

State Aid Transparency Requirements:

Publication of information regarding State Aid granted to individual taxpayers

Part 37-00-39

This document was last updated May 2018

This manual concerns the publication of taxpayer names on a central website.

1. State aid transparency requirements

The purpose of this manual is to notify taxpayers and tax practitioners of the implications of the State aid initiative of the European Commission, which requires Member States to publish details regarding certain State aid granted to beneficiaries after 1 July 2016. These transparency requirements form a key part of the State aid modernisation programme initiated by the European Commission in 2012 to reform State aid control.

Under the transparency requirements, when a Member State grants aid to a beneficiary and it is above a specified threshold, it will publish information regarding the aid granted on a [central website](#).

This information will include the identity of the beneficiary.

Aid granted under eight of Ireland's tax relief and rebate schemes are subject to these publication requirements.

For further information regarding the general operation of these schemes, please refer to the relevant legislation, Tax & Duty Manuals and Revenue's Notes for Guidance.

Publication under the State aid transparency requirements may apply to other schemes in the future, if their relevant EU Regulation, Guidance or approval so requires.

3. Publication deadlines

In general, the deadline for publication is 12 months from the date on which the relevant tax return is due. This is the rule for Capital Gains Tax Entrepreneur Relief, Capital Gains Tax Relief for Farm Restructuring, Stock Relief for young trained farmers and Stamp Duty Relief for Transfers of Land to young trained farmers.

The Diesel Rebate scheme will be considered on a calendar year basis, with 31 December of the following year being the publication deadline.

For the Employment and Investment Incentive Scheme and Relief for Investment in Films, the taxpayer is required to submit an application for tax relief to Revenue. Here, the date on which Revenue notifies the taxpayer that their application has been approved constitutes the granting act and the date of granting of the aid. The deadline for publication will be 12 months from that date.

For the Key Employee Engagement Programme scheme, the deadline for publication is 12 months from the date on which the employer is required to give notice to the Revenue Commissioners.

4. Calculation of benefit amount

Where the benefit is a tax relief or rebate, the amount of aid granted is the difference between the tax payable by a taxpayer claiming the tax relief and the tax that would have been payable had that person not claimed the relief.

In general, the determination of whether the relevant publication threshold is exceeded is an annual exercise.

However, where the European Regulation, Guidance or approval contemplates the benefit being granted over a longer period, tax benefits may be cumulated to determine whether the threshold has been exceeded. For the above schemes, this is the case only in relation to Stock Relief for young trained farmers, where the tax benefit in the first year of claim will be cumulated with any tax benefit arising in the three succeeding years. In that event, the relevant tax return triggering the publication obligation will be the one that pushes the cumulative benefit over the threshold of €60,000.

5. Statutory basis for publication

Section 851A of the Taxes Consolidation Act, 1997 provides that all taxpayer information held by Revenue is confidential and may only be disclosed in accordance with the provisions of the section, including as is otherwise provided for by any other statutory provision. The information regarding aid granted under the eight schemes referred to above will be published in accordance with the following provisions:

- Section 851A (8A) of the Taxes Consolidation Act, 1997, which applies to Relief for investment in Films. This is in accordance with the European Commission Communication on State aid for films and other audio-visual works, 2013/C 332/01;
- Section 128F (9) of the Taxes Consolidation Act, 1997, which applies to the Key Employee Engagement Programme. This is in accordance with the European Commission approval of the Scheme;
- Article 9 and Annex III of Commission Regulation (EU) No. 651/2014¹, which applies to Capital Gains Tax Entrepreneur relief, Diesel Rebate Scheme and the Employment and Investment Incentive Scheme; and
- Article 9 and Annex III of Commission Regulation (EU) No. 702/2014², which applies to Capital Gains Tax Relief for Farm Restructuring, Stock Relief for young trained farmers, and Stamp Duty relief for Transfers of Land to young trained farmers.

Note for information, that although Article 9 and Annex III of Commission Regulation (EU) No. 702/2014 also apply to the Succession Farm Partnership Scheme (Sec. 667D of the Taxes Consolidation Act, 1997), publication will not be required as no benefit under that scheme can exceed the threshold for publication of €60,000.
