eCustoms Helpdesk Notification

Number:	**Ref: 03/2026**
Subject:	AES EIDR and supplementary declarations
Who should read:	All those involved in Simplified export procedures, including Software Providers.
Related Notification:	**N/A**
Issued by:	**eCustoms Helpdesk**
Queries to:	**eCustoms@revenue.ie**
Issue Date:	**02/03/2026**

1. Introduction

On 16 March Revenue will introduce a new message for the Automated Export System (AES), the IE512 recapitulative supplementary declaration. This will provide functionality for Entry in the Declarant's Records (EIDR) at Export and a 'one to many' supplementary for simplified procedure declarations.

IE512 is now available in PIT for trader testing

2. Business scenarios

 i) **EIDR (Entry In the Declarant's Records)** pursuant to Article 182 of the Code.

Current AES specifications do not accommodate for EIDR. The implementation of the IE512 message with additional declaration type '**V**' will allow for singular and multiple EIDR entries.

Where the EIDR holder has a 'presentation waiver' the procedure will be:

a) Submit the IE512 recapitulative supplementary declaration within the time limit detailed in the authorisation. Include the EIDR authorisation number:
   - 12 12 002 000 Type = C514
   - 12 12 001 000 = authorisation number

b) Reference, at Goods Shipment level, under 'Previous Document' the date of entry in the records:

- 1201 002 000 = NCLE
- 12 01 001 000 = date of entry into the records (yyyymmdd + Declarant Records Reference)

Where the EIDR holder does <u>not</u> have a 'presentation waiver' the procedure will be:

a) Submit the IE511 (presentation notification) message(s), when the goods are presented to the Office of Export. Include the EIDR authorisation number:
   - 12 12 002 000 Type = C514
   - 12 12 001 000 = authorisation number

b) This message will be validated and once accepted, an IE528 message will issue with the MRN to the declarant.

c) Subsequently, submit the IE512 recapitulative supplementary declaration within the time limit detailed in the authorisation. Include the EIDR authorisation number:
   - 12 12 002 000 Type = C514
   - 12 12 001 000 = authorisation number

d) Reference, at Goods Shipment level, the MRN for the IE511 message under 'Previous Document'
   - 1201 002 000 = NMRN
   - 12 01 001 000 = MRN of the simplified declaration

e) Reference, at Goods Shipment level under 'Previous Document' the date of entry in the records:
   - 1201 002 000 = NCLE
   - 12 01 001 000 = date of entry into the records (yyyymmdd + Declarant Records Reference)

There can be multiple instances of Goods Shipment level.

ii) **Simplified & Supplementary business scenario** pursuant to Article 166 of the Code

The IE512, additional declaration type '**U**', allows for a one-to-many relationship between the supplementary and simplified declarations, i.e. multiple simplified declarations can be accounted for on the one supplementary declaration. The procedure will be:

a) Lodge an IE515 simplified declaration(s), including the authorisation details in the following data elements:
   - 12 12 002 000 Type = C512
   - 12 12 001 000 = authorisation number

b) Subsequently, lodge the IE512 recapitulative supplementary declaration, within the time limit detailed in the authorisation. Include the authorisation details in the following data elements:

- 12 12 002 000 Type = C512
- 12 12 001 000 = authorisation number

c) Reference, at Goods Shipment level, the MRN of the simplified declaration under 'Previous Document'
   - 1201 002 000 = NMRN
   - 12 01 001 000 = MRN of the simplified declaration

There can be multiple instances of Goods Shipment level.

3. **Further Information**

Please note, an electronic application is required in the Customs Decision System (CDS) for EIDR and Simplified Procedures. Traders should contact SimplifiedProcedures@revenue.ie before submitting an application.

Please email eCustoms@revenue.ie with any queries in relation to this notification.
