

Technical Interactions With ROS

Overview

- Web Services:
 - Submit request & receive transaction ID
 - (later)
 - Collect response(s) from Customs Mailbox
 - (then) Acknowledge response(s) to remove from Customs Mailbox

Requirements

- For new customers, need:
 - ROS Cert
 - Registration for Customs & Excise (incl. EORI)
 - Consider whether using agent as declarant

- Updated Standards (compared with current Customs SOAP Services):
 - SOAP 1.2
 - WS Security 1.1.1
 - WSDL 2.0
- All Services (including current and AIS) will be available like this

- In addition to updating SOAP message standards, specifically for AIS Services – RESTful (XML) endpoints
