### 1 OVERVIEW

Since 23 November 2012, financial statements in iXBRL format have been accepted in ROS. All Income Tax and Corporation Tax payers now have the option of uploading their financial statements.

For Corporation Tax payers, the obligation to file iXBRL financial statements is being conducted in phases; it became mandatory for taxpayers dealt with in Revenue's Large Case Division from October 2013, and for companies obliged by the Phase II deferral criteria from October 2014. Further details can be found in our iXBRL FAQ.

The purpose of this document is to provide assistance and guidance to Users (Revenue Customers and/or their Agents) and Software Developers in relation to Error Messages generated in the process of uploading financial statements in iXBRL format.

Where possible an Irish error message is returned to Revenue Customers and/or their Agents who opt to conduct business through Irish. However a number of the technical error messages are dynamically generated by a 3rd party product and it is not possible to intercept and translate the content of these messages.

If you have any queries in relation to this document, please contact us at iXBRL@Revenue.ie.

#### 1.1 What's New?

#### Validation Phases - Business

Table 2.5 updated to include details of the Error Message that will be received by those filers who attempt to upload iXBRL financial statements that have been tagged with the IE GAAP or IE IFRS taxonomies in respect of an accounting period that ends on or after 1 January 2015. See rule #20 for further information.

# 2 VALIDATION PROCESSING

# 2.1 Validation Pipeline

Submitted inline XBRL documents will be subjected to a series of validation phases. Figure 2.1 depicts the validation pipeline which will be applied to incoming iXBRL documents. <u>Table 2.4</u> and <u>Table 2.5</u> provide further details for each of the individual phases.

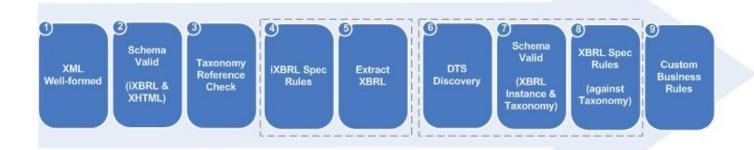

Figure 2.1 - Validation Pipeline

If a document fails validation at any phase in the pipeline, the corresponding errors will be returned. Failure at any of the phases up to and including 'DTS Discovery' will prevent validation from continuing on to the next phase. If the validation fails, the document will not be stored. The error message generated may be reviewed through the iXBRL Error Screen. The validation result will also be available through a new inbox Financial Statements Validation Results Document sent to the Customer's ROS Inbox.

#### 2.2 iXBRL Error Screen

The iXBRL Error Screen will indicate to users any errors encountered while validating their submitted iXBRL document(s) in an error table.

Individual errors will be listed detailing the error type, description and more information. The possible error types are set out in <u>Table 2.4</u> and <u>Table 2.5</u> below.

Revenue 1 FUIN ACLIX & LHYL LTD EXIT REVENUE RECORD ADMIN SERVICES MY SERVICES WORK IN PROGRESS **Financial Statements Validation Errors** The following errors were found when processing your Financial Statements. #### 2.3 iXBRL Financial Statements Validation Results Document

A new inbox document will be added to Revenue Record when a validation result has been received for a Financial Statements submission. This document will be sent whether the document passes or fails validation.

This PDF document will include the validation result and any validation errors for the submitted Financial Statements. It will also indicate the customer's name, registration, period, submission date, and notice number.

Individual errors will be listed detailing the error type and description. The possible error codes are set out in <u>Table 2.4</u> and <u>Table 2.5</u> below.

# 2.4 Validation Phases -Technical

**Table 2.4 Technical Validation Messages** 

Phase	Phase/Area	Sample Error	Description/Notes
1	XML Well-formed	Type: Technical: Invalid File Message: The submitted document contains malformed XML.  As Gaeilge  Type: Teicniúil: Comhad Neamhbhailí Message: Tá XML míchumtha sa doiciméad a cuireadh isteach.	The document received by Revenue is checked to ensure that it consists of XML and that it is well-formed.  If this error is returned in the course of submitting iXBRL documents, filers should initially check that they have selected the appropriate iXBRL-formatted document to upload. If they are satisfied that they have attempted to upload the correct file, they should take note of the error and contact their tagging software provider or tagging service in relation to the problem.

