1. Introduction
MyEnquiries is a structured online contact facility that allows customers to securely send and receive correspondence to and from Revenue. (It does not have email functionality, such as cc, out of office, read, read receipt option, etc.)

- PAYE customers can access MyEnquiries through myAccount.
- Business customers can access MyEnquiries through ROS.

1.1 Agent enquiries
Agents must access MyEnquiries via ROS if they wish to enquire about their clients’ tax affairs.

1.2 Revenue Technical Service (RTS)
Customers and agents must submit queries to RTS using MyEnquiries. Further information is contained in the RTS Guidelines.

1.3 Customer Service Standards
In accordance with Revenue’s Customer Service Standards, queries received through MyEnquiries will be dealt with within 20 working days and 25 working days during peak periods.

2. Access to MyEnquiries via myAccount and ROS

2.1 myAccount
myAccount is a single access point, with a single login and password, for a number of Revenue’s online services including MyEnquiries. See paragraph 7 of this manual for more detailed information about MyEnquiries in myAccount.

You can register for this service on Register for myAccount.

2.2 ROS
Business customers who have a ROS digital certificate can access MyEnquiries using the ‘My Services’ tab under ‘Other Services’. See paragraph 6 of this manual for more detailed information about MyEnquiries in ROS.

Business customers who do not have an active ROS digital certificate can either register for myAccount or register for ROS. (Please note that if business customers register for ROS in order to access MyEnquiries they will receive their tax returns and other correspondence electronically rather than in paper format.)

Foreign-based agents who have a TAIN but have no Irish tax reference number can register for ROS using their TAIN (i.e. no tax reference number is required).
3. Customers unable to access MyEnquiries via myAccount or ROS

There are some customers who are unable to access MyEnquiries via myAccount or ROS. These include non-residents who are not registered for tax in Ireland and receivers acting on behalf of their clients but who do not have a TAIN. These customers should use the alternative communication methods including standard email, post, phone or fax. Revenue does not recommend sending personal or confidential information by unsecure (standard) email.

4. Alternatives to MyEnquiries

In addition to the cohort of customers mentioned in paragraph 3, there are some types of contacts that are not suitable for MyEnquiries, such as third-party data exchanges. At present, the only options for these customers to raise queries are by using standard email, post, phone or fax. Revenue does not recommend sending personal or confidential information by unsecure (standard) email.

Other options are

- Transport Layer Security (TLS), which is a Government-wide encryption system that is used to securely send emails. However, this is primarily for high-volume users and is not suitable for individuals or organisations that may contact Revenue a few times a year; and

- Revenue File Transfer System (RFTS), which is a secure facility used by Revenue to exchange files with third parties.

Revenue is exploring the possibility of providing an easy-to-use secure email facility to address many of these issues. Updates will be provided as other solutions are developed.

5. Secure eMail

Secure eMail was decommissioned in January 2018 as it was no longer supported. It can no longer be used to contact Revenue.

6.3 ROS Administrator – access and management functions

Access

The MyEnquiries icon is always visible to ROS administrators. For ‘sub-users’ the icon only displays if the user has permissions on an active MyEnquiries email address and have been set up for MyEnquiries by the ROS Administrator.

The ROS Administrator must set up an email address to be used with MyEnquiries. When an email address has been set up, clicking on the MyEnquiries button on the ‘My Services’ (individual) or ‘Agent Services’ (agent) tab redirects the Administrator to the MyEnquiries application.

If no email address has been set up, the Administrator receives the following message when they click on the ‘MyEnquiries’ icon. This message explains how to set up an email address for use with MyEnquiries.
Management and administration functions
Clicking the ‘Admin Services’ tab at the top of the screen brings the user to the Administration Services page from where they can access the MyEnquiries administration functions.

Figure 4 ‘Admin Services’ screen
The ROS Administrator can grant MyEnquiries access to sub-users by selecting the sub-user and clicking the ‘MyEnquiries Permissions’ button. Access to MyEnquiries is determined by email address and the tax registration number or TAIN associated with the ROS digital certificate. It is possible to set up more than one email address.

Sub-users who share the same (or group) email address for MyEnquiries can view the same enquiries and Revenue replies. It is the responsibility of the ROS Administrator to manage sub-user access to MyEnquiries through the management of email addresses. Sub-users with Administrator permissions also have access to the ‘Admin Services’ tab and the MyEnquiries management function buttons.

If no sub-users are set up, the screen looks like this:

Figure 5 ‘Admin Services’ screen (no sub-users)
Figure 6 ROS ‘Setting up an email address’ screen

ROS Administrators can set up one or more email address for use with MyEnquiries. Old email addresses can be deactivated but not deleted. The ROS Administrator can access all enquiries submitted under any of the email addresses set up in this way. To set up a sub-user for MyEnquiries, the email address of the sub-user must firstly be set up in ‘MyEnquiries Permissions’.

### 6.4 Sub-User access

ROS Administrators can give sub-users access to MyEnquiries by allowing them access to an email address that has permission to access MyEnquiries. Please note that access is based on email address. If two users are given permission to access MyEnquiries with the same email address, they can view each other’s queries, regardless of whether they are an Administrator or a sub-user.

In the ‘Admin Services’ tab, select the sub-user and click the “MyEnquiries Permissions” button.
