

Enable Popups - MAC

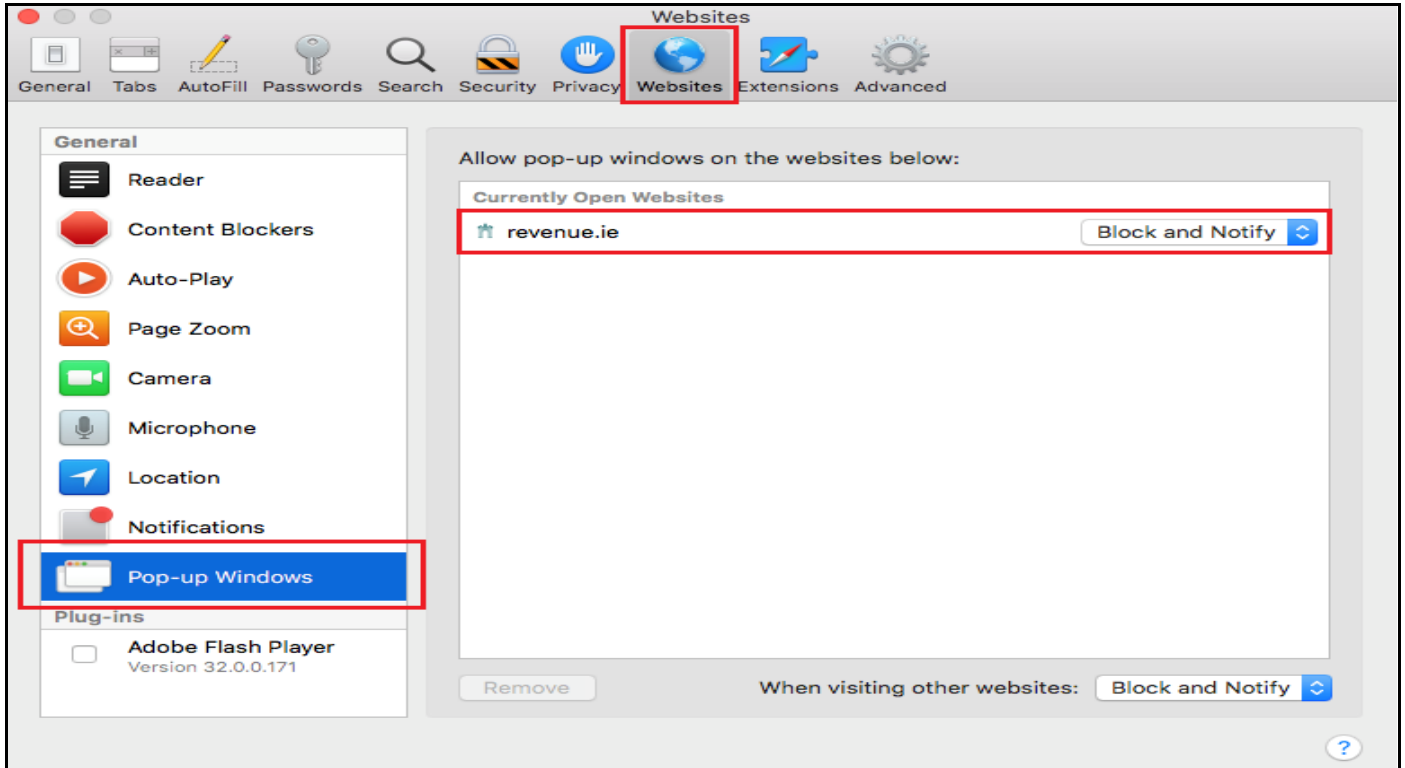

Safari 12

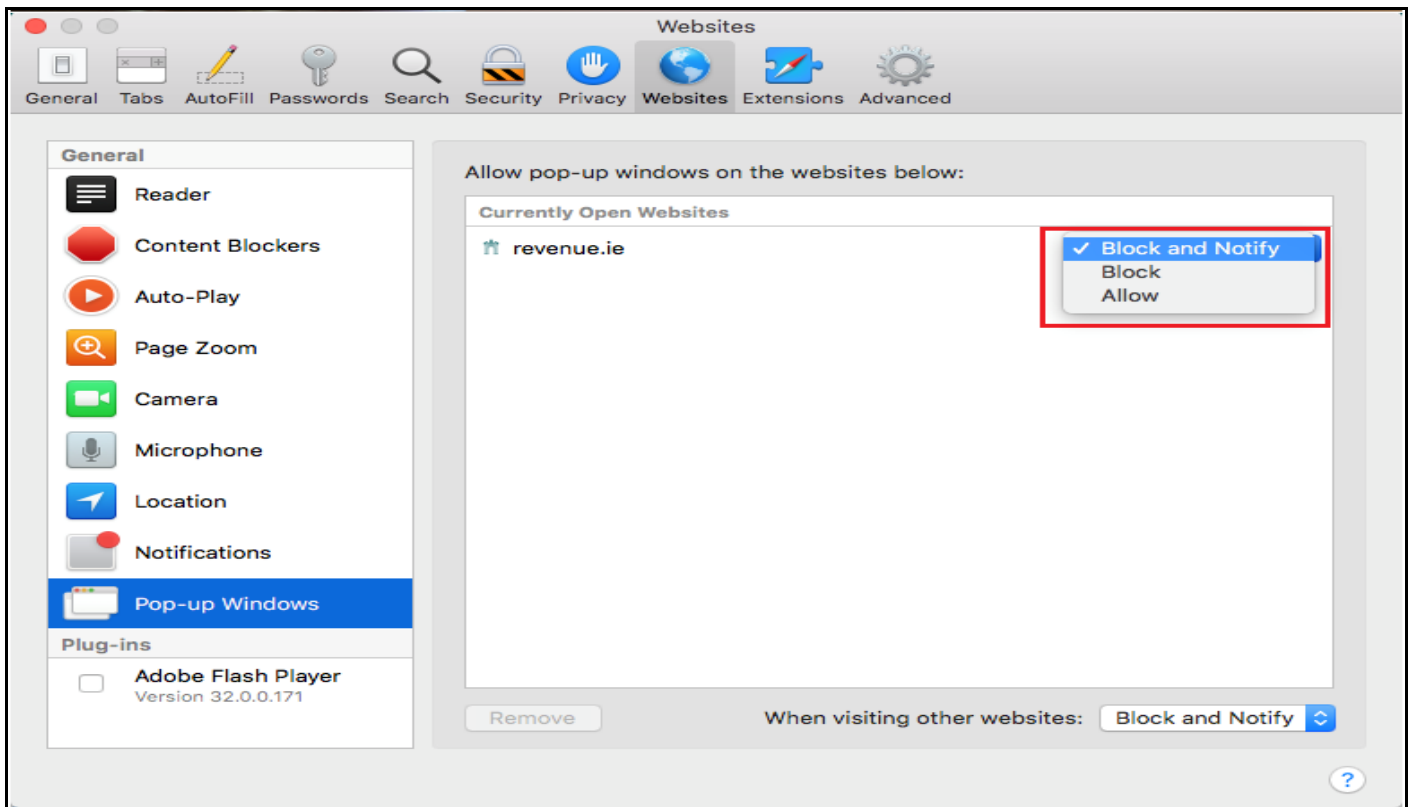

Safari -> Preferences -> Websites.

On the left-hand side under "General", click "Pop-up Windows"

Under "Currently Open Websites", you should see revenue.ie

To the right of this, click on "Block and Notify" and choose "Allow".

