Executive Summary

The purpose of this manual is to provide a detailed overview of the procedures and criteria for the registration of entities which have EU cross-border payments reporting (hereafter CESOP) obligations in Ireland. This document further outlines the Revenue technical specifications and procedures for the filing of CESOP reports in Ireland.

The appropriate registration processes to be used will vary depending on whether the PSP or filing entity is resident in Ireland or non-resident. Non-resident entities will be required to provide further details for verification as outlined in <u>section 2.2</u>.

All non-resident registrations are subject to a two-stage verification process which incorporates a manual review. To ensure timely completion of the registration process, it is it is recommended that all Non-Resident PSPs commence registration for CESOP in Ireland at least one month in advance of their first filing deadline.

Once registered, all filing for CESOP will be conducted through our Revenue Online Services (<u>ROS</u>).

All information for PSPs who have a CESOP reporting obligation in Ireland is available through our dedicated <u>webpage</u> on revenue.ie.

1 Registration Process for CESOP

There are three types of entities who may register to file for <u>CESOP</u> in Ireland:

- 1. Payment Service Providers (PSPs)
- 2. Agents (Tax Agents/Advisors) with a valid National Tax Advisor Identification Number (TAIN) authorised to file on behalf of a PSP; and
- 3. Other third-party reporting intermediaries including technical service providers who have been authorised to file on behalf of a PSP.

Each of these entities can either be residents of Ireland or non-resident. For the purpose of these guidelines, a resident entity is defined as one with a fixed place of business and a current tax registration or TAIN in Ireland. The registration process and criteria to be provided by each entity during registration will differ according to their residency.

- 1. **PSP Registration** The following registration channels must be used by PSPs according to their residency status:
 - a) **Resident/established in Ireland** A PSP with a CESOP reporting obligation may register to file on their own behalf. The PSP will use their existing Revenue Online Service (<u>ROS</u>) cert to register. This process is outlined in <u>section 2.1</u>.
 - b) Non-resident/non-established in Ireland Non-Irish Resident PSPs must register for CESOP using the Revenue Non-Resident Registration (NRR) app. Once they have been registered using the NRR app, they

will then be able to register for the Revenue Online Service (\underline{ROS}) to fulfil their CESOP filing obligations. This process is outlined in <u>section</u> 2.2.

- 2. **Agents/Advisors** The correct registration process to be used in order to file on behalf of a client will depend on the residency of the Agent/Advisor:
 - a) Agents/Advisors who are Residents of Ireland with a valid TAIN A tax Agents or Advisors with a valid <u>TAIN</u> may use their existing Agent Cert to register a new or existing Client to meet their CESOP reporting obligation, or to register on behalf of their Client through their existing ROS account.

This process will require upload of an Agent Link Notification or an Agent Consent Form (which must be completed and signed by both parties) through ROS at the time of registration. If either the Agent Link Notification or Agent Consent Form is not complete, the registration application cannot be completed. The customer will need to download either the Agent Link Notification or Agent Consent Form and complete offline. Once the Form has been completed offline, the customer may log into Revenue Online Service and proceed with registration.

- I. <u>Section 2.5</u> outlines the process for the Agent or Advisor to register an existing Client (PSP) for a CESOP Reporting Obligation.
- II. <u>Section 2.6</u> outlines the process for the Agent or Advisor to register a new Client (PSP) for a CESOP Reporting Obligation where the Client has an existing Revenue Tax Registration Number or Customer Number.
- b) Non-Resident Agents/Advisors who do not have a valid TAIN Such Agents or Advisors will not be able to use ROS to register as a filer acting on behalf of a Client for CESOP. For this process the PSP (Client) must register for CESOP first using either the <u>ROS</u> or Non-Resident Registration process above. Once registered, the PSP can grant a <u>subcert</u> to the Agent or Advisor through the <u>ROS</u> facility. This process is outlined in <u>section 2.7.</u>
- 3. Third-Party Reporting Intermediary Revenue has an established <u>ROS</u> functionality which enables PSPs to authorise a third-party intermediary to report for CESOP on their behalf. This intermediary may be, for example, a separate entity within the organisation which provides a centralised CESOP reporting function, or an outsourced service provider who is providing CESOP technical support to the PSP. This facility has been provided to support PSPs in meeting their filing obligations for CESOP, and is outlined in <u>section 2.8</u>.

