Local Property Tax (LPT)

The Finance (Local Property Tax) (Amendment) Act 2025 introduced a new structure and rates for LPT from 2026 onwards. LPT for the years 2026 to 2030 will be based on 1 November 2025 self-assessed values. Residential properties are valued for LPT purposes, by their owners under self-assessment, into one of 20 valuation bands.

Residential property owners were obliged to file a Local Property Tax (LPT) return for the period 2026 to 2030 by 12 November 2025.

Throughout this report, newly liable properties refer to properties that have been completed or became suitable for use as a dwelling between 2 November 2024 and 1 November 2025 and are submitting their first LPT return for LPT year 2026.

Returns and/or payments are filed and up to date in respect of 2,054,770 Properties

86% Return Compliance

Filing arrangements have been finalised in respect of 206,408 Local Authority and Approved Housing Body properties and are included in the figure shown above. *

96.74% Payment Compliance

Payment arrangements are in place for 193,130 properties where returns are not yet filed and are included in the figure shown above.

*This grouping of Local Authorities (LA) and Approved Housing Bodies (AHB) refers to the 31 LAs and 7 of the largest AHBs. This grouping currently meets its LPT obligations through an alternative filing system. Please note this grouping does not contain all AHBs in the State. Analysis of the AHB cohort is ongoing, and an expanded breakdown for statistical purposes is planned for future reports.

LPT Table 1: Revenue's Engagement with Property Owners and Collections[1] for 2026

All Taxpayers[2]	Newly Liable for 2026
1,470,125 owners in respect of 2,054,766 properties to date	13,180 owners in respect of 29,499 properties to date
1,294,762 single property owners and 175,365 multi property owners	11,370 single property owners and 1,810 multi property owners
2,028,010 LPT liable (neither exempt nor deferred) properties with returns filed and/or payments made.	29,323 LPT liable (neither exempt nor deferred) properties with returns filed and/or payments made.
€574m to date collected from all sources for the LPT year 2026.	€8.1m to date collected for the LPT year 2026.
Exemptions claimed for 20,107 properties.* Deferrals claimed for 6,649 properties.**	Exemptions claimed for 172 properties. Deferrals claimed for <10 properties.

*Exemptions for Local Authority owners are currently excluded but will be added in a future statistical report.

**Deferrals exclude cases where the liability balance has been paid in full.

[1] The monetary figures in Table 1 refer to tax collected while the monetary figures in Table 2 refer to the tax liability. The collection figure at a point in time is dependent on the payment method chosen e.g., annual direct debit, Deduction at Source (DAS). €78.1 million from Deduction at Source (DAS) is included in the €574m All Taxpayer collection figure for LPT year 2026. However, it is not possible at present to separately identify the DAS for Newly Liable properties, so there is no DAS included in the €8.1m Newly Liable collection figure.

[2] 1,470,125 owners refer to those who filed returns and/or those who made payments but filed no returns. This number is inclusive of all LAs and all AHBs.

[4] €627 million is the LPT liability, with €574 million (recorded in Table 1) collected to date.

Figure 1: Bar chart of liability to-date for LPT year 2026 by Local Authority

Figure 1 outlines the distribution of the liability to date for LPT year 2026 broken down by Local Authority. Total liability for 2026 is €627m. The average liability for a Local Authority is €20.24 million. Dublin City has the highest liability by a considerable margin amounting to €106.25 million. The Local Authority with the lowest liability across the country is Leitrim with €2.60 million.