Phase	Phase/Area	Sample Error	Description/Notes
Phase 2	Phase/Area Schema Validation (XBRL & XHTML)	Type: Technical: Schema Validation Message: cvc-complex-type.2.4.a: Invalid content was found starting with element 'ix:nonNumericx'. One of '{"http://www.xbrl.org/2008/inlineXBRL":footnote, "http://www.xbrl.org/2008/inlineXBRL":fraction, "http://www.xbrl.org/2008/inlineXBRL":nonFraction, "http://www.xbrl.org/2008/inlineXBRL":numerator, "http://www.xbrl.org/2008/inlineXBRL":nonNumeric, "http://www.xbrl.org/2008/inlineXBRL":nonNumeric, "http://www.xbrl.org/2008/inlineXBRL":tuple, "http://www.xbrl.org/2008/inlineXBRL":header, "http://www.xbrl.org/2008/inlineXBRL":exclude}' is expected.  As Gaeilge Type: Teicniúil: Bailíochtú Scéimre Message: cvc-complex-type.2.4.a: Invalid content was found starting with element 'ix:nonNumericx'. One of '{"http://www.xbrl.org/2008/inlineXBRL":fraction, "http://www.xbrl.org/2008/inlineXBRL":fraction, "ht	The document received by Revenue is validated against the iXBRL Schema. The iXBRL Schema also includes XHTML schema validation. Multiple errors may be returned.  If this error is returned in the course of submitting iXBRL documents, filers should initially check that they have selected the appropriate iXBRL-formatted document to upload. If they are satisfied that they have attempted to upload the correct file, they should take note of the error and contact their tagging software provider or tagging service in relation to the problem.
		Message: cvc-complex-type.2.4.a: Invalid content was found starting with element 'ix:nonNumericx'. One of '{"http://www.xbrl.org/2008/inlineXBRL":footnote,	

Phase	Phase/Area	Sample Error	Description/Notes
3	Taxonomy Reference Check	Type: Technical: Taxonomy Reference Message: The referenced schema does not map to a taxonomy supported by Revenue (schemaRef).	A check is performed to ensure the "schemaRef" element of the document received by Revenue refers to a Taxonomy entry point supported by Revenue. See Section 2.1 of <u>'Electronic Filing of Financial Statements (iXBRL) - Technical Note'</u> .
		Type: Teicniúil: Tagairt do Thacsanomaíocht Message: Ní mhapálann an scéimre dá dtagraítear {0} chuig Tacsanomaíocht lena dtacaíonn na Coimisinéirí Ioncaim.  Type: Technical: iXBRL Validation	If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.
4	iXBRL Specification Rules	Type: Technical: iXBRL Validation Message: For each token in {footnote references} there MUST exist an ix:footnote element in the inline XBRL Document Set with a {footnote id} property which has a matching value.  As Gaeilge  Type: Teicniúil: Bailíochtú iXBRL Message: For each token in {footnote references} there MUST exist an ix:footnote element in the inline XBRL Document Set with a {footnote id} property which has a matching value.	The document received by Revenue is validated against inline XBRL specification rules. These take the form of 'Schematron' rules. Multiple errors may be returned.  If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.

Phase	Phase/Area	Sample Error	Description/Notes
5	Extract XBRL	N/A	The XBRL content is extracted from the inline XBRL document.
6	DTS Discovery	Type: Technical: XBRL Validation Message: XBRL Load Error: XBRL element http://www.xbrl.org/uk/gaap/core/2009-09- 01#ControllingPartyUltimateControllingPartyx with the reported value (true), context (FY2009) is presumed to be a taxonomy element named http://www.xbrl.org/uk/gaap/core/2009-09- 01#ControllingPartyUltimateControllingPartyx but it was not found in the loaded taxonomies.  As Gaeilge  Type: Teicniúil: Bailíochtú XBRL Message: XBRL Load Error: XBRL element http://www.xbrl.org/uk/gaap/core/2009-09- 01#ControllingPartyUltimateControllingPartyx with the reported value (true), context (FY2009) is presumed to be a taxonomy element named http://www.xbrl.org/uk/gaap/core/2009-09- 01#ControllingPartyUltimateControllingPartyx but it was not found in the loaded taxonomies.	The XBRL engine attempts to load the Discoverable Taxonomy Set for each of the Taxonomies referenced in the instance document. Each concept is checked for existence in the taxonomy.  If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.