The process for registering third-party reporting intermediaries for CESOP is similar to that of Section 2b above for "non-resident Agent". In this circumstance, the PSP (client with reporting obligation for CESOP in Ireland) must firstly register for CESOP using either the <u>ROS</u> facility or the Revenue Non-Resident Registration (<u>NRR</u>) Application. Once this is complete and access has been granted, the PSP will be able to authorise and issue a <u>subcert</u> to the reporting intermediary who may then use the ROS facility to file on behalf of the PSP.

All information relating to the authorising of <u>subcerts</u> through ROS is available on the Revenue website.

Any PSP with a CESOP reporting obligation is legally responsible for ensuring that their CESOP filing obligations have been met. Any PSP who has outsourced their reporting to a third-party entity, an intermediary or an Agent (including those who have been granted a ROS <u>subcert</u>) is responsible for ensuring that the reporting has been carried out correctly on their behalf. These verifications may include:

- ensuring that all submissions made on their behalf by the intermediary are accurate and complete.
- verifying that all submissions made on their behalf by the intermediary have passed validation at National and EU level.
- ensuring that the reporting intermediary has reported all corrections and resubmissions as requested by Revenue or the EU CESOP System.

In the event of any non-compliance, the PSP with the reporting obligation for CESOP is the responsible party and may be liable to penalties for non-compliance.

2 Payment Service Provider (PSP) Registration for CESOP

2.1 Registration of a Resident PSP for CESOP Reporting

This step can only be completed once the Customer is already registered for <u>ROS</u>. If the Customer is not registered for ROS, refer to <u>section 2.3</u>.

Otherwise, the following steps (2.1.1 to 2.1.10) set out the process for an Irishresident PSP to register a <u>CESOP</u> Reporting Obligation.

- 2.1.1 Log into ROS.
- 2.1.2 Under the "My Services" tab, select "Manage Reporting Obligations" from the list of services on the left-hand side of the screen.

NOTE: After completion of this process, the Customer should allow up to three working days for the CESOP reporting obligation to be registered. It will not be possible to upload a CESOP file for this Client in ROS until the obligation has been registered.

2.2 Registration of a Non-Resident Payment Service Provider (PSP) for CESOP Reporting

Non-Resident PSP registration is a three-step process:

- 1. The non-resident PSP must Register for their CESOP Reporting Obligation via the Revenue <u>NRR</u> app.
- 2. Once Step 1 is approved, the PSP will receive a system password in order to obtain their Tax Registration Number (TRN).
- 3. The PSP must then register for <u>ROS</u> using the TRN provided.

Each step must be completed before progressing to the next step.

2.2.1 In order to commence the registration process, non-resident Payment Service Providers who wish to register to meet their reporting obligations in Ireland should proceed to the Registration and Confirmation portal.

Figure 20: Tax Reference Number screen

2.3 Revenue Online Service (<u>ROS</u>) Registration

As highlighted, all filing for CESOP will be completed using the Revenue Online Service (<u>ROS</u>). Once the Non-Resident customer has obtained a Tax Registration Number (TRN) using the <u>NRR</u> application, the customer must then proceed to register this TRN for ROS in order to access the online filing service.

Details on how to register for <u>ROS</u> are available on the Revenue website. Contact details for the ROS support team are provided at Section 6 of this document.

