecting “Cancel request” at any time throughout the registration process will end the process and any information added up to that point will not be saved.

As previously mentioned, where an entity registers for IIR top-up tax, UTPR top-up tax, and/or domestic top-up tax, it is required to register for TIR to facilitate either:

1. The filing of the TIR, or
2. The notification of filer where another entity will file the TIR.

3.2 Select the relevant entity type (Stage 2)

At this stage, the relevant entity type must be selected. Depending on the tax type selected for registration, the tax registration application will present two or three options, as follows:

1. [Ultimate Parent Entity \(UPE\)](#)
2. [Constituent Entity \(non-UPE\)](#)
3. [Standalone Entity \(non-group member\)](#)

Options 1 and 2 will appear for all tax registrations selected. Option 3 will only be present where an entity is registering for domestic top-up tax.

Different process flows will arise depending on the relevant entity type selected. This section sets out those options according to the taxes and entity type selected.

3.2.1 Relevant entity type – UPE

Where the appropriate entity type is a UPE, select “Ultimate Parent Entity (UPE)” and click “Continue”.

The screenshot shows the 'Tax Registration Application' interface. At the top left is the Revenue logo with the text 'Cáin agus Cúistáin na hÉireann Irish Tax and Customs'. The main title is 'Tax Registration Application'. Below this is a section titled 'Select the relevant entity type'. There are two radio button options: 'Ultimate Parent Entity (UPE)' which is selected and has a red box around it, and 'Constituent Entity (non-UPE)'. At the bottom of the form are two buttons: 'Continue' and 'Cancel Request'.

Figure 5 – Select relevant entity type screen

Next, indicate whether the entity is part of a multi-parented MNE or multi-parented large-scale domestic group.

Where the group is not multi-parented, select the option “No, this entity is not part of a Multi-parented MNE or large-scale domestic group”, click “Continue” to move to [Stage 3 – select first fiscal year](#).

This is a Multi-Parented MNE or large-scale domestic group

Important: Nominated UPE
It is important that a single nominated UPE is selected for registrations purposes, so that all entities within the group can be correctly linked.
The first UPE added by this Constituent entity during registration process, will by default be treated as the single nominated UPE.

[+ Add Another UPE](#)

Figure 13 - Ultimate Parent Entity details screen with multi-parented group selected

The next screen will have mandatory fields to be completed for each of the additional UPEs of this multi-parented group.

1. Select the “Ultimate Parent Entity Location” from the dropdown list, select from the list of countries (including Ireland).
2. Enter the “Ultimate Parent Entity TIN”.
Where the UPE location is selected as Ireland, a search icon will populate beside the UPE’s TIN, click this search icon to automatically populate the UPE name.
3. Where the UPE location is outside Ireland, enter the “Ultimate Parent Entity’s name”.
4. Click “+ Add Another UPE”.
5. Repeat 1 - 4 where there are additional UPEs to add.

Figure 16 – Select relevant entity type screen – Standalone Entity (non-group member)

Proceed to [Stage 3](#) – Select the first fiscal year as UPE details are not relevant.

3.3 Select the first fiscal year (Stage 3)

On this screen, the registering entity must enter the first fiscal year that applies to the group or standalone entity for Pillar Two taxes. Please ensure the dates are accurate, as fiscal year details cannot be amended electronically on ROS after registration is completed. Requests for changes to fiscal year dates may be made by contacting Revenue through MyEnquiries. See [Section 5](#) below.

The screenshot shows the 'Tax Registration Application' interface. At the top left is the Revenue logo with the text 'Cáin agus Cústaim na hÉireann Irish Tax and Customs'. The main heading is 'Tax Registration Application'. Below this is the section 'Select the first fiscal year'. The instructions state: 'Select the first fiscal year that the group or standalone entity is in scope for the selected Pillar Two tax(es). The fiscal year means the accounting period that the UPE (where relevant) prepares its consolidated financial statements, or otherwise the calendar year. The fiscal year start date is the commencement date of the accounting period of the UPE or standalone entity. The fiscal year end date is the end-date of the accounting period of the UPE or the standalone entity.' There are two date input fields: 'Fiscal Year Start Date *' and 'Fiscal Year End Date *'. Both fields have a placeholder 'DD/MM/YYYY' and a calendar icon. Below each field is the text 'Enter Date(DD/MM/YYYY)'. At the bottom of the form are two buttons: 'Add Request' and 'Cancel Request'.

Figure 17 – Select first fiscal year

Where relevant entity type selected is UPE or CE, the process will move on to [Stage 4](#) – Assign TIR Filing Role.

Where relevant entity type selected is a standalone entity, the process will move on to [Stage 6](#) – Submit Requests.

3.4 Assign TIR Filing Role (Stage 4)

As part of the registration process, an entity can assign TIR Filing Roles. Where required, the details of roles can be updated in the Manage Roles and Group at another time - see [Section 4.2](#) for more details.

Choose from one of the following four options:

Option 1 - This entity will file its own TIR – [section 3.4.1](#).

Option 2 - This entity is the designated local entity (DLE) – [section 3.4.2](#).

Option 3 - This entity (non-filer) selects another entity to act as DLE – [section 3.4.3](#).

Option 4 - This entity (non-filer) selects a non-Irish UPE or designated filing entity (DFE) to file a TIR in another jurisdiction (where a DLE is not appointed) – [section 3.4.4](#).

Careful consideration should be taken before proceeding with this section of the registration process. If this entity will not file its own TIR, the details of the DLE or DFE including location, TIN and name are required.

3.4.1 Entity will file its own TIR

This option applies where the entity is self-filing and not filing the TIR on behalf of any other group CEs.

Where appropriate, select this option and click “Continue” to move to the next stage.

The screenshot shows the Revenue Tax Registration Application interface. At the top left is the Revenue logo with the text 'Cais agus Custaim na hÉireann Irish Tax and Customs'. The main heading is 'Tax Registration Application'. Below this is a 'Select TIR Filing Role' section. A back arrow is visible on the left. A note states: 'If required, you can update roles in the 'Manage Roles and Groups' section'. There are four radio button options: 1. 'This entity will file its own TIR (non-designated local entity)' - This option is selected and highlighted with a red box. 2. 'This entity is the designated local entity (DLE)'. 3. 'This entity (non-filer) selects another entity to act as the DLE'. 4. 'This entity (non-filer) selects a non-Irish UPE or designated filing entity to file a TIR in another jurisdiction (where a DLE is not being appointed)'. At the bottom, there are two buttons: 'Continue' (highlighted with a red box) and 'Cancel'.

