The information in this document is provided as a guide only and is not professional advice, including legal advice. It should not be assumed that the guidance is comprehensive or that it provides a definitive answer in every case.
1. Introduction
MyEnquiries is a structured online contact facility that enables customers to securely send and receive correspondence to and from Revenue. [However, MyEnquiries does not have email functionality, such as cc, out of office, read, read receipt option, etc.]

- PAYE customers can access MyEnquiries through myAccount.
- Business customers can access MyEnquiries through ROS.

1.1 Agent enquiries
Agents must access MyEnquiries via ROS if they wish to enquire about their clients’ tax affairs.

1.2 Revenue Technical Service (RTS)
Customers and agents must submit queries to RTS using MyEnquiries. Further information is contained in the RTS Guidelines.

1.3 Customer Service Standards
In accordance with Revenue’s published Customer Service Standards, queries received through MyEnquiries will be dealt with within 20 working days and 25 working days during peak periods. However, MyEnquiries contacts are prioritised by Revenue and the published standards are frequently exceeded so that the turnaround time for replies are, generally speaking, significantly faster.

2. Customers unable to access MyEnquiries via myAccount or ROS
There are some customers who are unable to access MyEnquiries via myAccount or ROS. These include
- non-residents who are not registered for tax in Ireland, and
- receivers acting on behalf of their clients but who do not have a TAIN.

These customers should use the alternative communication methods including post, phone or fax. Revenue does not recommend sending personal or confidential information by unsecure (standard) email.

3. Alternatives to MyEnquiries
In addition to the cohort of customers mentioned in paragraph 2, there are some types of contacts that are not suitable for MyEnquiries, such as third-party data exchanges. At present, the options for these customers to raise queries are by using standard email, post, phone or fax. Revenue does not recommend sending personal or confidential information by unsecure (standard) email.

Other options are
- Transport Layer Security (TLS), which is a Government-wide encryption system that is used to securely send emails. However, this is primarily for high-volume users and is not suitable for individuals or organisations that may contact Revenue a few times a year; and
- Revenue File Transfer System (RFTS), which is a secure facility used by Revenue to exchange files with third parties.