Safari 10 & 11

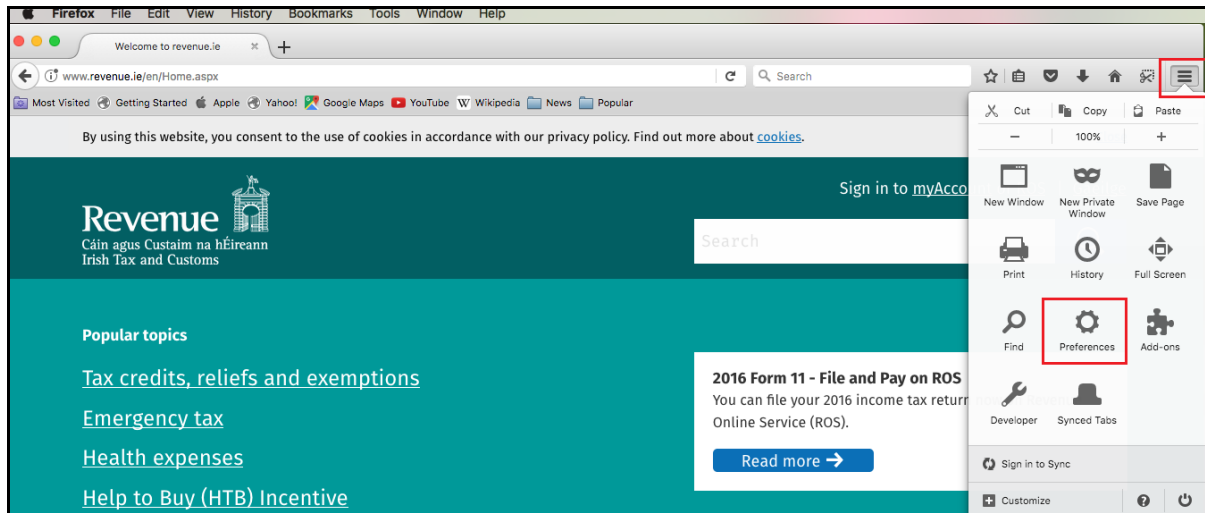

Safari -> Preferences -> Security.

The option to “**Block pop-up windows**” should be Un-ticked.