Figure 18 – Assign TIR filing role screen – entity will file own TIR

3.4.2 Entity is the designated local entity (DLE)

This option applies to a DLE that was appointed by the other CEs of the group to file the TIR or submit the notification of filer on their behalf.

Where appropriate, select the second option and click “Continue”.

Once the relevant selection has been completed, the process will move on to the next relevant registration stage.

Where the registration is for IIR top-up tax and/or TIR, the process will move on to [Stage 6](#) – Submit Requests.

Where the registration is for UTPR top-up tax and/or domestic top-up tax, move on to [Stage 5](#) – Group Election.

3.5 Group Election (Stage 5)

To simplify the reporting obligations in relation to UTPR top-up tax and / or domestic top-up tax, one group member can be appointed to file the relevant return on behalf of all Irish group members. The group filer will be primarily liable for the relevant tax in respect of all the Irish group members.

This stage of the registration process allows members of the MNE group or large-scale domestic group to elect to become a member of a UTPR Group and/or a QDTT Group. The relevant group members must appoint one such member to be the group filer.

Important note - A group filer does not create the group at registration stage. The creation of a group occurs after registration under the Manage Pillar Two Roles and Groups portal – see [Section 4](#) below. A group should not be created by the group filer until all entities have registered and elected to be a member of the group.

Where an entity does not elect to become a member of a group during the registration process, the option to elect to be a member of a group can be updated later through the Manage Pillar Two Roles and Groups section on ROS.

Where an entity is registering for domestic top-up tax and UTPR top-up tax, the process will flow from [Section 3.5.1](#) to [Section 3.5.2](#).

Where an entity is registering for domestic top-up tax but not UTPR top-up tax, go straight to [Section 3.5.2](#).

3.5.1 UTPR Group

All CEs of an MNE group that are subject to the UTPR (referred to as relevant UTPR members) may elect to form a UTPR Group. The relevant UTPR members must appoint one such member to be the UTPR group filer.

Where an entity does not elect to create or become a member of a UTPR Group, select “Continue” to move on to the next stage.

Where an entity is electing to become a member of a UTPR Group, tick the appropriate box and select “Continue”.

Select the option(s) below to register for all relevant Pillar Two tax(es)

Important: Top-up tax information return (TIR) Registration
The top-up tax information(TIR), also known by the OECD as the GloBE Information Return(GIR), is the Pillar Two information reporting return.
When you register for IIR top-up tax, UTPR top-up tax, and/or Domestic top-up tax, you are also required to register for TIR.

You are already registered for the following:
Top-up tax information return
IIR top-up tax
Domestic top-up tax
You can add additional registrations by selecting the options below

IIR top-up tax
 UTPR top-up tax
 Domestic top-up tax
 Top-up tax information return

Figure 44 – Select taxes for Pillar Two registration screen

Next review the list of completed tax registration requests and click on “Submit Requests”.

The screenshot shows the 'Tax Registration Application' interface. At the top, there is a header with the Revenue logo and the title 'Tax Registration Application'. Below the header, there is a navigation bar with a back arrow and the title 'Tax Registration Options'. The main content area is divided into two sections. On the left, there is a yellow box with a warning icon and the text: 'Manage your Tax Registrations and TAIN links. You may add multiple requests to "Your Requests". After completing a registration form you will be returned to this screen where you can complete the registration process.' Below this is a 'Registration Options' section with a 'Show 10 entries' dropdown and a search box. A table lists the registration options:

Tax Type	Status	TIN Number	Action
Domestic top-up tax	Registered	[Redacted]	Cease
IIR top-up tax	Registered	[Redacted]	Cease
Top-up tax information return	Registered	[Redacted]	Cease
UTPR top-up tax	Not Registered		

At the bottom of the table, it says 'Showing 1 to 4 of 4 entries' and 'Previous 1 Next'. On the right side, there is a 'Your Requests' section with a green border. It contains the text: 'Below is a list of your completed Tax registration requests. You must submit them to finish the registration process.' Below this text, there is a table with one row: 'UTPR' with buttons for 'Register', 'Remove', and 'Edit'. At the bottom right of the main content area, there is a blue button labeled 'Submit Requests' with a right-pointing arrow, which is highlighted with a red box.

Figure 45 – Tax registration options screen – review your requests

Review the tax registration summary, click “Sign and Submit” and input the ROS password to finish the registration process.

The screenshot shows the 'Tax Registration Summary' screen. At the top, there is a header with the Revenue logo and the title 'Tax Registration Application'. Below the header, there is a navigation bar with a back arrow and the title 'Tax Registration Summary'. The main content area contains the text: 'Review the following details before clicking the Sign and Submit Button'. Below this text, there is a green-bordered box with the title 'Registration for Pillar Two taxes'. Inside this box, it says: 'These taxes are being registered for: UTPR top-up tax'. Below this text, there is a blue link labeled 'Edit Details'. At the bottom of the main content area, there is a blue button labeled 'Sign and Submit' with a right-pointing arrow, which is highlighted with a red box.

Figure 46 – Tax registration summary screen

The entity will be directed back to the tax registration options screen where the status of registration will be updated.

The screenshot shows the 'Tax Registration Application' interface. At the top, there is a header with the Revenue logo and the title 'Tax Registration Application'. Below the header, there is a navigation link '← Back' and the main heading 'Tax Registration Options'.

A yellow callout box contains the following text:

Manage your Tax Registrations and TAIN links
 You may add multiple requests to 'Your Requests'.
 After completing a registration form you will be returned to this screen where you can complete the registration process.