2.4 Agents authorised to act on behalf of Clients for CESOP reporting.

This section covers the registration process for Agents or Advisors who are acting on behalf of a PSP for CESOP reporting purposes, specifically:

- 1. Tax <u>Agents</u> or Advisors who are Residents of Ireland with a valid National Tax Identification Number (TAIN):
 - I. <u>Section 2.5</u> outlines the process for this Agent or Advisor to register an existing client (PSP) for a CESOP Reporting Obligation.
 - II. <u>Section 2.6</u> outlines the process for this Agent or Advisor to register a new client (PSP) for a CESOP Reporting Obligation, where that client has an existing Tax Registration Number or Customer Number registered with Revenue.
- Non-Resident Tax Agents or Advisors who do not have a TAIN: Such Agents or Advisors will **not** be able to register directly to file on behalf of a client for CESOP. The process for registration and authorisation by a PSP to act on their behalf is outlined in <u>section 2.7</u>.
- 2.5 Tax Agent or Advisor with valid TAIN, registering an existing Client (PSP) for a CESOP Reporting Obligation

Section 2.5 outlines the <u>Agent</u> registration process for tax Agents and Advisors who are resident in Ireland and possess a valid TAIN. This Agent must use their existing

ROS Agent cert to register an existing Client with a reporting obligation for CESOP, or to register to act on behalf of their Client for CESOP through their <u>ROS</u> account.

This process will require upload of an <u>Agent link Notification</u> or an Agent Consent Form which must be completed and signed by both parties at the time of registration through ROS.

Please follow steps 2.5.1 to 2.5.16 to register an existing Client (PSP) for a CESOP Reporting Obligation.

- 2.5.1 Log into <u>ROS</u>.
- 2.5.2 Under the "TAIN Services" tab, locate the Customer using the "Client Search" or "Client List" options. The Agent will be redirected to the "Client Services" tab for the relevant Customer.

Figure 52: Agent CESOP registration confirmation screen

2.6.17 After completion of this process, the agent should allow up to 3 working days for the CESOP reporting obligation to be registered in ROS. It will not be possible to upload a CESOP file for this client until the obligation has been registered.

2.7 Agents or Advisors who do not have a TAIN Number

In these circumstances, the PSP must first register for CESOP first using either the <u>ROS</u> or Non-Resident Registration (NRR) process above.

Once registered, the PSP can then authorise and issue a <u>subcert</u> to the agent or advisor through the <u>ROS</u> facility. This process is outlined in <u>section 2.3.</u>

2.8 Third-Party Reporting Intermediary

The process for registration of a non-agent third-party reporting intermediary follows the same process as section 2.7 above.

The PSP must first register for CESOP using either the <u>ROS</u> or Non-Residents Registration (NRR) process above.

Once registered, the PSP can then authorise and issue a <u>subcert</u> to the third-party reporting intermediary through the <u>ROS</u> facility. This process is outlined in <u>section</u> 2.3.

3 Transaction Report-Filing Process for CESOP

There are three types of entities who may file <u>CESOP</u> reports:

- 1. Payment Service Providers (PSPs) using their ROS administrator cert. This filing process is outlined in <u>section 3.1</u>.
- Agents (Tax Agents/Advisors) with a valid National Tax Advisor Identification Number (<u>TAIN</u>) authorised to file on behalf of a PSP, using a ROS Agent cert. This filing process is outlined in <u>section 3.2</u>.
- 3. Other third-party reporting intermediaries including technical service providers who have been authorised to file on behalf of a PSP, using a ROS subcert. This filing process is outlined in <u>section 3.3</u>.

All CESOP files uploaded to ROS will go through a pre-validation, national validation and EU validation process. Further details on each step of the file validation process are contained in <u>Annex 1</u>.

After uploading, the filer will receive a notification to their ROS inbox containing the validation results. A sample message for each validation status outcome is contained in <u>Annex 2</u>.

Central Electronic System of Payment Information

Thank you.

Your CESOP Return has been submitted with the Message ID: 6b42ced8-2eb7-4265-bfc8c5e33b7df185

This message confirms successful file upload only. Revenue will now perform file validation. You will receive the outcome of your validation shortly into your ROS inbox. Please note that your reporting obligation is not finalised until your file has been fully validated and accepted by both Revenue and EU CESOP. See Notice No.: 55

You do not need to wait for the result to exit the CESOP and ROS application.