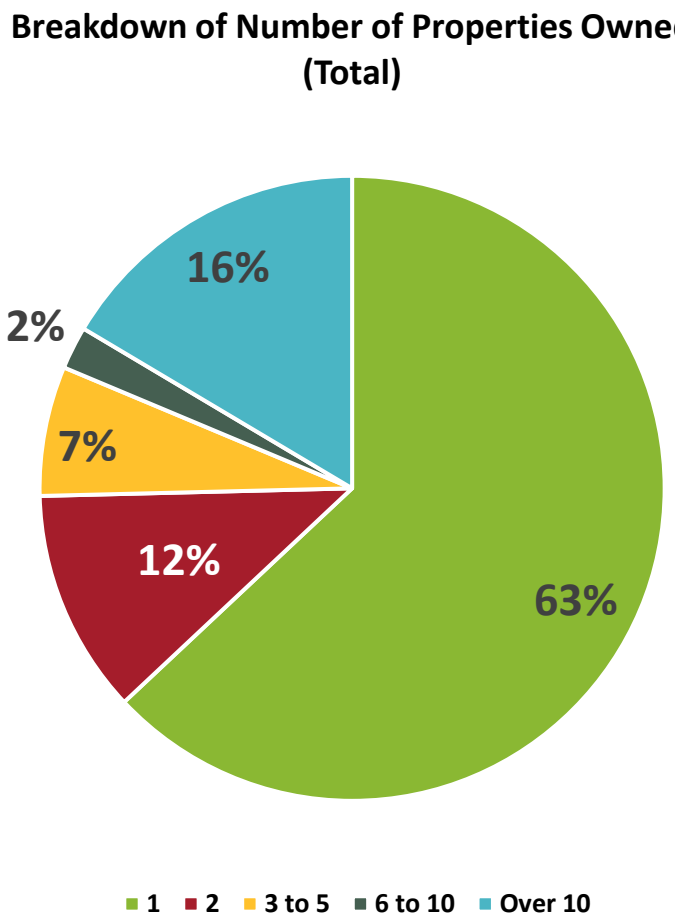
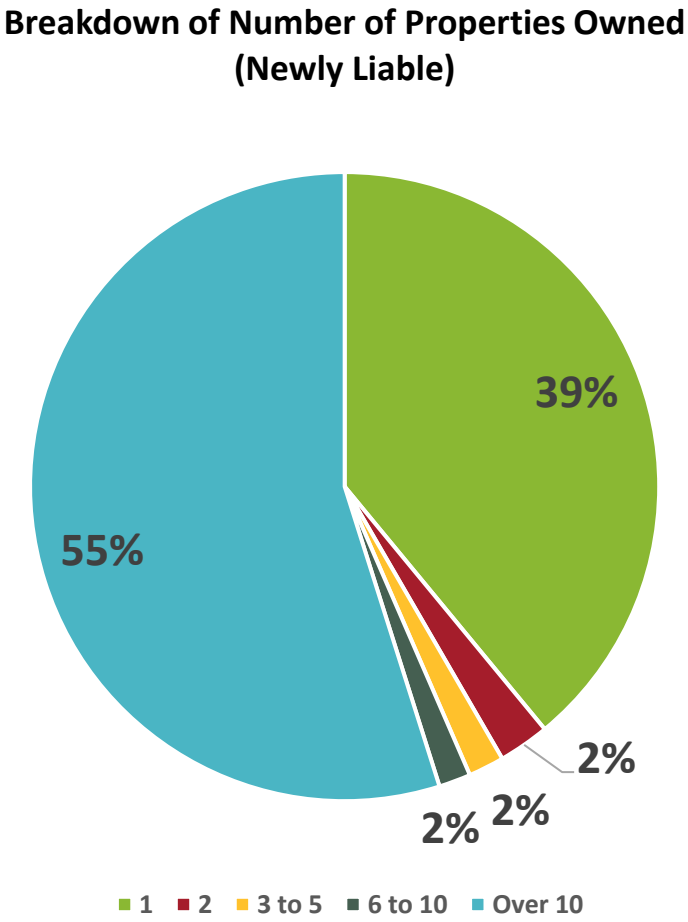
[5] Property Ownership in the LPT statistical reports is based on owners of properties where a return has been filed and/or payment has been made. Ownership is based on the most recent owner of the property rather than the owner that was liable on 1/11/2025 for the property.

Figure 2: Property Ownership

Figure 2 outlines the distribution of property ownership broken down by number of properties owned. The left pie chart shows that 63% of all properties are owned by a single property owner and 16% of properties have owners with over 10 properties. The pattern changes with newly liable properties for 2026. Just under 55% of newly liable properties are owned by owners with over 10 properties while 39% are owned by a single property owner.





LPT Table 4: Analysis of Valuation Bands in LPT year 2026

The tables below provide an analysis of properties that are liable in 2026 where a return has been filed or payment has been made. A breakdown for all properties, those that are LA owned and newly liable is provided below. The speech bubble on the right gives an indication of band movement, specifically how many owners have agreed/disagreed with the Revenue valuation.