Below this, there is a section titled 'Registration Options' with a search bar and a table of registration entries. The table has columns for 'Tax Type', 'Status', 'TIN Number', and 'Action'. The entries are:

Tax Type	Status	TIN Number	Action
Domestic top-up tax	Registered	[Redacted]	Cease
IIR top-up tax	Registered	[Redacted]	Cease
Top-up tax information return	Registered	[Redacted]	Cease
UTPR top-up tax	Registered	[Redacted]	Cease

At the bottom of the table, it says 'Showing 1 to 4 of 4 entries' and 'Previous 1 Next'. To the right of the table, there is a 'Your Requests' section with a 'Submit Requests' button.

4.2 TIR Role

The “TIR Role” tab allows users to:

- a) View the entity’s TIR filing status to include any assigned roles.

Where the TIR filer is not this entity, details of the TIR filer can be viewed in this tab.

- b) Change the entity’s TIR role.

4.2.1 View Entity’s TIR filing status

This screen shows the entity’s assigned role for TIR filing (if applicable), as well as details of the TIR filer if they are not the same entity.

The screenshot shows the 'Tax Registration Application' interface. At the top left is the Revenue logo with the tagline 'Fairness Customised to Fit you'. The main header is 'Tax Registration Application'. Below this is a navigation bar with a 'Back' link and four tabs: 'Profile', 'TIR Role' (which is selected and highlighted with a red box), 'UTPR Groups', and 'QDIT Groups'. The main content area is titled 'Manage Roles and Groups'. Underneath, the 'TIR Role' section displays the message: 'You are currently registered as a non-filer for TIR purposes', which is highlighted with a green box. Below this message is a 'Change TIR role' link. Further down, a 'Designated Local Entity Details' section is highlighted with a green box. It contains three rows of information: 'DLE Name' with a blurred value, 'DLE TIN' with a blurred value, and 'DLE Role' with the value 'Designated Local Entity filing TIR'.

Figure 57 – Manage roles and groups screen (non-filer’s view) - TIR role tab

Figure 59 – TIR role tab – change TIR role screen

The “Assign TIR Filing Role” screen is presented. Update the TIR filing role for the entity, and click “Continue”.

Refer to [Section 3.4](#) above for additional information on this process.

The screenshot shows the 'Tax Registration Application' interface. At the top left is the Revenue logo with the text 'Cáin agus Custaim na hÉireann Irish Tax and Customs'. The main header is 'Tax Registration Application'. Below the header is a 'Back' button. The main heading is 'Select TIR Filing Role'. A note states: 'If required, you can update roles in the 'Manage Roles and Groups' section'. There are four radio button options, all enclosed in a green rectangular box:

- This entity will file its own TIR (non-designated local entity)
- This entity is the designated local entity (DLE)
- This entity (non-filer) selects another entity to act as the DLE
- This entity (non-filer) selects a non-Irish UPE or designated filing entity to file a TIR in another jurisdiction (where a DLE is not being appointed)

At the bottom are 'Continue' and 'Cancel' buttons.

Figure 60 – Assign TIR filing role screen – all options

The “Sign & Submit” screen is presented. Enter the ROS password and click “Sign & Submit” to complete the amendments to the TIR filing role.

The screenshot shows the 'Sign & Submit' interface. At the top left is the Revenue logo with the text 'Cáin agus Custaim na hÉireann Irish Tax and Customs'. The main header is 'Sign & Submit'. Below the header is a 'Certificate' field with a blurred value and a 'Help' link. Below that is an 'Enter Password' field with the text 'Password' and a red rectangular box around it. Below the password field is a 'Sign & Submit' button, also with a red rectangular box around it. At the bottom is a progress bar showing '0%'.

Figure 61 – ROS sign & submit screen

4.3 QDTT Groups

As noted in [Section 3.5](#), the QDTT Group is not created during registration. Instead, the creation of a group occurs after registration in the Manage Pillar Two Roles and Groups portal, under the “QDTT Groups” tab.

The QDTT Groups tab allows users to:

- View QDTT group elections (prior to creation of the QDTT Group).
- Amend QDTT group elections.
- Create a QDTT Group (available once all group entities have elected to join).
- View the QDTT Group (post creation).
- Delete the QDTT Group.

4.3.1 View QDTT group election

This tab displays different content based on the entity’s status (QDTT group filer versus non-filer).

Where the entity is not the QDTT group filer, the following screen is displayed, showing the TIN details of the selected group filer as provided at registration.

The screenshot displays the 'Tax Registration Application' interface. The header includes the Revenue logo and the title 'Tax Registration Application'. The main content area is titled 'Manage Roles and Groups' and features a navigation menu with tabs for 'Profile', 'TIR Role', 'UTPR Groups', and 'QDTT Groups'. The 'QDTT Groups' tab is selected and highlighted with a red box. A yellow warning message is displayed, stating: 'The QDTT Group has not been created yet. The Group filer can only create the group once all entities have elected to be in the group'. Below this message, there is a 'Selected Group Filer:' label and a text input field, which is highlighted with a green box. At the bottom of the screen, there is a link for 'Amend Group Election'.

Figure 62 – Manage Roles and Groups screen – QDTT Groups tab (non-filer’s view)

Where the entity is the QDTT group filer, the details of the entities that have elected to join the QDTT Group and those awaiting election are shown (see Figure 63). The QDTT Group status will remain “Inactive” until the QDTT Group is formally created – see [section 4.3.3](#) for more details.

4.4 UTPR Groups

As noted in [Section 3.5](#), the UTPR Group is not created during registration. Instead, the creation of a UTPR Group occurs after registration in the Manage Pillar Two Roles and Groups portal, under the “UTPR Groups” tab.

The UTPR Groups tab allows users to:

- View UTPR group election (prior to creation of the UTPR Group).
- Amend UTPR group election.
- Create a UTPR Group (available once all CEs have elected to join).
- View the UTPR Group (post-creation).
- Delete the UTPR Group.

4.4.1 View UTPR group election

This tab displays different content based on the entity’s status (UTPR group filer versus non-filer).

Where the entity is not the UTPR group filer, the following screen is displayed, showing the TIN details of the selected group filer as provided at registration.