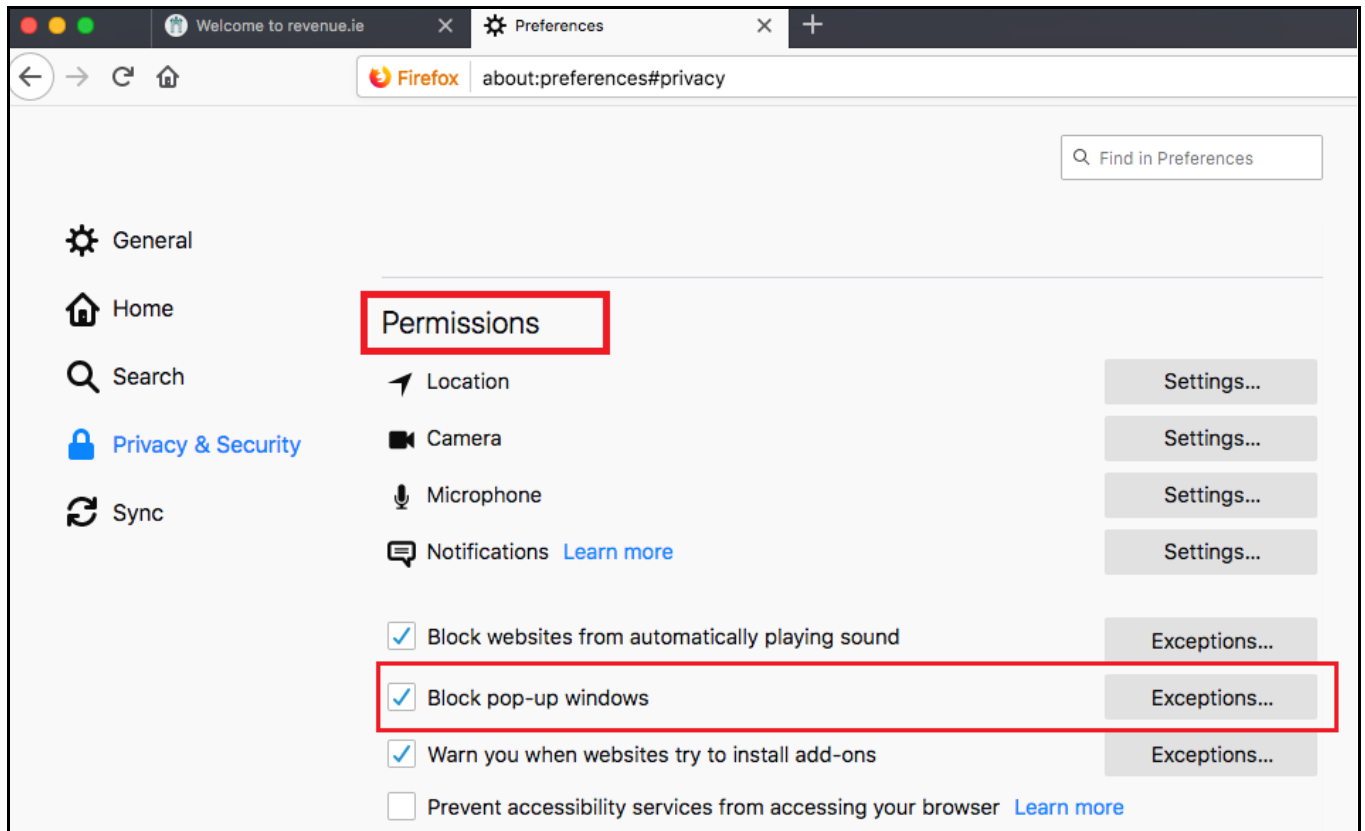

Firefox

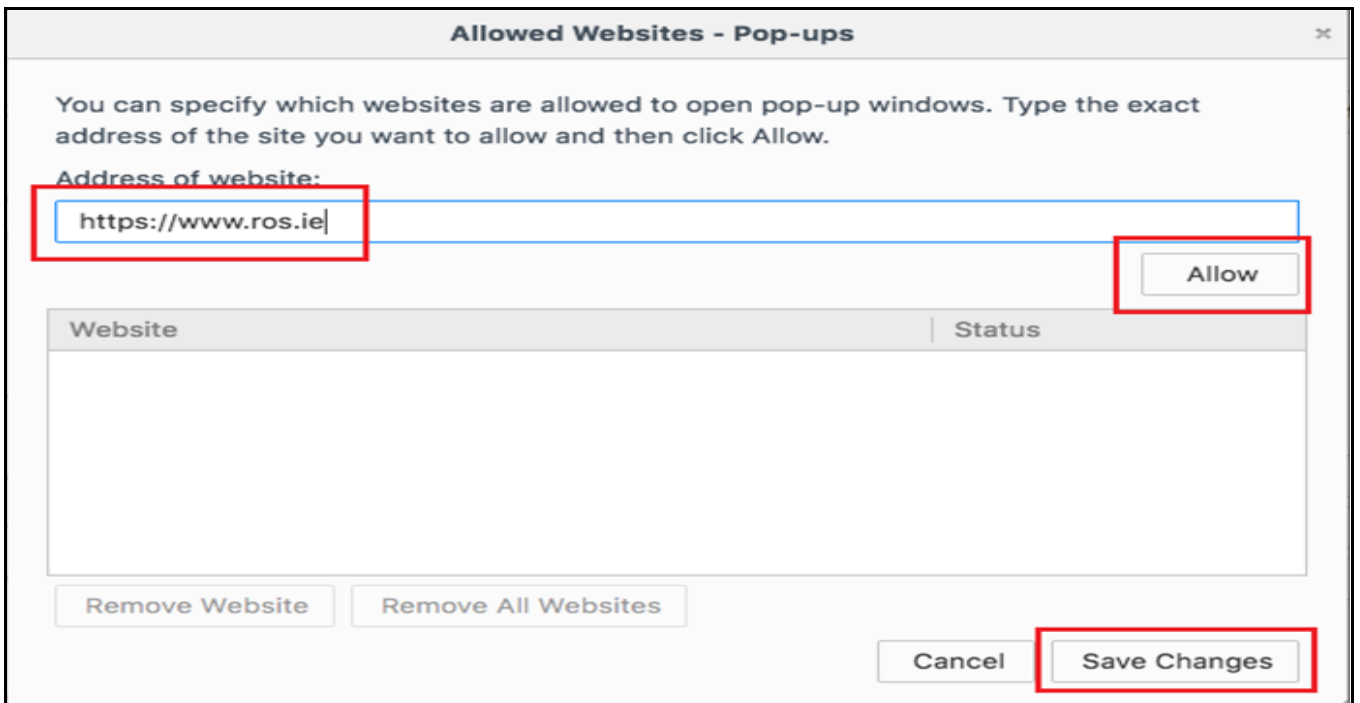

Click the three lines in the top right-hand corner and select “Preferences”.

Select “Privacy & Security” and scroll