Figure 61: Confirmation screen

3.1.12 After submission, the file then goes through the <u>national</u> <u>validation</u> process. The PSP will receive a new notification in their Revenue Record with the result of the national validation process: accepted or rejected.

Figure 63: Failed Revenue Validation

3.1.14 If the file has passed national validation and has been successfully transmitted to the EU CESOP database, the notification message to the Revenue Record of the PSP in the ROS inbox will outline same.

Figure 64: Successful National Business Validation

- 3.1.15 Once the file has successfully passed the national validation process, it is then transmitted through to the EU CESOP database.
- 3.1.16 The file will then go through a further <u>EU validation</u> process before acceptance by CESOP. The file will either be successfully validated, partially rejected, or fully rejected by CESOP. The PSP will receive notification of the result into the Revenue Record in their ROS inbox.
- 3.1.17 If the file has been fully rejected, the PSP must amend the entire file offline and resubmit.
- 3.1.18 The list of errors in the file can be downloaded. A sample of the error messages which can be downloaded are contained in <u>Section 9</u>.
- 3.1.19 To correct the errors, the PSP must submit a new payment data message in which the reported errors are corrected in accordance with the XSD User Guide. Once the errors have been corrected offline, the filing process in ROS must be recommenced.
- 3.1.20 The resubmitted file should use a new Message ID which is not the same as the previous Message ID. If the old Message Ref ID is used again, this file will not pass national validation.

- 3.1.21 If the file has been partially rejected, the PSP will receive a message to their ROS inbox outlining the errors. The PSP must only correct the errors on the file and resubmit same.
- 3.1.22 A corrective Payment Data message must be submitted through ROS in which the payee(s) and associated transactions in which errors have been reported are corrected and re-transmitted, considering the rules defined in XSD.
- 3.1.23 The corrective payment message should use a new Message ID. The message should also contain a correlation to the file being corrected by inserting the original Message Ref ID of the file which is to be corrected in the CorrMessageRefID Field.

If the correlated CorrMessageReFID field is not completed, the corrected file will not pass national validation.

Figure 66:Partially Rejected by European Commission

3.1.24 If the file has been successfully validated, the PSP will receive a notification to their ROS inbox.

4 Submitting a Nil Return

If a filer does not have any relevant data/transactions to report in the reporting quarter, they may submit a Nil Return. In doing so they are confirming that they have met their reporting requirements for the period and do not have relevant transactions to report. A Nil Return can only be submitted for the current reporting quarter or any previous reporting quarter.

A filer may submit a Nil Return using either of the following options:

- 1. Using the 'Submit Nil Return' facility as outlined in steps 4.1.1 to 4.1.5
- 2. Uploading a Nil XML file as outlined in steps 4.2.1 to 4.2.11.

4.1 Submit Nil Return Facility

4.1.1 In the "File a Return" screen in ROS, select the "Reporting Obligations" option. Choose "CESOP" in the dropdown menus. Click Submit.

File a Return			
-	to complete now. You will be	given the option of	filing the return with o
Tax Registrations	CESOP Return	Ŧ	Submit

4.1.2 Select "Submit Nil Return" to the right side of the CESOP "File Upload Facility" screen.

Figure 100: Submit Nil Return

Select the reporting period that the nil return relates to and click 4.1.3 "Submit".

Note: A nil notification will only be accepted for a current or previous quarter.

4.1.4 The following confirmation screen appears.

Figure 102: Nil Return Confirmation

4.1.5 Please note that a nil return will not be saved if payment data has previously been submitted for the same reporting quarter. The following message will appear:

Revenue	Central Electronic System of Payment Information

Nil return not saved

You cannot submit a CESOP Nil return for Q3 2024 because payment data for this period or nil return has been submitted previously. Please contact the CESOP Helpdesk if you require more information.

Back	

Figure 103: "Nil Return Not Saved" notification.