The screenshot shows the 'Tax Registration Application' interface. At the top left is the Revenue logo with the text 'Cáin agus Cústaim na hÉireann Irish Tax and Customs'. The main header is 'Tax Registration Application'. Below this is the section 'Manage Roles and Groups'. There are four tabs: 'Profile', 'TIR Role', 'UTPR Groups' (which is highlighted with a red box), and 'QDTT Groups'. A yellow information box contains the message: 'The UTPR Group has not been created yet. The Group filer can only create the group once all entities have elected to be in the group'. Below this, there is a label 'Selected Group Filer:' followed by a text input field with a green border. At the bottom left of the input area is a link 'Amend Group Election'.

Figure 80 – Manage Roles and Groups screen– UTPR Groups tab (non-filer’s view)

Where the entity is the UTPR group filer, the details of the entities that have elected to join the UTPR Group and those awaiting election are shown (see Figure 81). The UTPR Group status will remain “Inactive” until the UTPR Group is formally created – see [Section 4.4.3](#) for more details.

UTPR Group (Optional step)

A UTPR group can be created when all group entities are registered for UTPR. If relevant, you have the option to create a UTPR group in the 'Manage Roles and Groups' section. Click "Continue" button if you would like to skip this step or select the checkbox if relevant.

Important: UTPR Group
All relevant UTPR entities should elect to be members of the UTPR group. In the absence of such a group, each UTPR registered entity is required to individually file a return and pay the relevant tax arising for each fiscal year.

This entity is electing to become a member of a UTPR Group (Optional)

4.4.3 Create UTPR Group

A UTPR Group can be created when all UTPR group entities are registered for UTPR and have elected to join the UTPR Group.

Important note - a UTPR Group should not be created by the group filer until all entities have registered for UTPR and elected to be members of the UTPR Group.

Where an entity has not elected to become a member of a UTPR Group, the “Create UTPR Group” option will not be available. The UTPR election will appear as “not elected” as shown in Figure 86 below.

Where an entity has elected to become a member of a UTPR Group, the UTPR election will appear as “Elected” for that entity.

4.5.1 Delete UTPR Group

The option to delete a UTPR Group is only available to the group filer.

Important note - when a UTPR Group is deleted, the onus to file a UTPR return and make associated payments reverts to the group entities.

However, circumstances may arise that require deleting the existing UTPR Group - for example where the CEs are no longer subject to UTPR top-up tax because the jurisdiction of the UPE enacts the IIR. In other cases, it may be necessary to delete the existing UTPR Group and create a new one - for example, if the UTPR Group was created in error before all CEs had registered for UTPR top-up tax.

To delete a UTPR Group, select the “Delete Group” option, as shown below:

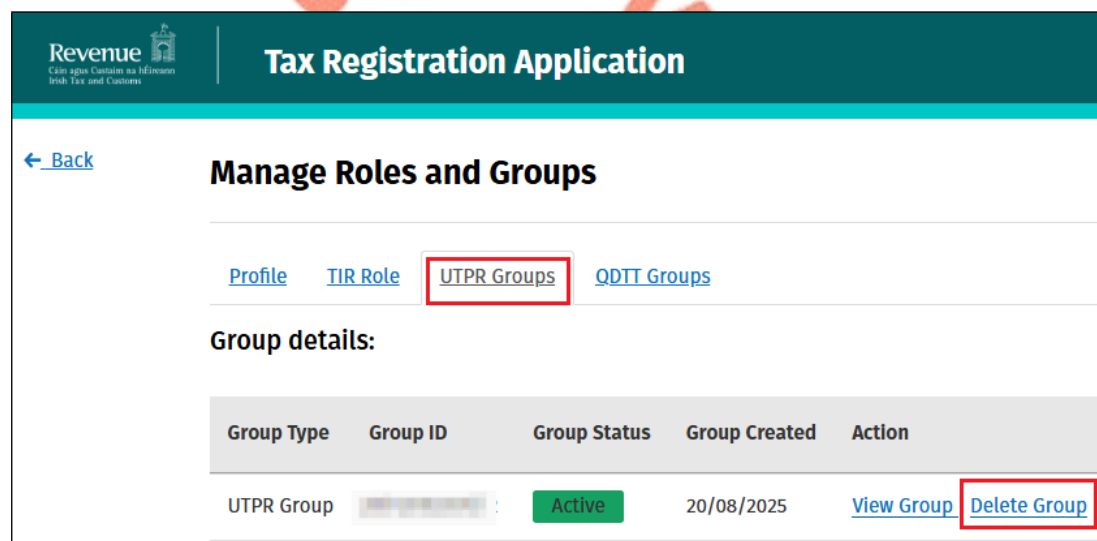

Figure 93 – Manage Roles and Groups screen - UTPR Groups tab – Delete Group option

The following screen will be displayed. If appropriate, click “Continue”.

5 Tax registration queries – contacting Revenue via MyEnquiries

All queries relating to Pillar Two taxes should be made via MyEnquiries. MyEnquiries is a structured online contact facility that enables users to securely send and receive correspondence to and from Revenue. Access to MyEnquiries is available through ROS. Once registered for MyEnquiries, access the service through ROS. Login to ROS and select “MyEnquiries” in the “My Services” tab.

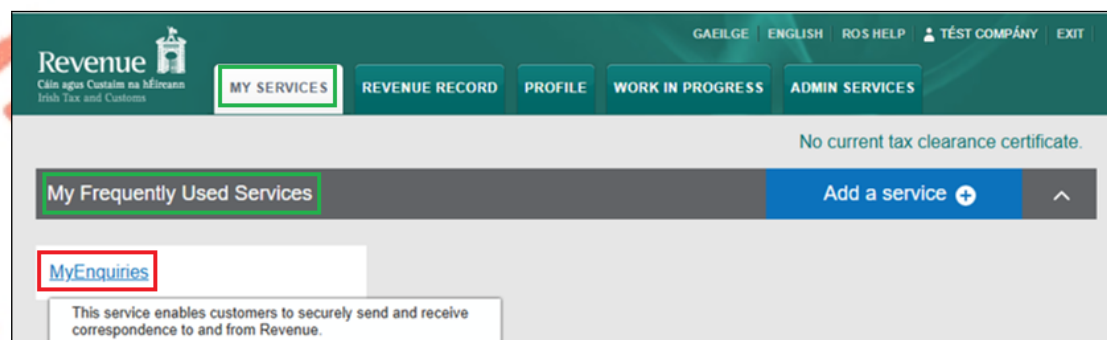

Figure 98 – ROS homepage – My service with MyEnquiries option

A drop-down menu will allow users to select what the Enquiry relates. Select “Pillar Two” from the drop-down menu at “Enquiry relates to” and “Registration” from the drop-down menu at “More specifically”.