down to “Permissions”, then click “Exceptions” opposite the Block pop-up windows option.

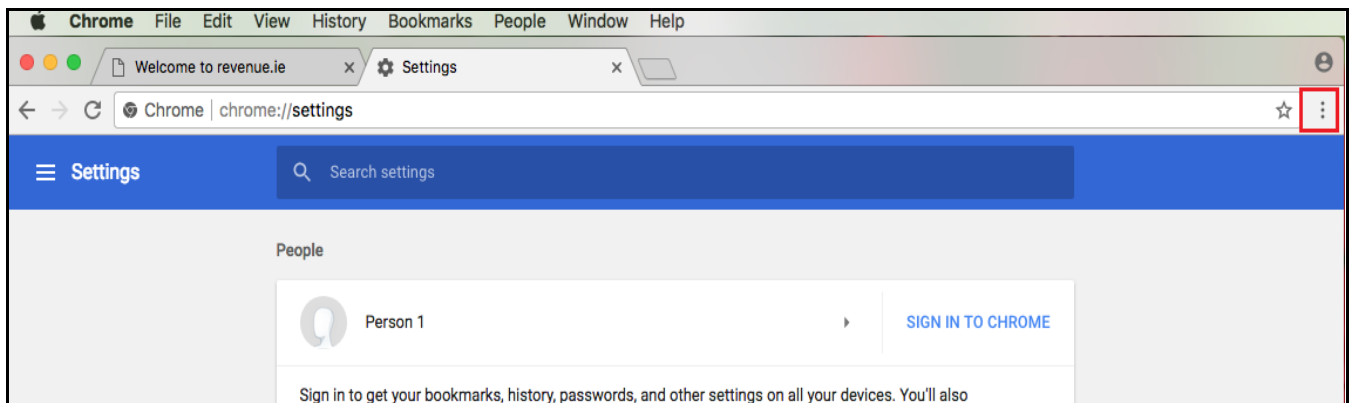

Type in <https://www.ros.ie> and click “Allow” and then “Save Changes”.