NOTE: If a filer wishes to submit data after they have submitted a nil return, it is possible for them to submit a data file (CESOP100).

Any data file submitted after a nil return will overwrite the nil return submission.

If you experience difficulties, you may contact the **CESOP Helpdesk**.

4.2 Upload Nil XML File

The nil XML process follows the same submission steps as outlined in <u>Section 3.1</u> for submitting a CESOP return i.e. <u>pre-validation</u>, sign and submit, and <u>national</u> <u>validation</u>.

These rules include a check to verify that the date in the XML is not in the future, and that a previous nil return has not already been submitted for the same reporting period.

The filer will receive a ROS notice with the result of the national validation in their ROS inbox.

Regardless of the submission being accepted or rejected at national validation, the filer will not receive a validation message from the EU centralised CESOP system.

4.2.1 In the "File a Return" screen in ROS, select the "Reporting Obligations" option. Choose "CESOP" in the dropdown menus. Click Submit.

4.2.2 Select "Click to browse for a file".

🗙 Step 1 - Failed Revenue Validation

Your CESOP file with Message Reference ID 00001110-1180-4000-8000-000000232557 has not passed Revenue validation and will not be sent to CESOP European Commission. The errors may be viewed in the status file.

To obtain the status file with the errors, please click the Download button below. Please correct the errors and re-submit your CESOP file in accordance with the current version of the XSD user guide.

Figure 113: Failed Revenue Validation

5 Errors when inputting alpha numeric characters, diacritics or special characters whilst registering for CESOP.

Should the PSP name or address contain non-Latin alphabetic characters (i.e., Cyrillic, Arabic, Hangul, Hanzi, etc.), diacritics, accents, or special characters, this will prevent registration via our Non-Resident Registration App or our Revenue Online Service Facility.

Inputting of such characters will generate an error message and will prevent the registration application from proceeding. In such circumstances, please contact the CESOP Registrations Team at <u>CESOPRegistration@revenue.ie</u>

6 CESOP and ROS Contact Details

6.1 Revenue CESOP and ROS Team Contact Details

For queries relating to registering a <u>CESOP</u> Reporting Obligation, please contact our dedicated Revenue CESOP Team through the following channels:

To contact Via MyEnquiries,

- select category "other than the above"
- select subcategory "Central Electronic System of Payment (CESOP) query".

The CESOP Team can also be contacted by email:

- For CESOP general and filing queries please contact CESOPEnquiries@revenue.ie
- For CESOP Registration Queries, please contact CESOPRegistration@revenue.ie

For queries relating to ROS please contact the Revenue <u>ROS</u> Technical Helpdesk:

- Email at roshelp@revenue.ie
- Telephone at 01 738 3699, International customers may contact via the email address above or call +353 1 738 3699

All information relating to CESOP is updated on an ongoing basis and available at our dedicated <u>webpage</u> at revenue.ie.

7 CESOP – Summary Guides and Further Useful Information for CESOP Filing in Ireland

7.1 General Overview of File Upload Process for CESOP filing in Ireland

Section 7.1 provides a summary of the file upload process for <u>CESOP</u> using the Revenue Online Service (<u>ROS</u>). This summary should be read in conjunction with the relevant detailed filing process contained in <u>Section 3</u>.

- 7.1.1 The PSP must log into ROS and go to the "My Services" tab and select "CESOP" from the "File a Return Complete Online Form" option.
- 7.1.2 The PSP can upload a maximum file size of 1GB uncompressed. Only a manual upload of individual XML files up to 1GB through ROS is currently provided for the go live of 1 January 2024. A batch upload will not be possible.
- 7.1.3 The file will go through a pre-validation process. If the file has successfully passed pre validation and the PSP has proceeded to upload the file, it then goes through the business validation process. All PSPs must retain a record of files submitted to Revenue to facilitate future amendment/corrections required by the PSPs.
- 7.1.4 The PSP will receive a notification with the result of the Revenue validation process: accepted or rejected.

If the file is rejected, the notification will contain a validation file which the PSP can download to review the errors.