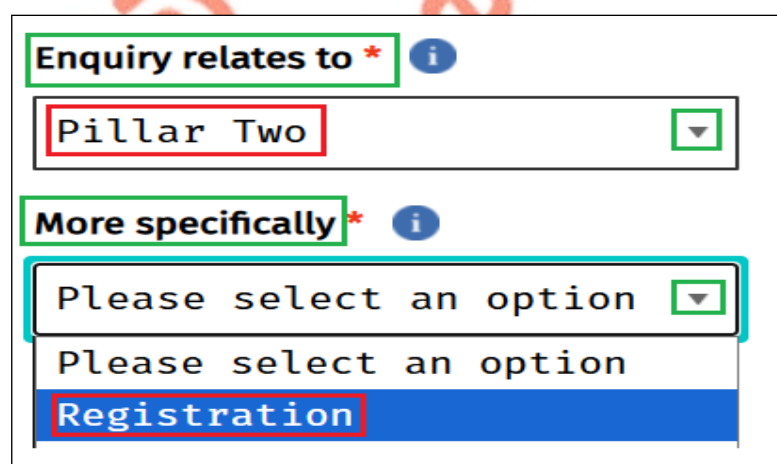

Figure 99 – MyEnquiries drop-down option screen

Enter the details of the enquiry and once submitted, the enquiry will be directed to a member of the Pillar Two team.

Please refer to TDM [Part 37-00-36](#) for more information on MyEnquiries.

Appendices

Appendix A – Registering for QDTT, IIR and TIR where relevant entity type is UPE.

Step 1: Log into ROS and click on Manage Pillar Two Tax Registrations as per [Section 2.5](#) above.

Step 2: Under action, click any “Register” link at the various Tax Type to move to the select relevant taxes screen.

Step 6: Where this is a multi-parented MNE or multi-parented large-scale domestic group, tick the relevant box and click “Continue”.

Step 7: List the other UPEs – refer to [Section 3.2.2](#) above.

Step 8: Select the first fiscal year that applies to the group for Pillar Two tax(es) – enter the start date and end date, click “Continue”.

The screenshot shows the 'Tax Registration Application' interface. At the top left is the Revenue logo with the text 'Cáin agus Cúistiam na hÉireann Irish Tax and Customs'. The main title is 'Tax Registration Application'. Below the title is a 'Back' link. The section is titled 'Select the first fiscal year'. The instructions state: 'Select the first fiscal year that the group or standalone entity is in scope for the selected Pillar Two tax(es). The fiscal year means the accounting period that the UPE(where relevant) prepares its consolidated financial statements, or otherwise the calendar year. The fiscal year start date is the commencement date of the accounting period of the UPE or standalone entity. The fiscal year end date is the end-date of the accounting period of the UPE or the standalone entity.' There are two input fields: 'Fiscal Year Start Date *' with the value '01/01/2024' and 'Fiscal Year End Date *' with the value '31/12/2024'. Both fields have a calendar icon and the prompt 'Enter Date(DD/MM/YYYY)'. At the bottom are two buttons: 'Continue' and 'Cancel Request'.

- Telephone at 01 738 3699
- International customers may contact ROS via the email address above or call +353 1 738 3699.

Appendix D – Agent e-linking and registering process

Where an agent will complete the Pillar Two registration process on behalf of its client, an agent e-link must be created for Pillar Two tax(es). This appendix provides guidance on how to complete the agent e-link in the following scenarios:

1. Client is an [existing client](#) for other (non-Pillar Two) tax(es).
2. Client is a [new client](#) – agent is not currently linked to the client for any tax(es).

1. Client is an existing client for other (non-Pillar Two) tax(es)

Step 1: The agent should log into ROS using their own TAIN DigiCert. The agent can search for an existing client in the “Find Clients” section on the TAIN Services page, by registration number, or by viewing the full client list.

The screenshot shows the TAIN Services interface. At the top, there is a navigation bar with the Revenue logo and four main menu items: TAIN SERVICES, REVENUE RECORD, PROFILE, and ADMIN SERVICES. Below this is a 'Find Clients' section with a sub-header 'Find Clients' and a brief instruction: 'You can file returns, make payments and manage bank details for clients through Client Services. Select a client below to view their available Client Services. To prevent data protection and security breaches please ensure that all details entered are correct to customer.' The 'Client Search' section is highlighted with a red box and contains two radio buttons: 'Tax Registrations' (selected) and 'Reporting Obligations'. Below these are a dropdown menu for 'Select a tax type...', an input field for 'Enter registration no.', and a 'Search' button. There is also a 'Search by name' section with an input field for 'Enter surname' and another 'Search' button. To the right, the 'Your Client List' section is highlighted with a red box and contains a 'View Client List' button and an 'Export Client List' button. Below this is a section for 'Or you can display all new clients from a certain date.' with an input field for 'Enter date' and a 'Display' button. On the far right, there is a 'Last 10 Clients Accessed' section with a list of client names.

Figure 130 – TAIN Services home page - Find Clients function

Step 2: When searching by registration number, the agent should use the drop-down menu to select a tax type they are already linked to for their client, for example Corporation Tax. Enter the client’s tax registration number and click “Search”.

Figure 131 – TAIN Services home page - Find Clients function – enter client’s linked tax and registration number

Step 3: The agent is directed to the “Client Services” page as per Figure 132. The agent can register their existing client for Pillar Two tax(es) by selecting “Manage Pillar Two Tax Registrations” under “Other Services”.

Figure 132 – Client Services page – Other Services function – Manage Pillar Two Tax Registrations

Step 4: On the Tax Registration Options screen (at Figure 133), the agent should click the three-dot menu in the action column, then select "Add and link to a new registration."