Phase	Phase/Area	Sample Error	Description/Notes

Phase	Phase/Area	Sample Error	Description/Notes
8	XBRL 2.1 Specification including verification against Taxonomy.	Type: Technical: XBRL Validation Message: Error in "http://www.xbrl.org/uk/gaap/core/2009-09- 01#ControllingPartyUltimateControllingParty (true)." For an item element with periodType="duration", the period MUST contain a "forever" element or a set of "startDate" and "endDate" elements. Reference: For more information, please see section 4.7.2 of the XBRL 2.1 recommendation. URI: http://www.xbrl.org/Specification/XBRL-RECOMMENDATION-2003-12-31+Corrected-Errata-2008-07-02.htm#_4.7.2  As Gaeilge  Type: Teicniúil: Bailíochtú XBRL Message: Error in "http://www.xbrl.org/uk/gaap/core/2009-09-01#ControllingPartyUltimateControllingParty (true)." For an item element with periodType="duration", the period MUST contain a "forever" element or a set of "startDate" and "endDate" elements. Reference: For more information, please see section 4.7.2 of the XBRL 2.1 recommendation. URI: http://www.xbrl.org/Specification/XBRL-RECOMMENDATION-2003-12-31+Corrected-Errata-2008-07-02.htm#_4.7.2	The extracted XBRL is checked for conformance against rules laid out in the XBRL 2.1 specification, including validation against the referenced taxonomy. This phase also includes dimensional validation. Multiple errors may be returned.  For example, any incorrectly specified dimensional combination will pass schema validation but fail XBRL validation. Incorrect contexts - instance instead of duration - should also cause similar behaviour.  If this error is returned in the course of submitting iXBRL documents, filers should take note of the error and contact their tagging software provider or tagging service in relation to the problem.

Phase	Phase/Area	Sample Error	Description/Notes
9	Revenue Custom	See Table 2.5	Revenue Business Validation. See Table 2.5.
	Business Rules		

# 2.5 Validation Phases - Business

Revenue Business Rules will be applied to documents as part of the validation pipeline. Table 2.5 details the Revenue Business Validation that will be applied. The rules apply to Financial Statements for Corporation Tax (CT) and Income Tax (IT) and will be applied to statements conforming to GAAP and IFRS (see <u>Electronic Filing of Financial Statements (iXBRL) – Technical Note</u> for taxonomies accepted).

Due to licensing restrictions on 3<sup>rd</sup> party products, the Revenue Business Rules, which are executed using XBRL Formula language, **will not** take place for test documents submitted via Revenue's File Format Test Facility.

**Table 2.5 Business Validation Messages** 

# Concept(s) Affected	Error Message	Rule/Notes
1 IE GAAP & IE IFRS taxonomies - uk-bus: EntityCurrentLegalOrRegisteredName  FRS 101/102 & EU IFRS taxonomies - bus: EntityCurrentLegalOrRegisteredName	Type: Business: Mandatory Fact(s) Message: Company Name (uk-bus: EntityCurrentLegalOrRegisteredName) is missing. 20	IE GAAP and IE IFRS taxonomies	Type: Business  Message: Business: Accounting Period:Period End Date (ukbus:EndDateForPeriodCoveredByReport) is {\$EndDateOfReport}. As set out in eBriefs 80/18 and 154/18, the IE GAAP and IE IFRS taxonomies may only be used to tag Financial Statements with a period end date of 31/12/2014 or earlier from 1 August 2018. You may need to update your software, please contact your provider.  As Gaeilge:  Type: Gnó: Tréimhse Chuntasaíochta:  Message: Is é {\$EndDateOfReport} Dáta Deiridh na Tréimhse (ukbus:EndDateForPeriodCoveredByReport). Mar atá leagtha amach in eBrief 80/18 agus 154/18, ní fhéadtar, ó 1 Lúnasa 2018, na tacsanomaíochtaí IE GAAP agus IE IFRS a úsáid ach amháin chun Ráitis Airgeadais a ullmhú do thréimhsí dar críoch 31 Nollaig 2014 nó roimhe sin. Féadfaidh sé gur gá duit do bhogearra a nuashonrú – déan teagmháil le do sholáthraí."	As set out in Part 1.6.1 of the iXBRL Tax and Duty Manual, use of the IE GAAP and IE IFRS taxonomies is now restricted to accounting periods that ended on or before 31 December 2014.  If your software is not set up to work with the FRS/IFRS taxonomies, then you may need to request an update for your software from your software provider.

# 3 OTHER TECHNICAL NOTES

Revenue have also published a number of other Technical Notes which may be accessed via Revenue's iXBRL webpage. These include:

<u>Electronic Filing of Financial Statements (iXBRL) – Technical Note.</u> This Technical Note, aimed at software developers and those who are using conversion tools to prepare accounts in iXBRL.format, provides general technical information including what taxonomies are acceptable to Revenue, what entity identifier schemes will be accepted by Revenue and what validations rules will apply to financial statements submitted to Revenue in iXBRL format.

<u>Electronic Filing of Financial Statements (iXBRL) – Public Interface Test (PIT).</u> The purpose of this document is to outline the Revenue Online Service Public Interface Test (PIT) options available to Software Vendors who provide iXBRL solutions. The document also outlines how this service may be accessed.

<u>Electronic Filing of Financial Statements (iXBRL) - Style Guide</u>. The purpose of this document is to outline the rules and provide guidance on the preparation of Inline XBRL documents to software developers and those who are using conversion tools to prepare accounts in iXBRL for subsequent submission to Revenue.