- 7.1.5 Once a file has been successfully uploaded to ROS.ie and has successfully passed the Business Validation Process, Revenue then transmits this file to the centralised EU Database known as "CESOP."
- 7.1.6 After the validation process has been completed, the file will either be successfully uploaded to CESOP, partially rejected, or fully rejected by CESOP. The PSP will receive notification of the result into their ROS inbox.
- 7.1.7 If the file has been fully rejected, the PSP must amend the entire file offline and resubmit. If the file is partially rejected, the PSP must only correct the errors on the file and resubmit same. All resubmissions are through the ROS facility.
- 7.1.8 If the file has successfully been uploaded to CESOP, the message to the PSPs Inbox will outline same.

7.2 Deviations in Ireland from the EU-published XSD Schema:

7.2.1 File Submission Type:

We do not require a meta file. Only the .XML file is required.

7.2.2 Nil Returns:

Should a PSP not have any payments within the scope of reporting for a reporting period, then in order to minimise the potential for a subsequent filing compliance check by Revenue, the filer may submit a "Nil Return".

To do this, the filer must log into <u>ROS</u> and go to the "My services" tab and select "CESOP" from the "File a Return – Complete Online Form" option. Once they are on the CESOP submission page, the filer can click on either "Submit a Nil Return" or upload a Nil XML file (CESOP102). This will inform Revenue that the filer has no reportable information for the current reporting period.

Please note that a filer will only receive a national validation message for submission of a CESOP102 message. If using the "Submit a Nil Return" function the PSP will receive a notification to their ROS inbox to confirm that Revenue has received this submission.

If the filer subsequently wishes to confirm that they do have information to submit for a period which was previously reported as "Nil" they should submit a message of type CESOP100. This will automatically overwrite the previous Nil Return submitted.

Please refer to <u>Section 4</u> which outlines how you may notify Revenue that you have nil activity to report for a particular quarter.

7.2.3 Rules not validated by Revenue:

Rules 20020 and 45050 are not validated by Revenue. Therefore, if a file breaks these rules, it will pass Revenue business validation, but it will fail EU Commission validation.

7.2.4 Additional Rule validated by Revenue:

Rule 99999 – Original message not processed yet by CESOP System: The CorrMessageRefId refers to a message that has not been processed by the EU CESOP System. The filer must wait until the original message is processed to submit a correction. Please also note that the reporting period cannot be in the future i.e., later than the current date.

7.2.5 Pre-Validation of a File:

The pre-validation will verify some technical aspects of the file, namely:

- File size: must be under 1GB.
- Type of file: only XML type files are accepted.
- Blank file not allowed.
- Any schema errors such as missing tags, missing mandatory fields, fields in wrong format...
- MessageRefld uniqueness (error code 10010).

If the file fails this validation, the errors will be shown, and it will not be possible to submit the file. The user should fix the file and try to submit again.

Note: a data or nil XML file with a future reporting period will pass pre-validation but will fail at national validation.

7.2.6 Browser and systematic compatibility:

Tests have been performed on Chrome, Edge and Firefox browsers in Windows 10 and we can confirm normal/expected behaviour on these browsers.

Please note that file submission should be completed using Microsoft operating systems as compatibility issues may arise using MAC.

7.2.7 Messaging processes and timelines:

The expected time to receive the notification with the result of the revenue business validation is 12 minutes or less. The result of the CESOP validation by the EU Commission is dependent on their systems. We cannot guarantee any timeline for the CESOP/EU notification.

7.2.8 Incorrect behaviour when using 1 or 0 as Boolean:

An issue was found on the EU Validation Module when 1 is used as a Boolean. Example: <cesop:ReportedTransaction IsRefund="1">

The issue has been communicated to the CESOP Commission and an improvement will be made.

In the meantime, we recommend using "True" instead of 1 to avoid any incorrect behaviour. For example: <cesop:ReportedTransaction IsRefund="True">

7.2.9 Navigating the CESOP pages:

The back button of your browser should not be used when navigating the CESOP submission process.