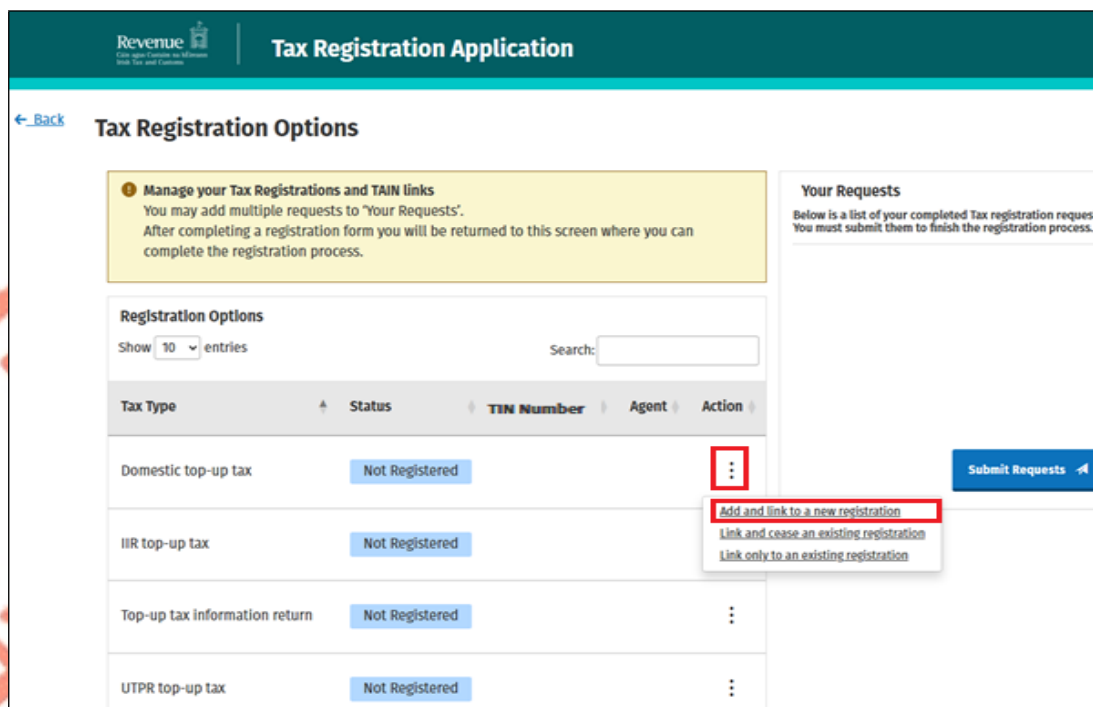

Figure 133 – Tax Registration Application – Add and link to a new registration

Step 5: To complete the relevant Pillar Two tax registrations, the agent should follow the steps in [Section 3](#) of this TDM.

Step 6: The Agent-Client Link advisory screen will appear at the end of the registrations process as per Figure 134. Click "Sign and Submit".

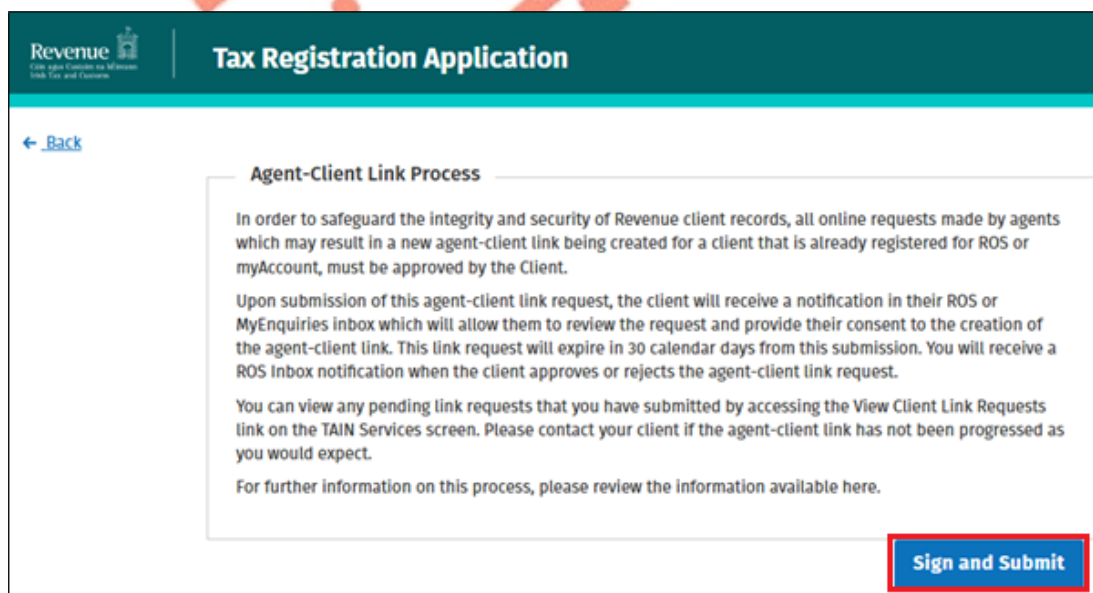

Figure 134 – Agent-Client Link advisory screen

Upon submission of the request by the agent, the client will receive a notification in their ROS Inbox.

2. Client is a new client

For a new client, not linked to the agent for any taxes, the agent should apply the e-linking procedure appropriate to the client's Pillar Two registration status:

- [New client – not registered](#) for Pillar Two tax(es).
- [New client – already registered](#) for Pillar Two tax(es).

New client – not registered for Pillar Two tax(es)

If the client is new and not registered for Pillar Two tax(es), but has other tax registrations, and the agent wishes to create an agent e-link and register the client for Pillar Two tax(es), the agent should follow these steps:

Step 1: Log into ROS using their the agent TAIN DigiCert and navigate to the “Manage Tax Registrations” function on the TAIN Services home page.

The screenshot displays the TAIN Services interface. At the top, the Revenue logo is on the left, and navigation links for 'TAIN SERVICES', 'REVENUE RECORD', 'PROFILE', and 'ADMIN SERVICES' are in the center. On the right, there are language options (GAELIGE, ENGLISH) and a 'ROS HELP' link. Below the navigation bar, the 'Find Clients' section provides instructions on how to use Client Services and includes search filters for 'Tax Registrations' and 'Reporting Obligations'. The 'Manage Tax Registrations' section is highlighted with a red box and contains a 'Manage Client Registrations' form with fields for tax type, registration number, and name, and a 'Manage' button. To the right of this form is a 'Register New Revenue Customer' section with buttons for 'Register New Revenue Customer', 'Register New Reporting Entity', and 'Register for Import Scheme'.