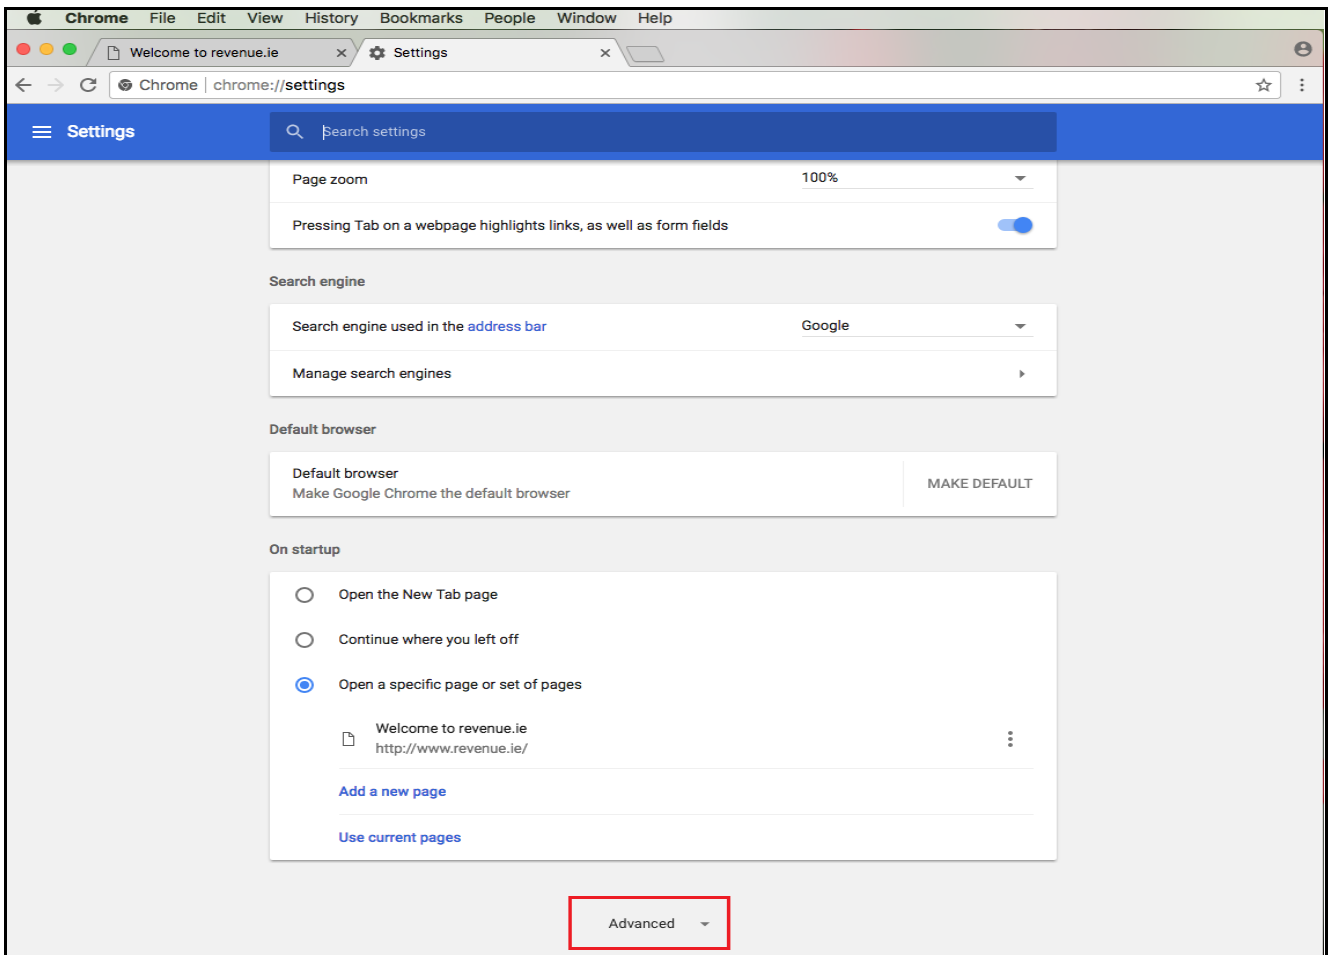

Chrome