7.2.10 How to Raise Technical Queries or Issues:

Queries can be raised by contacting <u>CESOPEnquiries@revenue.ie</u> directly or through <u>MyEnquiries</u> on Revenue Online Service (<u>ROS</u>). If using <u>MyEnquiries</u> you must select the Category CESOP Query to ensure that your query is properly assigned.

7.2.11 Technical Documents and Schemas:

The European Commission has a dedicated <u>webpage</u> which outlines the key documents for CESOP reporting and filing.

The XML <u>schema</u> is defined by the EU Commission. However, it should be noted that each Member State may adopt and implement new versions at different timelines.

Revenue has a dedicated webpage which outlines the current versions of XML schema that we accept. This page also confirms the version of the validation module that Revenue currently aligns with. All files received must be compatible with the current versions as accepted by Revenue.

If your file is not compatible with the current versions as accepted by Revenue, this will result in your file not being accepted. You will receive error notification. Revenue does not currently provide for backwards compatibility of previous CESOP versioning.

It should be noted that a payment service provider may have reporting obligations in multiple Member States. If so, a PSP must ensure that they confirm the current versions accepted in each Member State in which they are obliged to report for CESOP.

Registration and filing procedures vary in each jurisdiction. Should you have a reporting obligation in multiple jurisdictions, you must confirm the individual filing specifications and any additional reporting requirements for each Member State. The European Commission has provided a link to the <u>National</u> <u>Portals</u> for CESOP reporting in each Member State.

8 Annex 1 – File Validation

8.1 File Validation Process

There will be a three-stage validation process for PSPs with a reporting obligation in Ireland:

- Pre-validation.
- National Validation.
- EU CESOP Validation.

Figure 114: File Validation Process in IE

8.1.1 Pre-Validation:

All files will be subject to a pre-validation process on initial file upload. Only files that successfully pass pre-validation can proceed to the "sign and submit" stage in ROS.

The pre-validation process will verify some high-level technical aspects of the file:

- File size: must be under 1GB.
- Type of file: only XML type files are accepted.
- Blank file not allowed.
- Header mandatory elements: TransmittingCountry, MessageType, MessageRefId, ReportingQuarter, PSPId and ReportingYear.

- Missing tags.
- MessageRefId uniqueness (error code 10010).

NB: There is also an XML schema validation at this stage. The XML schema validation is not a custom implementation; therefore Revenue cannot provide a list of all possible outcomes.

If the XML is not according to the XSD/schema , the PSP may receive an error at this stage. This error would indicate there is something fundamentally wrong with the document as it is not in line with XML Schema. This is not a matter within control of Revenue or the EU Commission. The file will not be accepted by Revenue and the PSP will be required to evaluate the file, fix any issues identified offline and resubmit once rectified.

8.1.2 National Validation:

When a file has passed pre-validation and is submitted by a filer, the National Business Validation will verify whether a file complies with both business and technical rules.

The business validation checks whether the content of the message is correct and complies with all applicable business rules. The technical validation checks if the file is technically correct. Both the business and technical rules are validated by both Revenue and subsequently the EU CESOP Systems.

Due to the file size, this validation might take some time, so is performed in the background. The PSP filer does not need to wait for the result to exit the CESOP and ROS application. Once the validation has concluded, the PSP filer will receive a ROS notification and/or an email with the result: accepted or rejected.

All National Validation and EU Validation errors will be confirmed to the PSP through a message that will be triggered to the ROS Inbox (Revenue Record) of the PSP specifying the MessageRefID of the error file. The list of errors will be outlined and must be reviewed in line with the error codes associated with the CESOP XSD Schema Document as issued by the EU Commission.

If the file is rejected, the filer will be required to review the file and fix the errors offline, and must submit a corrected file. In this case, the message type should be the same as the first message, i.e., if the file ID CESOP100 now contains new data, the second message should also be CESOP100.