Figure 135 – TAIN Services home page - Manage Tax Registrations

Step 2: Select “Tax Registrations”, and complete the fields highlighted in Figure 136 below.

From the first drop-down menu the agent should select a non-Pillar Two tax that the client is already registered for (in this example, Corporation Tax). Next they must identify the client by inserting the tax registration number and client name, then select “Manage Pillar Two Tax Registrations” from the second drop-down menu, and click “Manage”.

Figure 136 – Manage Tax Registrations – selections where a new client has an existing (non-Pillar Two) tax registration

Note: Because the client is not registered for Pillar Two, do not select a Pillar Two tax in the first drop-down menu; doing so will return an error message.

Step 3: The agent is directed to the Pillar Two “Tax Registration Application” as per Figure 137. Click the three-dot menu in the Action column, then select "Add and link to a new registration."

Agent-Client Link Process

In order to safeguard the integrity and security of Revenue client records, all online requests made by agents which may result in a new agent-client link being created for a client that is already registered for ROS or myAccount, must be approved by the Client.

Upon submission of this agent-client link request, the client will receive a notification in their ROS or MyEnquiries inbox which will allow them to review the request and provide their consent to the creation of the agent-client link. This link request will expire in 30 calendar days from this submission. You will receive a ROS Inbox notification when the client approves or rejects the agent-client link request.

You can view any pending link requests that you have submitted by accessing the View Client Link Requests link on the TAIN Services screen. Please contact your client if the agent-client link has not been progressed as you would expect.

For further information on this process, please review the information available here.

[Sign and Submit](#)

Figure 138 – Agent-Client Link advisory screen

Step 6: Enter the ROS password and click “Sign & Submit” to complete registration and e-link request.

The screenshot shows the ROS Sign & Submit interface. At the top left is the Revenue logo with the text 'Cáin agus Custaim na hÉireann Irish Tax and Customs'. The main heading is 'Sign & Submit'. Below this, there is a form with the following elements:

- A 'Certificate' field with a blurred input area and a 'Help' link.
- An 'Enter Password' field with the text 'Password' and a red rectangular highlight around it.
- A 'Sign & Submit' button with a red rectangular highlight around it.
- A progress bar at the bottom showing '0%'.

Figure 139 – ROS sign & submit screen

Upon submission of the request by the agent, the client will receive a notification in their ROS Inbox.

New client – already registered for Pillar Two tax(es)

For a new client who is already registered for Pillar Two taxes, and where the agent intends to create an agent e-link, proceed as follows:

Step 1: Log into ROS using the agent TAIN DigiCert and navigate to the “Manage Tax Registrations” function on the TAIN Services home page.

The screenshot displays the Revenue Client Services interface. At the top, there is a navigation bar with the Revenue logo and the text 'Cáin agus Custaim na hÉireann Irish Tax and Customs'. The navigation menu includes 'TAIN SERVICES', 'REVENUE RECORD', 'PROFILE', and 'ADMIN SERVICES'. The 'TAIN SERVICES' tab is highlighted with a red box. Below the navigation bar, the 'Find Clients' section is visible, with a sub-section 'Manage Tax Registrations' highlighted by a red box. This section is divided into two main areas: 'Manage Client Registrations' and 'Register New Revenue Customer'. The 'Manage Client Registrations' area includes a 'Client Search' section with radio buttons for 'Tax Registrations' (selected) and 'Reporting Obligations'. It features a 'Select a tax type...' dropdown menu, an 'Enter registration no.' field, and a 'Search' button. Below this, there is a 'Search by name:' section with an 'Enter surname' field and another 'Search' button. The 'Register New Revenue Customer' area includes a 'Register New Revenue Customer' button, a 'Register New Reporting Entity' button, and a 'Register for Import Scheme' button. A large, diagonal watermark reading 'A manual is available. version of this' is overlaid on the page.

Figure 1403 – Manage client registrations

Step 2: Select “Tax Registrations”, and complete the fields highlighted in Figure 141 below.

From the first drop-down menu the agent should select a Pillar Two tax that the client is already registered for (in this example, IIR top-up tax). Next they must identify the client by inserting the tax registration number and client name, then select “Manage Pillar Two Tax Registrations” from the second drop-down menu, and click “Manage”.

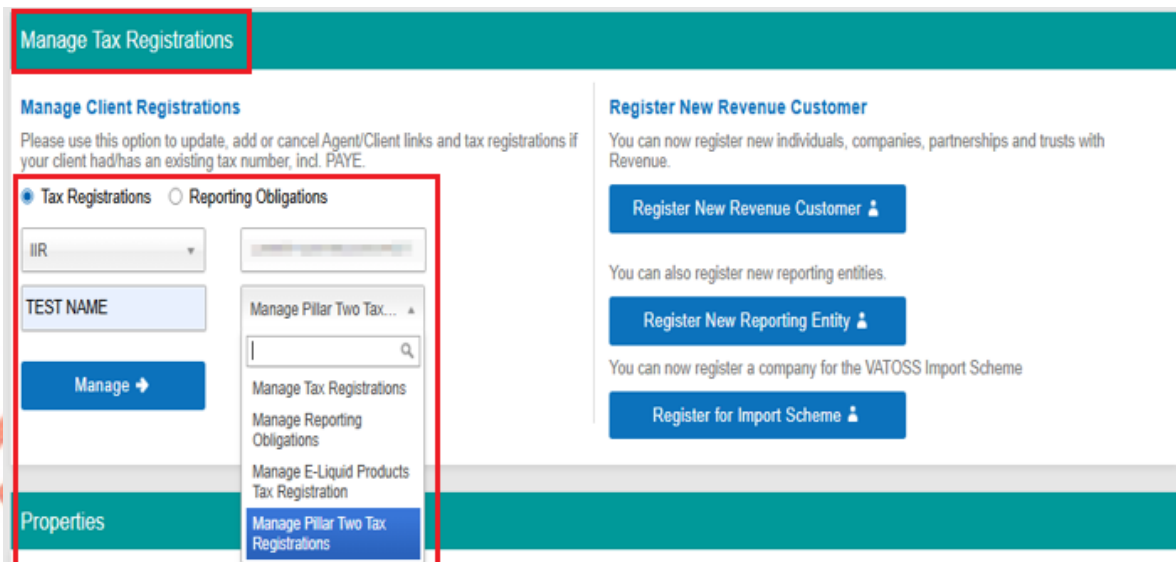

Figure 141 – Manage Tax Registrations - selections where new client has an existing Pillar Two tax registration