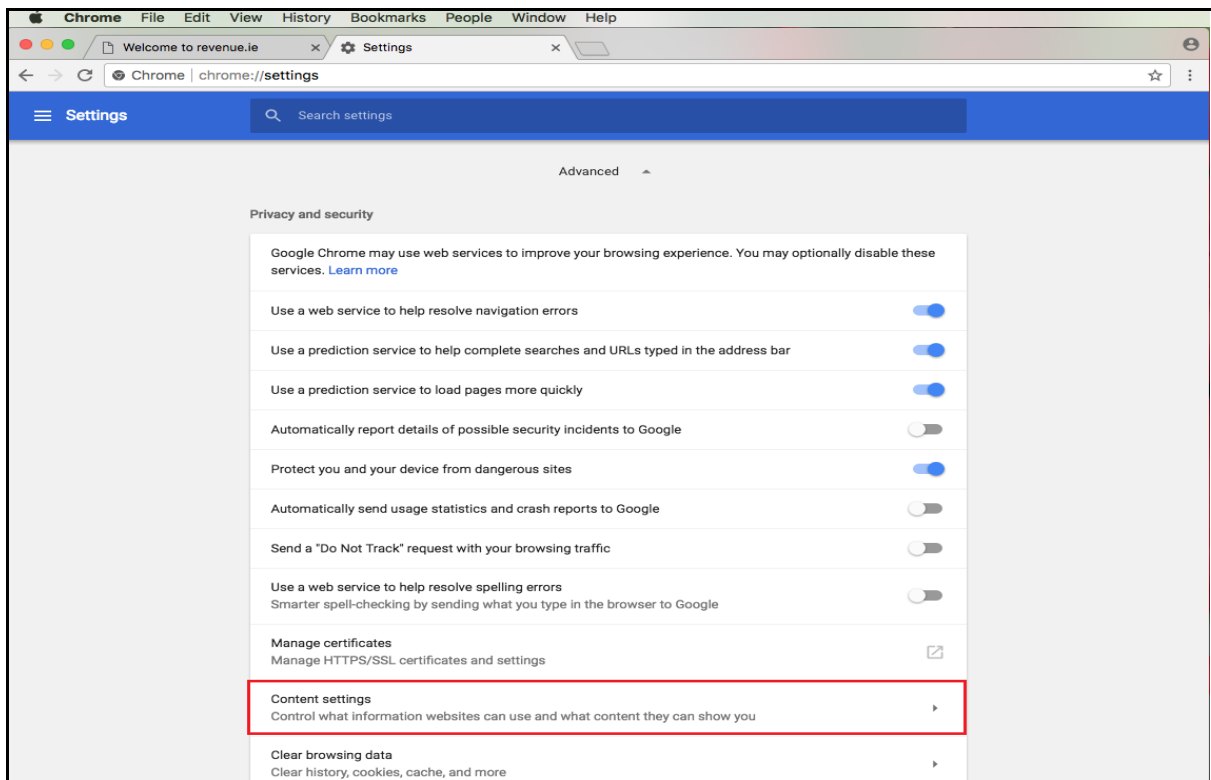

Click on three dots and select “Settings”.

