

Hi,

Things I would like to see would be

1. When paying a tax deductible bill, like a GP, that I can provide my pps number, and the service provider is obliged to communicate to revenue, and my tax is updated automatically.
2. That I can choose to pay my tax ahead of schedule, eg. pay a little extra Jan-Nov and pay nothing in December.
3. That I can choose to pay other taxes other than income tax via PAYE system. Eg. TV license, car tax etc. That I could log into the system, tick the TV license box and ~€14 is deducted each month, same with car.

cheers,

Paul