8.1.3 EU Validation

All files that successfully pass Pre-validation and National Validation will be transmitted to the EU CESOP Database. The files will be validated further at EU CESOP Level. The EU Validation process will confirm the status of the file in line with the three potential status outcomes of EU CESOP Validation:

- Fully Accepted File Status
- Fully Rejected File Status
- Partially Rejected File Status

The PSP will receive the EU status update of the file to their ROS Inbox (Revenue Record). This message will identify the list of errors. It should be noted that a conclusive list of errors cannot be provided for files which have significant volumes of errors in line with Error Code Type 50080.

The PSPs must resumbit or correct files that are fully rejected or partially rejected at EU CESOP Level in line with the EU Published XSD Schema document.

All resubissions or corrections are subject to pre validation and national validation on upload of new (CESOP 100) or corrected file (CESOP101)

8.1.4 Fully Accepted File Status:

Fully accepted files will receive a message to confirm same. This notification confirms that the file has been fully accepted and no further action is required. If the PSP only has one file to upload and this has been fully accepted, this notice confirms that they have no further actions outstanding for CESOP reporting for the quarter in question.

If the PSP is required to submit multiple files due to the size of data they are obliged to report, they should note that all files submitted must be fully accepted at EU CESOP level before they can be satisfied that they have met their reporting obligation for the quarter in question.

8.1.5 Fully Rejected File Status:

If the file is fully rejected at EU CESOP validation a message will route to the ROS inbox to notify the PSP of same. The PSP can view a list of errors up to a maximum of 5k lines. All errors should be reviewed in line with the XSD Schema Document. Fully Rejected files should be worked offline and resubmitted.

8.1.6 Partially Rejected File Status:

If the file is partially rejected, a message will issue to the PSP ROS inbox confirming the status that the file is partially rejected only. The message will outline the corrections that are required and will list the line items and associated error codes. The errors must be corrected offline, and a correction message must be resubmitted with the required corrected data. The XSD schema document outlines the process for correction messages for partially rejected files.

9 Annex 2 – Sample Error Code Messages

All status messages for validation will be issued to the Revenue Record in the ROS Inbox. The status message can be viewed by selecting the notice number.

If the file has not passed validation either at national validation or at EU validation, the message will provide an option to download the error lists. Once downloaded, the error list will be in XML format.

Sample error messages for fully rejected files at national level and fully and partially rejected files at EU level are provided for in this section.

9.1 National Validation Rejection: Sample Error Message

<cesop:MessageSpec> <cesop:TransmittingCountry>IE</cesop:TransmittingCountry <cesop:MessageType>VLD</cesop:MessageType <cesop:MessageTypeIndic>CESOP100</cesop:MessageTypeIndic> <cesop:MessageRefid05184F82-700F-4304-8C49-FBF500283091</cesop:MessageRefid> <cesop:CorrMessageRef>1d642ced8-2eb7-4265-bfcec5e33b7df174</cesop:CorrMessageRef> <cesop:ReportingPeriod <cesop:Quarter>4</cesop:Quarter> <cesop:Year>2023</cesop:Year> </cesop:ReportingPeriod> <cesop:Timestamp>2024-03-05T11:50:00.4592</cesop:Timestamp> </cesop:MessageSpec> <cesop:ValidationResult> <cesop:ValidationResult>REJECTED</cesop:ValidationResult> <cesop:ValidationErrors> <cesop:ErrorCode>45000</cesop:ErrorCode> <cesop:ErrorCounter>1</cesop:ErrorCounter> <cesop:ErrorShortDesc> The "DateTime" element refers to a wrong value. </cesop:ErrorShortDesc> <cesop:ErrorDescription>The "DateTime" element in the "ReportedTransaction" element must refer to a date within the period and year declared</cesop:ErrorDescription> <cesop:TransactionIdentifier> IE-01-0101</cesop:TransactionIdentifier) <cesop:Dockefidelafb602-951-431-899-bc3a9eeebe</cesop:Dockef1d> </cesop:ValidationErrors> </cesop:ValidationResult> </cesep:CESOP>