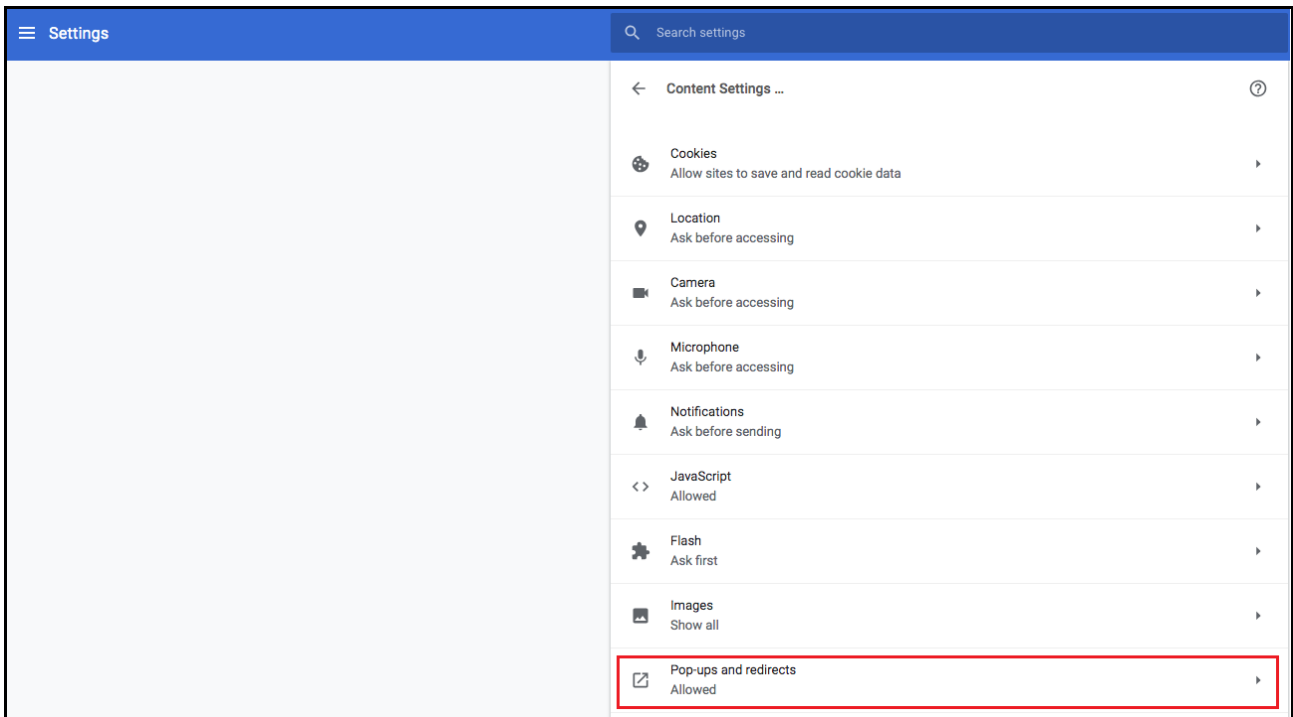

In Settings, scroll down to “Advanced” and click on this to view additional options.

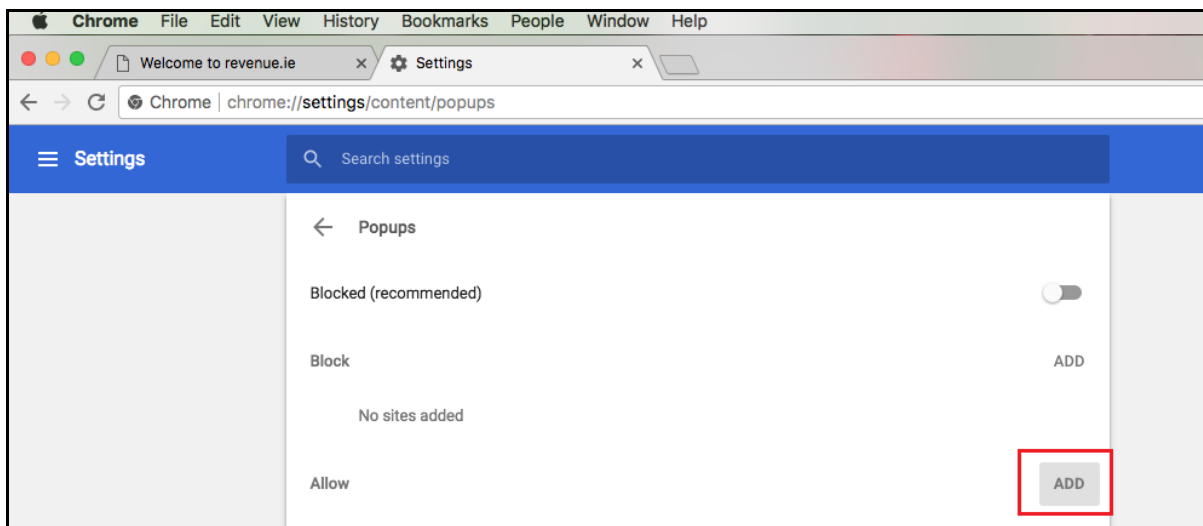

Under the “Privacy and security” heading, click on “Content settings”.

Click **“Pop-ups and redirects”**.

To the right of **“Allow”**, click **“ADD”**.

Enter <https://www.ros.ie> and click **“ADD”**.