Step 3: The agent is directed to the Pillar Two “Tax Registration Application” as per Figure 142. Click the three-dot menu in the action column, then select "Link only to an existing registration" for each Pillar Two tax the agent wishes to create an e-link for. To protect taxpayer confidentiality, the status of the client’s registrations shows as “Not registered” until the client approves the agent link request.

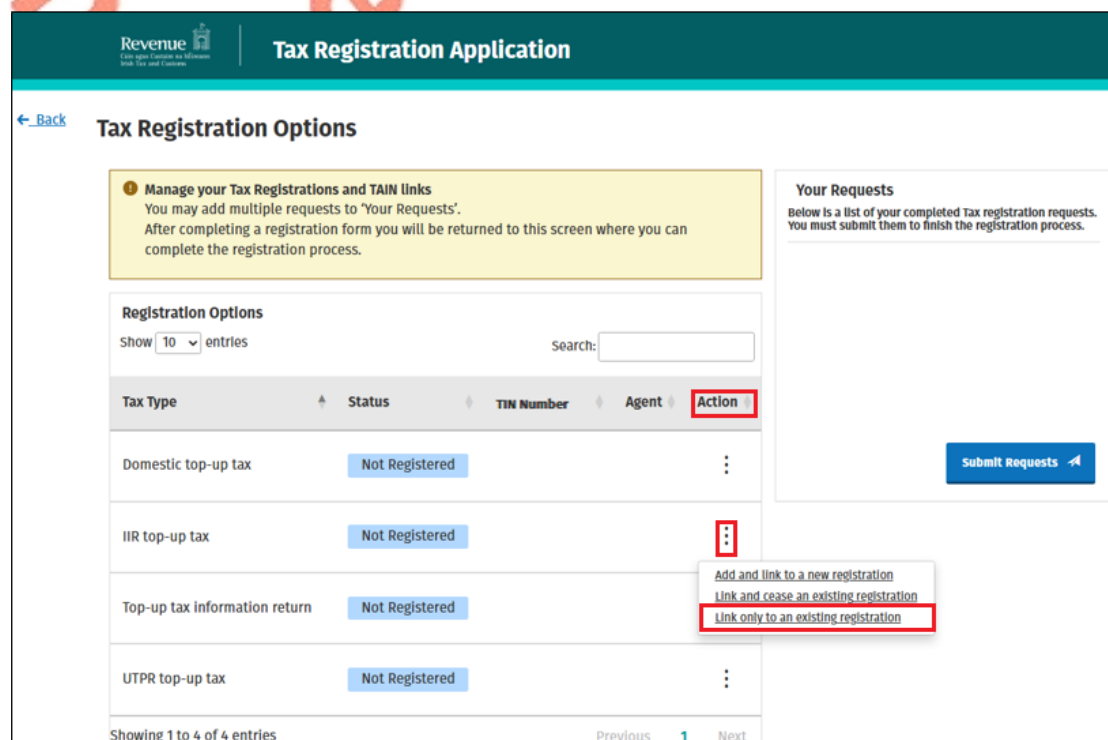

Figure 142 – Manage Tax Registrations - selections where new client has an existing Pillar two tax registration

Step 4: The selected requests will be shown on the right of the Tax Registrations Application screen as per Figure 143. To complete the e-linking process, click “Submit Requests”.

The screenshot shows the 'Tax Registration Application' interface. On the left, under 'Tax Registration Options', there is a table of registration options. On the right, under 'Your Requests', there is a list of completed requests with a 'Submit Requests' button.

Step 6: The Agent-Client Link advisory screen will appear at the end of the registrations process as per Figure 145. Click “Sign and Submit”.

The screenshot shows a web page titled "Tax Registration Application" with the Revenue logo in the top left. A "Back" link is visible on the left. The main content area is titled "Agent-Client Link Process" and contains the following text:

In order to safeguard the integrity and security of Revenue client records, all online requests made by agents which may result in a new agent-client link being created for a client that is already registered for ROS or myAccount, must be approved by the Client.

Upon submission of this agent-client link request, the client will receive a notification in their ROS or MyEnquiries inbox which will allow them to review the request and provide their consent to the creation of the agent-client link. This link request will expire in 30 calendar days from this submission. You will receive a ROS Inbox notification when the client approves or rejects the agent-client link request.

You can view any pending link requests that you have submitted by accessing the View Client Link Requests link on the TAIN Services screen. Please contact your client if the agent-client link has not been progressed as you would expect.

For further information on this process, please review the information available here.

A blue "Sign and Submit" button is located at the bottom right of the advisory text box.

Figure 145 – Agent-Client Link advisory screen

Upon submission of the request by the agent, the client will receive a notification in their ROS Inbox.

Appendix E – How to approve the Agent link request

Where an agent has submitted an agent link request on ROS and a client entity intends on authorising this agent to register for Pillar Two tax(es) and act on its behalf in respect of those taxes, the entity should approve this agent link in ROS.

For detailed instructions on approving or rejecting agent link requests, refer to Section 2.2 in TDM [Part 37-00-04c](#). Where an entity has granted authority to an agent/advisor to act on their behalf for Pillar Two tax(es), a confirmation of agent/advisor link letter will issue to the entity/client.

Important note - where a pending link request is neither approved nor rejected, it will expire **after 30 days**. This means the registration process will have to be completed again.

MNE Group using a TAIN DigiCert

Where an MNE group has its own TAIN DigiCert to manage the registrations of all entities within the group, each group entity must approve the agent link request under their individual ROS certificate for the registration to be approved and active.