For 82% of properties, the owner valuation band is the same as the Revenue guidance

7% returned a lower band (6% reduced by 1 band, 1% by 2 and 0.3% by 3 or more)

10% returned a higher band (9% increased by 1 band, 1% by 2 and 0.4% by 3 or more)

Therefore, 97% of owner valuations are the same or one band higher or lower than the Revenue guidance

LPT Table 5: Expanded Distribution of Valuations to Date for 2026

The table below provides the distribution of valuation bands to date including properties owned by Local Authorities and Approved Housing Bodies. All properties owned by Local Authorities/Approved Housing Bodies are in Band 1.

The full distribution is provided where possible. Where a Local Authority has low property numbers in the upper bands the remaining bands are grouped under the last value shown. For example, .2% of properties in Carlow are in bands 9 to 20. This is to protect taxpayer confidentiality.

Vacant Homes Tax (VHT): 3rd Chargeable Period

Vacant Homes Tax (VHT) is an annual self-assessed tax introduced in the Finance Act 2022. VHT applies to properties which are residential properties for the purposes of Local Property Tax (LPT) and have been used as a dwelling for less than 30 days in a chargeable period. VHT will not apply if the property is derelict or uninhabitable, was sold in the chargeable period, is subject to a qualifying tenancy, or is exempt from LPT for 2026. In addition, several exemptions to VHT can be claimed as part of the VHT return.

The third chargeable period for VHT is 1 November 2024 to 31 October 2025. A return must be filed within 7 days of the end of the relevant chargeable period. For the third chargeable period, VHT is set at a rate equal to seven times the property's standard LPT rate, that is, the LPT rate for the relevant band before any Local Authority Adjustment factor.

A register of vacant homes has been established by Revenue and will be continually updated as necessary.

The following table is a high- level overview of the VHT returns received to-date for the third chargeable period. VHT returns are open to amendment by the filer and as such the underlying numbers may fluctuate. This information is provisional and will be revised.

VHT Table 1: Summary Statistics

Chargeable Period 3: 1 Nov 24 - 31 Oct 25	As of 19/10/26
Total properties declared as vacant	2,332
Of which: liable for Vacant Homes Tax	1,741
exempt from Vacant Homes Tax	591
Total liability to Vacant Homes Tax	€2m

Residential Zoned Land Tax (RZLT)

The Finance Act 2021 introduced Part 22A Residential Zoned Land Tax (RZLT) into the Taxes Consolidation Act 1997 ("TCA 1997").

RZLT is a self-assessed annual tax which is calculated at 3% of the market value of land within its scope. It applies to land which is zoned for residential use and is serviced and identified on maps published by Local Authorities, but which is not a residential property. RZLT aims to prompt residential development by incentivising landowners to activate existing planning permissions, or to engage with planning authorities to seek planning permission in respect of relevant land.

Each Local Authority has prepared and published a map identifying land within the scope of the tax. These maps will be revised and published by 31 January each year by local authorities. A draft of the annual revised map will be published by 1 February in the year prior to the year in which the annual revised map is to be published. The legislation provides for a submission and appeal mechanism in respect of land included on the draft map, if a landowner does not believe that such land meets the criteria for inclusion in the map.

Land that meets the criteria to be included in the annually revised map and that is subject to RZLT is known as a "relevant site". The liability date for the tax falls on 1 February each year. The relevant site is to be valued every three years following the first applicable valuation date, subject to certain RZLT deferrals that may apply or the sale of the site.

RZLT is not payable in respect of residential properties, where such properties are subject to Local Property Tax. An owner of a residential property that is included on an annually revised map is required to register for RZLT if their garden and yards are greater than 0.4047 hectares, however no RZLT liability will apply.

As of 23 October 2026, there have been 3,562 registrations for RZLT. 2,170 RZLT returns have been filed for the 2026 period. Of these filed returns, 178 have claimed an exemption and a further 708 have requested a deferral.

The tables on the following pages provide breakdowns of RZLT Returns for the 2026 period by Local Authority, Deferrals and Exemptions. An abatement may be claimed following a claim for deferral, as such underlying numbers may fluctuate. This information is provisional and will be revised.

Detailed information on RZLT is available at:

Any queries in respect of RZLT published maps should be addressed to the relevant Local Authority. Further information in respect of same can be found here.

Due to Revenue's obligation to protect the confidentiality of taxpayer data, as provided for in Section 851A of the Taxes Consolidation Act 1997, it is not possible to provide data where there are low number of taxpayers involved.
